Alix Board Of Trade

& Agriculture

At the annual meeting of the Alix Board of Trade and Agriculture, held in the U. F. A. hall, it was decided to discontinue meetings for the time being, owing to the lack of interest by the merchants of the town.

The retiring President, Steve (Lindsay), reported on the activities of the last year. These included a visit by C. R. E. senior officials last February, a number of educational film shows and a Magiclan show with Frank Hermon. During the year the executive and their members of the Board held in turn the annual meeting of the Alix Board of Trade and Agriculture, and a lecture by Mr. James Russell at Red Deer on the West Central Irrigation Project.

Under the Board's sponsorship, and with their financial aid, a most successful and successful Junior Girls' Club was organized, the winners of the Grand Aggregate Prize and Medal being Ronald Burley, Jimmie Schepch and Bonnie Anderson.

As president and David G. Carr, secretary, these boys are to be congratulated on their work.

Perhaps the highlight of the year's activities was the splendid Community Sale which the Board organized to raise money for the pooling of the hatching seeds. The sum of \$720.00 was raised for this worthwhile project.

The November meeting took the form of a banquet in honor of our local M. L. A. the Hon. D. W. MacMillan, Provincial Minister of Agriculture. Mr. MacMillan was accompanied by his wife and several guests from this district and gave an interesting address in the various activities of his department.

The Hon. Trustee Tom Johnson presented the financial statement, duly audited by C. Thorpe. This was accepted by the meeting. Those present decided to place the balance in a trust fund to be utilized when the district decided to revive a Board.

Mrs. Emmett of Red Deer has been nursing Mrs. Jack Roberts for the past two weeks, after her home in Alix.

Mr. Lyle accompanied Mr. Cherrish Walsh and Mr. G. A. Derron on a business trip to Edmonton recently.

Dave Stone and Lindsay Lyle made a trip to Edmonton last week bringing back a new tractor.

Mrs. and Mrs. James Blair and son of Calgary, were visitors in Alix during the week.

There was good attendance at the Women's Institute meeting last Thursday afternoon. The next meeting will be held at the home Mrs. Paul Leckner on Thursday, February 14th.

Mr. and Mrs. E. Pihlaja are visiting relatives and friends in the United States.

Clive Hill passed away early Wednesday morning in the Holy Cross Hospital, Calgary. Friends and lots of flowers can be loaned from either Bruce, Stone or Jennings garage.

Mrs. R. F. Holworth and Rose are visiting at Syrian Lake.

Mrs. Douglas Kleckner is in the Lacombe hospital suffering from a bad attack of flu.

Mrs. Jack Roberts has been removed to the Lacombe hospital for medical treatment.

Mr. C. Thorpe underwent an operation in the Lacombe hospital this week.

THE WINNIPEG GRAIN EXCHANGE IS A MEETING PLACE—

Except that business is done on a larger scale, the Grain Exchange is similar to a town or village market where farmers bring in produce to sell and the public go to buy it.

The Exchange itself neither buys nor sells grain. Nor is it a profit-making institution.

Nobody in the Trade is asked to become a member. It is entirely a voluntary association of men who, by exchanging, buying, handling, producing, storing, forwarding, shipping, importing and exporting grain, the Exchange in their common meeting place where business can be done more economically and without loss of time. Every member of the Exchange serves the interests of farmers in one way or another.

With a few men from a large scale are members of the Exchange meet farmers, where they wish to buy or sell grain, merely a Commission Agent, Elevator Company, Co-operative or "Pool" is not on their agenda.

As "Pools" are members of the Exchange and use all of its facilities, they couldn't get along without the Exchange if they knew it.

The Exchange has been in operation for sixty years and is world famous because of the high standards of conduct observed by its members.

Farmers are cordially invited to visit the Exchange during trading hours, 9:30 to 1:30 p.m. Ask to see the President or Secretary, or any Member. Ask questions. Straight answers will be given.

Our members forward a free price paper, administered by the Canadian Wheat Board. But they also know that farmers might have the opportunity to get the most profitable price through open markets, where prices are high.

The many farmers know that the Exchange is the best place for handling the business of grain. It explains how farmers are represented and controlled by it, in its present form.

Conserving Soil Conservation

In the last fifty years the loss of our fertile soil through erosion and mismanagement has been enormous, and it is still going on. The conservation of our precious soil, therefore, is not a matter to be delayed. It is one of absolute necessity today. This leads us to the subject of soil conservation and what safeguards it from wind and water erosion.

Soil conservation is proper use and care of the land. More specifically, it means using land efficiently under a farming system that safeguards it from wind and water erosion.

Soil conservation includes any and all measures which will make the land produce more without damaging it. There are many things the average farmer can do to conserve the soil. Some of these are:

(1) Use of proper tillage methods and cropping practices to conserve moisture.

(2) Use of a "fertility" room, manure and chemical practices to prevent soil drying and washing.

(3) Grow more grass and legume crops.

(4) Use of proper drainage systems.

(5) Use of contour farming.

(6) Use of windbreaks.

(7) Plant trees and shrubs where possible.

(8) Do not leave land in bare soil.

(9) Do not overgraze.

(10) Do not use too much fertilizer.

(11) Do not use too much insecticide.

(12) Do not use too much herbicide.

This A.A.A.

Two big hockey games were played in the Arena Sunday night when the Dulworthers, the House Mopps and the Fork Handlers v.s. the Pansies for their first games in the Western League.

There is little doubt but what the ladies game was the most exciting (and hilarious) of the season. Despite the fact that House Mopps goalie, Carter, showed excellent form in covering the goal, and in spite of the excellent netting of Riquard on Louder Brewer, mounted by Livingston, two direct hits were made by Nook and one by Nook on Carter's Hanger.

Although forced to bail out in enemy territory, L. Hole north managed to escape and limp back to Home Base.

Only minor bruises and shock were sustained by fighters Nook and Johnson who came together in a head-on collision. They were soon back into the fray after taking their bearings and settling their positions.

Student Pilot Don, scoring for the first time, showed very promising ability, by coming in to make several forced landings.

An exhibition of blind flying was given by Mann and M. Johnson.

The pancake landing was made by H.F. Flyer Thorp, whose motor stalled while still sitting in mid-air.

The minimum fine went to McGee who had to be on the runway when Primus came sailing in to land.

A new disaster occurred when H. Holworth crashed the landing field and landed into Butler's Hanger.

While Johnson and Cowman were in effort to refuel some of the others seemed to have plenty of gas. For some at the finish, Dulworth or A. Floor Mopps O.

As soon as we are over our groans and complaints, here about another, ladies?

In the first 10 minutes play the puck had been carried from centre to one end of the rink and back very back. It was about this time that had man Mann sent a player coming toward him with the puck promptly threw himself to the ice and was awarded a penalty for something. Shortly thereafter Houkley Pop Walper was outscored for 2 minutes, and the Forkhandlers immediately put on each a dazzling display of stickhandling it was hard to tell who was on the ice or in the air.

Every trick of Coach Marryat was employed at this time to withstand this vicious assault. Coach Marryat himself took the ice in his endeavor to defeat Walper. Woodie did a perfect job of watching the line of wipers intrusions. A remarkable strong ice control was exerted repeatedly by Glen Tooper, Art Keaton, Jack Nelson and Glen Walker, and despite their frantic efforts to get through, it was still standing at the end of the game, though showing signs of the terrific abuse it had withstood.

As the game progressed more penalties were handed out to the Pansies. Pop Walper was sent for a second and Brinkley Carter for a third. Louie Waddy he was up and down all the time in the latter stages of the game. The Forkhandlers showed better conditioning came from being in a pool of sweat, and the Pansies, bewildered the pannies, such interest was exhibited that even the score keeper was bewildered, but the unofficial verdict was a tie.

A future game must be played to decide the winner.

J. DOBSONSON WINS BARLEY PRIZE

Placing fourth among Alberta growers in the \$25,000 National Barley Contest, sponsored by the brewing and malting industries, J. Dobsonson, Oliver, won a cash prize of \$100 in the provincial contest. Mr. Dobsonson also won an additional \$100 for placing first in the region to which he entered. Name of the national champion in the contest will be announced at the Manitoba Winter Fair at Brandon the week of April 5-6.

Fork Handlers

Pansies

At the conclusion of the last game, a server to be forgotten, man Thrill was given a penalty against when he hit the ice with the puck and sent it out on the ice in preparation for the battle of the century. Don Stone's Forkhandlers v.s. Dennis Marryat's Pansies.

After a few practice falls the teams were faced off and the players, every man for himself, entered into the greatest pure chasing episode of their careers.

In the first 10 minutes play the puck had been carried from centre to one end of the rink and back very back. It was about this time that had man Mann sent a player coming toward him with the puck promptly threw himself to the ice and was awarded a penalty for something. F.I.L.A. CLEARS 45,400

ACRES IN ALBERTA

IN 1946

Alberta farmers have won \$201,488 in 1947 in prize and bonus for seed production.

The funds comprising the amount borrowed through the Farm Improvement Loan Act.

Of that amount, Alberta farmers won \$171,000 for clearing and breaking 10,000 acres in the Peace River District.

These figures do not include the amount for clearing and breaking carried out in the R.C. block under the heading of F.I.L.A.

The Act, passed by parliament in 1946, provides a partial guarantee to the branches of the chartered banks which of the best loans in the farmer's local community.

G. ALLAN MacNAMARA, newly appointed vice-president of traffic for the Canadian Pacific Railway who will direct the world-wide organization which obtains freight and passenger traffic for the company's trains in Canada and the United States and steamships - coast, ocean and inland.

"She sure hauls them!"

When Bill and his crew go into the woods now, they get timber out twice as fast as they used to. That new tractor Bill bought really hauls those logs!

Back in town, the saw-mill is running full blast, taking all Bill's crew can deliver. . . And this extra activity, this extra income spreading around through the community is largely due to the fact that Bill went to see his bank manager and arranged a loan to buy the tractor. . .

In lumbering towns and rural hamlets, in big corporations and tiny fishing villages, bank credit—money at work—helps to increase business activity in whole communities. Your bank manager's job is to help men and women grow opportunities and to put the bank's facilities to work for you and your neighbours.

THIS IS ONE INSURANCE GO into Canada's 10,000 bank branches and you'll find the daily life and work of Canada.

THE WORLD'S FUTURE IS BEING DECIDED NOW

OUR TOMORROWS depend on what happens to the world's children TODAY. In raised behind the globe there are millions of them in misery—starving for bread of food on garbage dumps, shivering in rags. On the continent of Europe, half the children born since the war are already dead of malnutrition. Those who survive—thrift and children—are desperately in need of food and clothing. They need schooling, too, for their dulled minds grow as sick as their withered bodies.

They are the future . . . If they are not saved, our world is lost!

Canadian Appeal for Children is now conducting campaigns to meet the challenges of these desperate needs. This is a campaign by the people of Canada, with a minimum objective of \$1,000,000 to provide food, clothing and school supplies for the children—admitted the health of dependent and suffering mothers—in devastated lands around the world.

Whenever possible, all donations will be used for the purchase of Canadian goods and the distribution of goods will be under the direction

of responsible United Nations operating agencies. Your help is needed now. You sympathize. You want to give. But goodwill and good wishes are not enough. Give you may not be convinced, don't let failure to act on your conscience. Can't BANK will accept your donation. Turn your sympathy and good wishes into a tangible contribution—go to your bank now and give. FARMERS and MEMBERS OF CO-OPERATIVES: consider your best organization as to the best way to make your contribution.

CARNIVAL

The second annual carnival of the Alex. Athletic Association was a gala event, attended by a large crowd from all parts of Central Alberta. Mr. W. J. Edwards, president, after a few appropriate remarks, introduced Mr. G. Hall, a respected resident of the district, who in turn officially opened the carnival.

As an opener a hockey game between Fortnaburg and the Alex. Athletics resulted in an exciting tie. The local boys played a sterling game in front of their next number. The hockey game was a real treat, and the Alex. Athletics played a sterling game in front of their next number. The hockey game was a real treat, and the Alex. Are You Interested In Politics?

Politics shape our lives. It takes us in and out of wars. It decides whether women will have decent homes, children will have a chance to grow up healthy and fit for adult life. You may take no interest in politics, but you may depend upon it, politics takes an interest in you. If you do not want to be a miserable pauper on the board, politics arrived to suit somebody else's cynical view, the man up your nose is taking an interest in politics. - J. R. Priestley.

RED CROSS APPEAL

ON MARCH 7

Nordberg drew lot, hood, but Bill Buchanan secured a sale. He closed the lot in about one hour. The lot period ended at 11:30. Alix took command in the end, and jumped into a T-1. Nordberg came back to form lines in the third but still could not get back into the game; a result Alix came out on the heavy side of the 10-3 score. Alix scored were: Buchanan, Jennings, Watt and Tumbly. Alix with two goals each. Bill Buchanan and the other three. Alix scored 2 for Nordberg. Buchanan scored 1. Alix scored the only 2 penalties of the game. Mirror defeated Nordberg 3-1 in a rather rough, but fast game played on Alix ice. Johnny Tumbly was in the line role for Mirror, scoring 1 goal. Bill Buchanan scored the other goal. Buchanan, Thompson and Jennings scored for Nordberg. 11 penalties were taken in the game. Alix won at Mirror.

PHILADELPHIA - Drop of children. Alix. Goal of the Angles. Chalky one putting in a shot. Alix lost and sale of Hon. Alix on Saturday March 25 at 2 p.m. in the U.S.A. Alix.

In The C.C.F.?

If you will have an opportunity to learn more about this Democratic political organization by reading this column every week. In 1932 in the depths of the depression a group of young men and women, most of whom had been active in Farm and Labor groups, gathered to lay the foundation of a new Political Party in Canada. They realized that the two old political parties had failed miserably to redress the economic distress of millions of Canadians at that time. Farmers were receiving prices below the cost of production; hundreds of thousands of men and women, idle and willing to work, were unemployed. They and their families were existing on pitifully inadequate relief allowances.

At the first convention, the newly formed Co-operative Commonwealth Federation drew up a program which, if adopted, would have been a forerunner of underlying needs of our returning home and depression.

While there are still many Canadians who do not support the C.C.F. at election time, it is still very apparent that they do want the C.C.F. program. Their current concern is to take action for stabilized prices, ending of the Winnipeg Grain Exchange, rural electrification through a Government hydro-electric system, and many other progressive measures which the C.C.F. has adopted.

The regular meeting of the Women's Institute was held at the home of Mr. Mortimer on March 4th. Next meeting will be held at the home of Mrs. Jennings on April 1st.

SPECIAL FARES for the Easter Holiday period on Canadian Pacific Railway Lines are announced by W. H. Buchanan agent, Alix. The low fares will be available from Thursday, March 22nd, to Monday, March 25th and will be good for returning destination up to midnight of Tuesday, March 30th. On branch lines where there is no train service on March 25th tickets will be valid to return on first available train thereafter.

The low rate of single fares and one third for the young people will be good between stations in Canada and in all classes of accommodation.

National Health

WHERE NATIONAL HEALTH WHERE was observed in February, as president of the National League of Cities suggesting that "every citizen should be healthy." Weiskopf said every Canadian should be healthy. The great importance of good health, both to the individual and to the nation cannot be overestimated. Illness is costly to the individual both in personal inconvenience and in money, while a nation with poor standards of health suffers as well from increased expense in maintaining hospitals and medical services, and in loss in production due to illness among workers.

The industrial revolution has brought about changes in the way of life which have proved to be an enormous, both in increasing the efficiency of labor and in reducing human suffering.

ARE YOU GETTING THE TAX DEDUCTIONS YOU ARE ENTITLED TO?

The Farm Account Book and Income Tax Guide shows you how!

How much can you deduct for depreciation on your tractor? Your automobile? A shed? What expenses can you deduct? There are 73 articles in common farm use plus a wide variety of deductible expenses for which depreciation can be charged—all listed in the new Farm Account Book. These legal deductions from your income are a big saving in Income Tax Time and the answers to those and to dozens of other questions are in this new Farm Account Book.

A Record of Your Transactions and a Guide to Your Income Tax Return

WHAT IT DOES—Keeps a clear record, helps you budget—and shows you whether you have made or lost money on your operations. Shows you too, what your best lines are and where you may be farming at a loss. Saves you hours of time from book keeping. First ten pages are for your receipts—from sales of crops, seeds, livestock, poultry, dairy produce and all other produce. These come twelve pages of all farm expenses—you are reminded of items you might otherwise forget. Establish a basic head, apply for the three-year-average plan, calculate your depreciation from it. These are money-savers for every farmer. They're all in the new Farm Account Book.

...more than his fair share of it. Comments from *Letter to the New Farmer* and *Letter to the Old Farmer* are included. "A long awaited story for the benefit and guidance of the farmer." —*Times Herald*. "Takes the kinks out of keeping and accounts for the farmer's mind this Account Book for farm people." —*Record*. "Has been helping in its simplified form—a real help." —*Record*. "We have been looking for a long time for a book like this." —*Record*.

TECHNORAGY SPEAKER IN ALIX

Art Milligan, Speaker Organizer for Technoragry Inc. was in Alix on Monday to pick up a White threatening Unit which is being organized and painted Technoragry grey at Jernalee garage. This Unit is equipped with sound units and picture projector. He said it will be used for organizing work of any kind when called into the arena.

Technoragry Inc. is a civilian wide educational organization, advocating the adoption of the methods of science in the operation of the social sciences of North America. A public meeting will be held in Alix on May 14, when it is probable that a speaker from Vancouver B.C. will explain Technoragry's philosophy and the organization of an audience to all North Americans, with plenty of literature and the means to enjoy it.

TWO DEAD, ONE SERIOUSLY BURNED IN EARLY MORNING FIRE

Fire of unknown origin broke out at 7:15 on Wednesday morning in the home of Mr. Arnold, 1414, 1st St. The fire, which was burning in the kitchen, was extinguished by the fire department. The fire caused the death of two small boys, aged four months, and one girl, aged four months, who were sleeping in the kitchen. The girl, who was named Lyla, was found dead in the kitchen. The boy, who was named Lyla, was found dead in the kitchen. The girl, who was named Lyla, was found dead in the kitchen.

The house, although very badly damaged, was not a total loss due to the excellent work of the local volunteer fire department.

A fund is being established here to try and help Mr. Lyla in his financial difficulties. The fund will be managed by the local volunteer fire department.

Contribution lists are at the Royal Bank and all places of business.

The World of Wheat

By Dorothy, Esq. Crop Testing Plan

Increases in Freight Rates

The Canadian Board of Freight Commissioners on March 31st announced a 21 per cent increase in most railway rates. The freight rates on grain transported in Canada, however, are not increased.

This all means that the cost of the things farmers have to buy will be increased by their own wheat, which is made by the increase in the freight rates. If it is a high staple, the cost of goods now costs a dollar in the country retail store and the farmer's cost is now 25 cents.

At the same time the cost to the farmer of the same thing in the future would be just over \$1.00, or to increase in the cost of goods farmers buy of between 25 and 50 per cent.

The reason for this has been the great increase in wages and cost of materials in the oilseed operation. (The cost of production for oilseed is \$1.00 according to the British index, but now it is \$1.25, about 25 per cent more.)

It is the opinion of the farmers, if this freight rate is approved, it is a good thing to have the proper full market price for their wheat, because grain, livestock and livestock products in order to lower their own increased costs.

Teachers —

Or Millionaires

The shortage of rural teachers continues to be a serious problem in Alberta, and there is no indication that there will be any immediate improvement in the Lacombe School Division, 14 of the 24 schools have no teachers, and students are being transported considerable distances to other supervisors.

Teachers' salaries must be high enough to induce men and women to remain permanently in the profession. Too often at present teaching is only a stepping stone to some other better.

The rapidly rising school and municipal taxes cannot continue. The Alberta Education Association has asked the Provincial Government to pay at least 50 per cent of the education cost in the province.

At present, the Provincial Government pays about 30 per cent. We have pointed out again and again that our Provincial Government could, if wished, obtain much greater revenues from oil. Under the present 15 per cent royalty on the imperial and other American oil companies would take countless millions of dollars out of our province. As in the past, large fortunes will be made from the natural resource which rightfully belong to all the people.

The C. P. F. believes that a much larger share of the profits should be retained and used for education, health and other social services.

Ripley News

Blimer Brown's chickens arrived two weeks ahead of schedule, however, temp. very hotting has been found.

Mr. and Mrs. Harold Olson are in their new home on the Dyer farm and are giving the house a real "face-lifting".

The April meeting of the Ripley Community Club was held at the home of Mrs. A. Barrett, with eleven members present. The club has decided to enter the Farm Home Planning contest and a lengthy discussion was made as the questionaire was answered. A donation was made for the club by Mrs. Barrett.

Yarn-Rite is now driving a Plymouth coupe.

Numerous crops and robes have been seen in the district, while children at South Dakota were chiding gophers before Easter.

Miss Rose, former teacher of South Buffalo Lake school is convalescing at the coast while Miss Kinsale is supervising.

Late Seedling

Exceptionally heavy snowfall for this time of year has been experienced throughout Alberta over the past week. This spring has been unusually dry and snowy, and seedling is now in the delayed. Normally 60 per cent of the wheat is seeded by May 15th.

A study of the progress of grain seeding in this year provides no definite conclusion as to the effect of autumn or on the grain production. In Alberta, 1,000 wheat acres was a record breaker (180,000 bushels) yet in that year only 1 per cent of the seedling was completed by April 15th, and 50 per cent of the seedling was completed on May 15th. In 1917, 12 per cent of the seedling was completed on April 15th and the crop that year was only 73,000 bushels. In 1918, 30 per cent of the seedling in Alberta was completed on April 15th, and the wheat output was 100 million bushels.

What seems to be much important than the progress of seedling is the amount and timeliness of rainfall during the season, and the length of the frost-free period.

Who Lost His "Specs"?

A pair of bifocal vision glasses, together with a cane, was returned out of a carload of grain delivered to the Post terminal at Vancouver.

SPRING

The last snow disappears from the hollows... the streams rise, sink, run clear again... buds expand and burst... the land dries... field work starts again... spring plowing, harrowing, seeding...

Spring work calls for labor and money which will not yield returns until harvest. In the meantime the Royal Bank is ready with seasonal loans to pay for labor, seed, fertilizer, equipment and improvements to land and buildings. Your local manager is always glad to see you.

THE ROYAL BANK OF CANADA CYRIL THOMP, MANAGER ALIX BRANCH

Handling money *costs* money

It costs you more to live these days.

And it costs your bank more to provide efficient banking service.

Bank staffs are more than half as large again as before the war; payrolls have nearly doubled. Taxes are up. So is the cost of everything banks buy.

Yet you pay no more for banking service than you did ten years ago. Today 7,000,000 Canadians are bank customers—striking evidence of the ever-widening usefulness of competitive banking in our national life.

STUDENT'S PLAY HUGE SUCCESS

A packed hall enthusiastically

attended the performance of

"Camp Road" put on by the

Alix High School Student

Union on Wednesday evening

F. Day was a lively crowd

dealing with the troubles of a

group of stage animal pump

and was excellently cast

All the actors played their

parts admirably and with im-

portant enjoyment, even to the

Lyman Hook Her who be-

liever was exemplary The

writing, costume and make up

was most effective and the

work of the off light in catch-

ing lights, changing the "Red

Hall" etc, all contributing to

the smoothness of the produc-

tion. The cast are to be congrat-

ulated also their audibility. The

writer sat on the steps at the

back of the hall and heard

every word. Great credit for

the first performance is due to

the director Mr. G. G. Murray

and any who missed seeing

the first performance is advised

to take advantage of a

second, if there is one.

Mr and Mrs Brooks supplied

music during the intervals

which all added to the evening's

enjoyment. The cast of Summer

is as follows:

Kimberly Hughes .. Marion

Asbury Carol Taylor .. Valma Brown

Henry .. Arlen Parsons

Mrs. Fowler .. Phyllis Warren

John Brighton .. Ethel Laugh-

lin Kenneth Porter .. Bill Christ-

ian Hamilton Henderson .. Morris

McIntosh .. Betty Sorensen

Mr. Hughes .. Mary Jean Bach-

man Frank .. Owen Jennings

We wish to express our sin-

cere gratitude to Mr. Murray

and Mr. Brooks, Miss Mend-

erson and Mrs. Willford for

the valuable assistance in the

success of our play.

CORRESPONDENCE

Mr. E. H. Marvart
Secretary-Treasurer
Village of Alix
Alix Alberta

Dear Sir: We regret your

seeing the failure of money

making the opening of Thursday

April 23rd.

In explanation of the

reasons we wish to inform you

that the process of clearing

the grounds in the vicinity of

Parade, two trees were felled

over our 12000 volt transmis-

sion line, interrupting power

supplies in the communities

north of Alix.

Restoration of service was

achieved somewhat later than

conditions combined with the

inconsiderate attitude taken by

the seven responsible for the

accident is not reporting the

location of the trouble.

We shall appreciate it very

much if you will kindly convey

the information to your Council.

Yours very truly,

After pressure had been brought to bear on the Council some of the residents of Alix, requesting that the dam on the lake should be fixed, so as to prevent the high water from running out of the lake. The Council met and decided the advisability of taking action in the matter.

It was moved by the mayor O.L. Landberg that being the dam should be done and the high level of the water held, providing such action did not inconvenience any of the property owners around the lake. If any complaint was made the Council regarding damage to property caused through the water being too high, then the Council will undertake to open up, allowing the water to flow out of the lake.

Mr. Ziv complained to the Council that his land is being flooded owing to the dam being closed, the Council immediately had the dam opened up to allow the water to run out of the lake.

War Bride Passes

Funeral services were held in the United Church, Alix on Monday, May 10 for Mrs. Lyle who died on Wednesday evening at the University Hospital, Edmonton from results of burns received in the fire on April 14 when her two babies were burned.

Her L.A. Thompson of Lacombe officiated at the service, and said a touching tribute to the memory of this loyal little mother, who, so bravely at her own risk tried to save the children.

Mrs. Lyle (Peggy) as she was called) was in the 34th year, having had a birthday on the 11th of April. Born at Blinnet Santa England, she leaves her father and mother Mr. and Mrs. E.W.J. Turner, one sister Mary, one brother Jack, all at Blinnet Santa England, her husband Arnold Wm. Lyle, Mr. and Mrs. V.A. Lyle, Leonard, Leonty, Vera, Mary, Constance and Rose at Alix to mourn her loss.

The Alix choir sang one of her favorite hymns "In the Sweet By and Bye", also "Oh God, Our Father, Amen Part" "Aldes with Me", Anointed by Miss Mary Henderson at the organ.

The floral tributes were sent from the following: Mrs. Lyle's home, many of the love and respect held for Mrs. Lyle by a host of friends who kindly made her passing.

Funeral home were Miss Mary Henderson, Mrs. J. D. Dyer, Peter Heston, Smoky Smoky, Helen Heston.

She was a member of this little war bride's great love and confidence in the faith by those who increased to love her cheery disposition, and beautiful nature. We cannot say, and we will not say.

Funeral home were Miss Mary Henderson, Mrs. J. D. Dyer, Peter Heston, Smoky Smoky, Helen Heston.

DEORATION

At an investiture held in Edmonton recently, Lt. Col. B.W. Cornsack DMR ED, was awarded the Royal Order of Vincent with crossed swords, for gallantry and leadership during the fighting in Holland, September 1944 to May 1945.

His Excellency Doctor J. H. Van Rijen, Netherlands Ambassador to Canada, headed Col. Cornsack in the deorations in the name of Queen Wilhelmina, while leading a force which included part of the Netherlands Brigade as well as his own regiment. Col. Cornsack was awarded during the attack on Bergen Op Zoom, a resident of this district since 1928. He is now back on his farm 30 miles north of Alix.

Mr. H. O. Tomlin, recently returned from Norway where he spent eleven years, was a guest of Mr. and Mrs. Brown on the week end. He is now visiting friends at Delburne.

Mrs. A. Miral attended the graduation exercises of the University Hospital in Edmonton, to witness the graduation of her daughter, Miss B. Miral.

Mr. and Mrs. Snooky Danes were Calgary visitors this week end.

Money counts. Require about the return fare - they save you money. Official Coach Lines.

Mr. W. Elman visited friends in Edmonton last week end.

Mr. Geo. Bell gave a Lacombe visitor on Saturday last.

Ripley News

Mr. Homberg had the misfortune of dislocating his shoulder while leading a calf on Sunday. He will be unable to work for a week or two. Hope you will have a complete recovery Mr. Homberg.

David Carr tried to work in the field but was mired down.

Mr. Fletcher's fields and garden are still too wet to sow.

The Schmidts haven't started plowing in their fields or garden.

Max Schmidt is still under the weather, she seems unable to get up from the bed.

Paul Frank hasn't started work in the field as yet in his garden.

Ward Barrett also started field work Tuesday.

Ned Barrett was a business caller at Wards last Sunday.

Mrs. Barrett entertained her parents on Mother's Day.

Mr. Wheeler has been unable to work on the land as yet.

The meeting of the R. C. C. was a success, and three new members signed up, when they met at Mrs. Crooks.

Mrs. Olson had a pleasant Mother's day, when the Bud Olsons and Arthur Olsons of Edmonton and the Innes Olsons visited her Sunday.

Mr. Olson started work in the field Tuesday and hasn't been stuck yet.

Margaret Wheeler of Ponoka visited her grand parents over the week end for Mother's Day. Wheelers taking her to Lacombe Sunday night.

Judy Olson celebration her seventh birthday on the evening of May, with a birthday party.

The Ripley families are doing field work and gardening.

Mrs. Bryal Ripley is looking very well after her long vacation.

It is believed that an all-time Canadian record for corn production was set at Calgary when a Hereford steer owned by Jack Paul of Chetoks and for \$21 a cow.

Don't Seed Too Deep

The federal government of agriculture has evidence to show that most farmers in the prairie provinces of Western Canada seed their grain at excessive depths. Deep seeding decreases yields. The favorable depth for seeding wheat, oats, barley and rye is from two to three inches. Flax should be sown at a shallower depth.

The use of the one-way disc with roller attachment is usually responsible for seeding too deeply. Frequently checking of the depth of seeding is essential. Adjustments should be made during the first few rounds to insure uniform and shallow penetration across the width of the machine.

The only way to combat Bang's disease is to adopt an early program of calf vaccination and to use all means of preventing infection. This is the advice of Dr. E. L. Ballantyne, director of provincial veterinary services. He says that Bang's disease usually occurs in a clean herd through the introduction of infected animals.

Late Seeding

The Alberta Wheat Pool crop report of May 28th showed that only three per cent of the province's wheat acreage had been seeded on that date. Normally 50 per cent of wheat seeding is completed by May 25th.

What wheat was seeded in Alberta was in the south in the area east of Lethbridge and extending into Medicine Hat territory. In that region between 25 and 75 per cent of wheat seeding is completed.

While complete statistics regarding seeding dates are not available for many years back, figures from 1934 onwards show that this is the latest season in the 15 years. In 1940 only 9 per cent of the seeding was completed by May 25th. In that year, however, seeding had commenced in all districts and rapid progress was made from then on.

The late seeding will result in a cut in wheat acreage by at least 10 per cent and a corresponding increase in acreage needed to raise, barley and rye.

Winter wheat and rye survived the winter in good condition and is showing excellent growth in southern districts.

Help In Case Of Accident

ARTIFICIAL RESPIRATION: From Method.

Some injuries such as electric shock, drowning, gas poisoning and choking interfere with breathing and may cause asphyxiation, unless normal breathing is promptly restored. Artificial respiration should be restored to bring this about, but remember, SEND FOR A DOCTOR IMMEDIATELY.

Lay the patient prone, (face down), the head "down-hill". If possible, with one arm extended directly overhead, and the other arm bent at the elbow to form a resting place for head, so that nose and mouth are free for breathing.

Kneel, "saddling" the patient's thighs, with palms of the hands on the small of the back, and fingers resting on the ribs, the little finger just touching the lowest rib, and the finger extended straight down.

With arms held straight, swing forward slowly, bringing the weight of the body gradually upon the patient so that the shoulder in this position is directly over the head at the end of the forward swing. Then immediately swing backward, so as to remove the pressure completely. After two seconds, repeat the pressure and release, the complete swing forward and backward to take four or five seconds, or 15 to 16 times a minute. Continue without interruption until the patient breathes naturally.

Patients have been revived after as long as four hours or more by this method. Keep up the artificial respiration and do not allow patient, even if he starts to breathe naturally, to stand or sit up. Keep patient warm and if doctor has not arrived by the time patient has revived, give light stimulants, if response of aromatic spirits of ammonia, in a small glass of water, or hot drink of coffee or tea. Watch patient to see that normal breathing resumes, and if natural breathing stops, begin artificial again. If necessary, to change operator, the change should be made without losing the rhythm of respiration.

WHOSE OIL?

The revenue in oil companies on the sale of Alberta crude oil during the first three months of this year was almost \$7 million. It is growing sharply month by month.

Enough time has passed since the discovery of Leduc for an oilfield of this size. Can the people of Alberta say that they notice the difference now that millions of dollars worth of this great resource is being produced every month?

The C.O.P. stands for a better deal for the real owners of the oil — a people of Alberta. It is the most practical kind of a political platform. The wealth is there. The province needs the service it can pay for. And control of resources is specifically vested in the provincial legislature.

Save money! Do your own canning with a NATIONAL Pressure Cooker - Canner!

Works Wonders In Canning All Foods... Saves Time! Saves Energy! Saves Money!

According to the leading food authorities, pressure canning is the only safe method for processing non-acid foods, in shelling peas, fish and poultry.

With a National Pressure Cooker-Canner, canning is simple. Foods can be processed almost as fast as quarts can be prepared.

A National Pressure Cooker-Canner can cook food bills. Large quantities of meat, poultry, game and other foods can be processed in season for tender, tasty and beautiful soups, stews, and casseroles.

The National Pressure Cooker-Canner is the most wonderful kitchen appliance you can own. It will save you time, money and space.

Tough Meats and Poultry cooked to delicious tenderness in mere minutes.

When a National Pressure Cooker-Canner is used... there is no such thing as "tough" meats or poultry. An 8-pound roast, for example, becomes deliciously tender in just one hour... a tough old rooster is juicy and tasty in just 45 minutes.

It takes only one hour to cook a 6 pound round roast or a 10 to 15 pound ham. Most stews take reduced to a minimum, thereby saving fuel costs.

The World Of Wheat

By Douglas, The Crop Raising Plan

The control of weeds by R-4-D by other chemicals may take its place in revolutionizing agriculture with those other inventions of the 20th century. The weeds, the blight and the rusts have been a great trial of the farmers crop. R-4-D, however, is still much in the experimental stage. One must be careful with it although it is now R-4-D. A number of good pumpkins have been found and are readily available to farmers.

These should be carefully studied, but above all it ought to be remembered that the farmers should keep an accurate account of the amount of material they use, the date of application, the height of the weeds and the height and stage of growth of their cereal crops when the R-4-D is applied, and then of course at harvest time whether the crop suffered any damage, the effect of the R-4-D on the weeds, and above all the yield per acre. The grade particularly if yields and grade can be compared with yield per acre on similar fields where these were not treated. If every farmer does this, the results will keep these simple accounts and send the results in to the nearest University or the Provincial Department of Agriculture, he will be performing a valuable service to all other farmers and will be helping himself.

A TRIBUTE TO AGRICULTURE

In the last reckoning all things are brought with food. Our civilization is brought with food; our industrial achievements as a province and a nation; our cultural advantages, our recreation. Food, abundant and adequate, is necessary to support our civilization.

The food produced on Alberta farms is the main source of the annual wealth production of this province.

The total net wealth produced from Alberta's field crops in the past eight years was \$1,737,000,000 an annual average of \$217,000,000.

The gross Alberta farm cash income in the past eight years was over two billion dollars, an annual average of \$250 million.

For Alberta Wheat Pool produces more statistics than to Alberta people the value of the agriculture industry.

The Wheat Pool is a farm co-operative operating 10,000 electric elevators and 10,000 miles.

Pool it creates a large profitable co-operative service to Alberta grain producers over the years.

Tennis Committee Hears

Done A Warr? - 1 Job

Yes, the tennis court is finished and it is a credit to the community. A great deal of time and effort has been spent by the committee on this project and the result should be very gratifying to all who have been associated with it.

The next steps is the formation of a Tennis Club and memberships are now being taken by Bill Buchanan, John Holsworth and Maurice Simmons to get this phase of the game organized. The fees are low enough to permit everyone to join, so why not see one of the boys and get lined up to have some fun. As previously announced the fees are: Single \$2.00, Family ticket \$3.00.

We would suggest that the committee stage a local Tournament to get the game off to a good start. To give them some encouragement by getting your membership paid up.

The tennis court has cost the Athletic Association a lot of money and it is hoped the support will justify the investment.

The policy of the A. A. A. is to provide some form of sport and recreation for all members of the community, but in order to accomplish this objective they must have the support of all.

FRACTURES

GENERAL SIGNS AND SYMPTOMS OF FRACTURE

1. Pain at or near the seat of fracture.
2. Loss of power in the limb.
3. Swelling about the seat of fracture.

- 4 Deformity of the limb,
5 Irregularity of the bone

The limb assumes an unnatural position, and is misshapen at the seat of fracture. If the bone is close to the skin the fracture may be felt.

GENERAL RULES FOR TREATMENT OF FRACTURES

1. Attend to the fracture in the spot. No matter how crowded the thoroughfare, or how short the distance to a more convenient or comfortable place, an attempt must be made to move the patient until the limb has been rendered as immovable as practicable by splints or other means of restraint, unless life is in danger for some other cause.
2. When hemorrhage accompanies a fracture it must be attended to first, and the wound covered by a clean dressing.
3. Mainly and support the injured limb so that the further movement on the part of either the patient or the bystanders is prevented.

First-Aid: In the treatment of fractures it is not necessarily to set the fracture accurately, but to maintain the broken ends in a fixed position so that they shall not cause further injury to the tissues around them.

Apply splints, bandages and slings when necessary. The splints must be firm, and long enough to keep the joints immediately above and below the fractured bone at rest. Simple width is very desirable in a splint. A splint may be improvised from a broom or brushhandle, piece of wood, paper firmly folded, or, in fact, anything that is firm, long and wide enough. When these are not available, the body itself may be used as a splint, and the extremities

POWER DEMAND EXCEEDS SUPPLY

POWER CONSERVATION NECESSARY IN SOUTH

We Hesitate to Say... IT CAN'T HAPPEN HERE!

Alberta has been enjoying a fortunate position in regard to her power needs compared to many places on this continent. Newspaper editors and editors in a great many localities confessed to point the unnecessary use of electricity and in some cases retarding of power had to be put to rest.

Here in Alberta the ever increasing demand caused by the post-war building boom and industrial expansion has been successfully met and we hope we shall continue to be able to do so.

Alberta's progressive expansion is in the interests of progress in our province and, in spite of present difficulties in the way of our plans for further power development, we want that progress to continue so that Alberta will reach her true place in Canada's destiny.

I'm carrying a heavy load!

THE EFFICIENT USE OF ELECTRICITY IS CRUCIAL IN YOUR HOME AND POWER IS ESSENTIAL FOR PROGRESS

SEEDTIME HARVEST

L. E. THORNE, F.R.S.A.
The recent appointment of Mr. L. E. Thorne, superintendent of the Dominion Experiment Station at Lacombe, as chairman of the Alberta Wheat Pool, has been a source of much interest and discussion among the wheat growers of the province.

Mr. Thorne is well known to the wheat growers of the province as a man of wide experience and high standing in the wheat industry. He has been a member of the Dominion Experiment Station since its inception in 1912, and has since that time been actively engaged in the work of the station, which is to conduct research and experiment in wheat growing and to disseminate the results of such research and experiment to the wheat growers of the province.

Mr. Thorne's appointment as chairman of the Alberta Wheat Pool is a recognition of his wide experience and high standing in the wheat industry, and of his ability to lead and guide the wheat growers of the province in their efforts to improve their wheat growing and to secure the best possible price for their wheat.

The Wheat of What

By
H. C. L. THORNE
Director, The Crop Trusting Plan

Each year the "Crop Trusting Plan" collects many thousands of samples of wheat of all grades which represent a farmer's growing field. These samples are carefully measured into small lots and sufficient to send to a number of central places for growing tests under the plan. They are called "Crop Trusting Plan" plots. The results of these tests are found growing on the fields of the Dominion Experiment Station, the University of Alberta, and the University of Saskatchewan, and the results are sent to the farmer by mail.

Many farmers make it a practice to visit these Governmental institutions, for there is a great deal to be learned about good agriculture. I suggest that all such visitors should make a point of examining the "Crop Trusting Plan" plots, for they show at a glance what many fields of wheat look like as far as grain-in-tariff is concerned.

Visitors will notice some growing samples, made of which they are made up a few days before they are sent to the farmer, which are as true to variety as the grain in the field. These have become mixed and will be of no use to the farmer. The testing of samples free by the Government is a service to all farmers regardless of where they operate.

The semi-annual meeting of the Canadian Federation of Farmers will be held in Kamloops, British Columbia, from July 27th, to 31st.

The British government is presenting a bill for the purpose of increasing the British loan for wheat to \$1,000,000 in 1935.

The Canadian National and Dominion Pacific railways are making a survey of the wheat lands in the west, and will be making a survey of the wheat lands in the west, and will be making a survey of the wheat lands in the west.

THE Continental LIMITED

Canadian National's famous "Continental Limited" spans Canada, linking the Eastern

Provinces with the far Flung Prairies, the impressive

Canadian Rockies and the Pacific Coast. Two eastbound and two westbound Limiteds each day speed

across the broad expanse of the Dominion, and from the picture windows of 'through' modern sleeping cars and coaches

a colorful and varied panorama is viewed — great cities, pioneer settlements, lakes and rivers, wheat fields, mountains.

It takes sixteen complete trains and train crews numbering 350 men to provide this double daily service. As a passenger aboard The Continental Limited you'll meet many members of these train crews, each of whom is contributing to your comfort and safety.

Go the pleasant way across Canada this year.

The Best banking system

CANADA has a banking system which, for efficiency and dependability, is unsurpassed in the world. Competitive, flexible, adaptable to the changing needs of the country, it serves Canada's producers, her industries, her traders—and it serves your personal needs, too.

No customer has to fear for the privacy of his regular banking transactions. This privacy is completely free of political pressures or considerations—it is rooted in Canadian banking practice and tradition.

Control this Canadian way with conditions in banks where freedom is desired—where every bank is a political tool, every banker a State official! That monopoly of banking, proposed by Socialists here, would lessen the Marshall foreign pattern on you.

What To Do For FAINTING

FAINTING is a condition due to sudden failure of the action of the heart, which may be caused by over-exercise; or by fatigue; want of food, or a close or crowded room; or by bright, closed, sudden heat, or by cold; or by sudden fall from fear or anxiety after prolonged exposure.

On a sign over the patient room glidy and falls the face is pale, the pulse is rapid and weak, or almost invisible; the breathing is quick, sighing and irregular, and the limbs become cold and rigid.

TREATMENT

1. Undo all clothing about the neck, chest and waist.
2. Remove an abundance of fresh air into windows and doors; keep back a crowd; remove from harmful gases or fumes atmosphere.
3. Sprinkle the face with hot and cold water alternately, and apply warmth to the pit of the stomach and over the heart; vigorous friction of the limbs upwards has a stimulating effect. Stimulating salts may be held to the nose.
4. If bleeding has been the cause of the condition guard against its recurrence. The wound will not bleed if no more blood is sent to the surface of the heart. The wound must be carefully sealed so that no more blood is sent to the surface of the heart. The wound must be carefully sealed so that no more blood is sent to the surface of the heart.
5. If want of nourishment has been the cause of the condition give food liberally of best.
6. Give no food or drink whatever by the mouth until the patient is completely recovered.

FLOWER SHOW "ADAM AND EVA" GREAT SUCCESS HUGE SUCCESS

Mr. W. E. Jennings was this year's winner of the Royal Bank Silver Cup, awarded to the best exhibitor in the flower show. The show was a great success in all ways. The exhibits were numerous and of their own high order, and a record number of visitors came to see them.

The show was a great success in all ways. The exhibits were numerous and of their own high order, and a record number of visitors came to see them.

Such interest was taken in the show window displays, the prizes this year being awarded by popular vote with the following result: 1st Red & White; 2nd White & Blue; 3rd Red & Blue.

The flower show was as charming as ever, the prizes being given to the exhibitors by Mrs. G. Peterson, and the grounds were well maintained by Mrs. L. Ashby.

The champion rose and gladiolus of the show were given by Mrs. G. Peterson, and the grounds were well maintained by Mrs. L. Ashby.

CROP REPORT

A week of favourable weather
has enabled farmers to
make good progress with har-
vesting operations. The Alberta
Wheat Pool crop report for the
week ending September 14th
shows that 85 per cent of the
wheat and 82 per cent of the
coarse grain had been cut, and
17 per cent of the wheat and
13 per cent of the coarse grain
had been threshed. These per-
centages are practically the
same as last year at this time.

Cutting is well advanced
along the eastern and central
portions of the province, but
in the districts west of the
northwest C. P. R. line cutting is
just starting. In the Peace
River districts over 50 per cent
of the wheat has been cut, but
elsewhere during the past week
have caused some delay.

Light, spotty frost occurred
during the week along the western
side of the province extend-
ing northward from a point
just south of Calgary. Some of
the late snow show slight dam-
age most of the wheat which is
now being threshed in southern
and central Alberta is of
good quality, but frost damage
is showing in samples from
northern districts.

IN MEMORIAM

In loving memory of "Frank
Harry Siddons" who died of
wounds in France, Sept. 18th,
1916.

When his life was short we knew not
What his last work, look or thought
Only that he died his day
That he was bravely fought.

Always remembered by Mom,
Dad, Sister and brothers.

It's a private matter

Your bank is there to serve you in a
personal, private way.

When you make a deposit your passbook
is closed to anyone but you and your
bank. When you arrange a loan, that is
strictly between you and your bank.

When you discuss private financial matters
with your bank manager, you know they
will stay private.

Such privacy is the very essence of
Canadian banking. It permits you to deal
with your bank and to use its
many services on a basis of complete
confidence and trust.

First Aid Hints for SPRAINS AND STRAINS

SPRAINS:

When by sudden wrench or twist, the ligaments and the parts around a joint are stretched or torn, the joint is said to be sprained.

SIGNS AND SYMPTOMS:

1. Pain at the joint.
2. Inability to use the joint without increasing the pain.
3. Swelling and, later, discoloration.

TREATMENT:

1. Place the limb in the most comfortable position and prevent any movement.
2. Remove the joint and apply a firm bandage.
3. Wet the bandage with cold water and keep it wet.
4. When this ceases to give relief, take the bandage off and re-apply it.

In all doubtful cases treat as a fracture.

STRAINS AND RUPTURED MUSCLES:

When, during severe exertion, muscles or tendons are over stretched they are said to be strained, or, if they are actually torn, they are described as ruptured. A so-called strain in the groin (hamstring) is an injury of a totally different nature.

SIGNS AND SYMPTOMS:

1. A sudden, sharp pain at the seat of injury.
2. When the muscles of a limb are strained they may swell and cause severe cramp.
3. Further exertion is difficult or impossible; for example, if the strain has occurred in the back the patient may be unable to stand upright.

TREATMENT:

1. Place the patient in the most comfortable position, and afford support to the injured part.
2. Apply a hot compress.

STABILITY FOR

Time may have changed, but
fundamentally there has been
no change. Some people with
short memories may not realize
this. Experience may have failed
to teach them, and in the
improved conditions of the present
they might find it too easy to
forget the past. But let there be
no doubt about it, stable
prices are the only enduring
foundation for agriculture
prosperity. It is for stable prices
that the Wheat Pools have consistently
fought and for which
they are fighting today.

BOVERSOCK -- WILSON

Mirror United Church was decorated in fall flowers for the wedding on October 8th, of Miss Jean Margaret Wilson, B.C. daughter of Mr. and Mrs. G. H. Wilson of Mirror, and William LeRoy Boversock, son of Mr. and Mrs. L. Boversock of Pincher Creek.

Mr. Boversock wore the ceremony.

Entering the church on the arm of her father, the bride was covered in ivory tulle, and styled with a transparent and yoke, and long high point sleeves. The full skirt featured a bouffant back and a circle of orange blossoms and steel pins held a long lace veil. She carried a bouquet of roses. A three arm and pearl necklace, gift of the bridegroom was her only jewelry.

Miss Anne Taylor R.N., was the bride's maid. She chose a gown of powder blue broad tulle and wore a matching chapel veil. Her bouquet was of pink carnations.

Gerald Stinchey of Stettler was best man. Ushering the bride and Mary Hombrecht of Stettler.

Wedding music was played by Mr. F. Haugh and during the reading of the register Mr. C. Dennis M.N. sang "I Love You Truly".

A reception was held at the Town Hall for sixty guests where the table was covered with a three tiered cake decorated by white tapers. Mrs. Wilson received the guests wearing

First Hockey Games Of The Season

The first period ended at two points each, there being no goals scored on the first and McNeil on the second. Herman Shultz scored the initial goal for Alix on a 2-1 penalty play with Patena and Dickinson. Penalties went to Mack Walper and Doolittle who drew 5 minutes for fighting.

Features of the second period which was no more than a check and several goals each, at either end of the ice. This was also a slight frame in the penalty box when Reg. Heddington and Shultz returned the penalties for which they were banished from the ice. However, the one was hurt. McNeil drew two penalties for slashing one of the players.

Shultz sent Alix into a 3-1 lead early in the 3rd. But, he completed his lay trial on an assist from Shultz to knot the score at 3-2. Trenchard and Holmes added in the morning-making a goal each. Shultz and the scoring at 4-3 for the 3rd. Don Walper drew the only penalty of the period for shoving.

December 19

Joe Pitherski notched his first century in senior company at 238 of the first, and an assist from Donnie Dean. Ben Foresterb now tied with points in Central Tasting and by Ponto for a 3-1 lead at the end of the first. 2 penalties were handed out, both for charging. I went to Foresterb while the other was given to Donnie Dean.

The visitors jumped to a 4-1 lead on a goal by H. Moore from W. Moore. D. Northcott scored the period at 4-2 for Ponto. The period saw 2 penalties, one going to the visitors, Wilking and I. Dean going to the Alix for shoving charges.

A goal by Patrick from Donnie Dean kept Alix hopes alive as they took the edge in play but couldn't seem to get the goal in the net. They scored on a solo effort for the final goal at 5-1 of the final frame.

This period was marked by several stiff body checks and one which were called out by Reg. Heddington who played a stirring game on defense throughout the game.

Foresterb again drew 5 penalties. Moore drew 1 for hooking and Berg for tripping. Referee Donnie Walper is to be commended for keeping the rather rough game under control.

One new coach member has won at his regular spot the small building by Shultz's progress. Mr. Lemmy Lay is taken to the hospital today and is believed to be convalescent from a broken collar bone as a result of a truck accident.

Mr. O. Rogers of Calgary is visiting his home here.

\$5,000,000 Appeal

In March

In March, 1943, the Society will launch a national appeal for funds with an objective of \$5,000,000. Data and figures were announced at the semi-annual meeting of Central Council in Winnipeg in October.

The campaign will mark the third annual, penultimate appeal of the Great Crusade.

By 1943 certain important Red Cross obligations are due to the Veterans and Overseas Medical Board.

Based on the response to the appeal of the Great Crusade, the 1943 objective was set at \$5,000,000.

The campaign is now almost completely organized and the goal of the Great Crusade is now within reach.

Mirror News

There was a very large attendance at the play "The Boy in the Box" given by the Amateur W. S. A. at the theatre last night.

Mr. and Mrs. Harry Jacobs were recent Edmonton visitors. Mr. Jacobs is now in the United States and Mrs. Jacobs is in the city.

Mr. and Mrs. J. H. Harrow of Chicago were recent visitors at the Bromley house.

Christmas service was held in the United Church on Tuesday evening with special music presented by the choir, under the leadership of Mrs. H. Elliott.

Mr. Winston Elliott who has been attending Art School in Toronto, arrived on Saturday to spend the Christmas holiday at his home here.

Mrs. R. Holmes, Jimmy and Carol have returned to a trip to Edmonton.

TRANSPORTATION COSTS HAVE OUTGROWN FUEL "CONSERVATION"

The above curves, published in the Christmas issue of the *Statistical Abstract of the Dominion*, indicate that the cost of transportation has increased at a faster rate than the cost of fuel. The *Statistical Abstract* also shows that transportation costs have increased at a faster rate than the cost of food.

When many homes have increased in value 50 per cent or more, it is not surprising that the cost of transportation has increased at a faster rate than the cost of food. The *Statistical Abstract* also shows that transportation costs have increased at a faster rate than the cost of food.

The Holiday Season brings to us a keener appreciation of our old friends and the value of new friendships.

In this spirit we hope that you may have a very MERRY CHRISTMAS and a most HAPPY and PROSPEROUS YEAR.

This Christmas, we can proudly say that Alberta's greatest hydro-electric development is under way. Work has commenced on the actual construction of the giant Spray Lakes power project. This project will develop 100,000 h.p. of Electrical Energy. It will provide power for Alberta's new and growing industries, as well as help assure the continued rapid extension of Electrical Service to Alberta farms, which is already proceeding faster than in any other Western province.

There Is A Carnival Alix Bonspiel Big Coming

It is money that the carnival for Carnival is in the offing, and now is the time to get your ideas working.

No effort should be spared to make this year's Carnival popular. The Albertans' outstanding interest.

All organizations are specially invited to participate in this year's program, and the committee will be very glad to assist in every way possible any individual or group taking part in the program. So let's have your ideas as soon as possible.

The Carnival date will be announced next week.

K. Roy Coleman and Eric Macleod, Optometrists, wish to announce that on the new year visit will be changed to Tuesday morning only. The next visit will be the Alix Hotel will be on Tuesday, January 11th from 9 to 12. Mr. Macleod will be in the city office, 1014 Greyhound Building, Calgary, daily except Monday.

Miss Mary Robson left Tuesday for her home in Toronto after spending two months visiting her brother Mr. George Robson and family.

Mr. and Mrs. R. Hieson and family spent Christmas with the lady's parents Mr. and Mrs. Geo. Bell, Valeris spent the holiday with her grandparents.

Mr. and Mrs. Stan Roberts and family of Armuska also spent Christmas with the family's parents Mr. and Mrs. J. H. Roberts for Christmas.

Mr. and Mrs. E. H. Hensworth were led their visitors on Sunday last.

The Alix Hobbies Lodge celebrated their 31st Anniversary on Wednesday evening, December 29, by having an Elk supper. A line to have a reception of their insurance and California.

Miss Velma Kraft is a guest her grandparents, Mr. and Mrs. May.

Mr. and Mrs. Hensworth spent the Christmas with friends in Lacombe.

Mr. McKinnon and sons of Dalhousie are visiting at the home of Mr. and Mrs. K. McKinnon.

Mr. and Mrs. J. Holworth have returned from visiting the lady's parents, near Ponoka.

The farming circle met at the home of Mrs. Duncan Wilson on Wednesday evening, December 29, the occasion was the presentation of a cup and medal.

The pattern they met was Health Hierarchy. A delicious lunch was served by the hostess.

Mr. Hector McDonald of Tonsington was visiting relatives around Alix and Tonsington.

Mr. Don Ollis spent the Christmas holiday with his mother at home.

Mr. and Mrs. Gordon Wilson and family of Lacombe were friendly visitors of Mr. and Mrs. Wm. Fudge.

The Alix Curling Club started the season with a successful local and inland bonspiel. Twenty-six rinks computed in a two-way competition.

Two Annabell's rink won the Grand Challenge and the second prize went to Ogilvie's rink from Tons, Harold Parrish's rink took the 3rd prize with Bob Lutz's rink second.

One of the most pleasing features of the bonspiel was the number of out of town rinks and curlers taking part. This is just another evidence of the success that can be made of any community effort where the village and rural area get together.

On Monday, January 8th, a general meeting was held when the regular rinks were formed and a schedule started. Twenty-eight rinks will compete.

Mr. and Mrs. T. Hample spent Christmas day at Lacombe.

Carnival Postponed February 23

Due to the bad weather and the fact that the carnival grounds are not yet ready, the carnival has been postponed to February 23rd.

The carnival will be held at the Alix grounds and will feature a variety of games, rides, and entertainment.

Admission is free and all are welcome.

Some Things To Remember On Carnival Day

The first item on the program is a great big bucket game. Don't miss this event as one lucky winner will win a prize for this event and one lucky winner will win a prize for this event.

Next is a game of chance called "The Big Wheel". This game is played on a large wheel which is divided into sections. The winner is the person who gets the ball to stop in the section of their choice.

Then there is a game called "The Big Box". This game is played on a large box which is divided into sections. The winner is the person who gets the ball to stop in the section of their choice.

Finally, there is a game called "The Big Ball". This game is played on a large ball which is divided into sections. The winner is the person who gets the ball to stop in the section of their choice.

The evening show will open at 7:00 p.m. and will feature a variety of entertainment.

The program is printed in this paper and may be read when your number is called.

Good prizes will be awarded for entertainment and decorated bicycles and a record number of contestants is expected.

Our best wishes are very best to all who are taking part in the carnival.

It is expected that you will be more comfortable if you bring along a blanket or extra wrap for the evening show.

There has been a great deal of talk about the carnival and it is hoped that it will be a great success.

The carnival is a great event and it is hoped that it will be a great success.

Alix Amateur Athletic Association

36 Year Ago

The mass meeting held in the Masonic hall on Thursday evening, called for the purpose of forming an Amateur Athletic Association was well attended and keen interest was manifested throughout U.O. Marryat was in the chair and H. H. Hall was scribe.

The chairman outlined the object and proceeded to set up the various sports he considered feasible for Alix Membership made were on hand and being named around forty of these present signified their willingness to become members of the new association. The membership fee is set at \$20.

The present association will operate during the summer and should it prove successful will start winter sports later on. This is a move in the right way and it is the aim of the Alix Amateur Athletic Association to provide sports in which young and old men and women, boys and girls can participate.

The matter of housing was considered but will be left on for the present as the expenses in connection with this sport will run rather high. The following officers were elected as follows:

- President, G. G. Marryat
 Vice, H. W. Patterson
 Sec-Treas, H. B. Smith
 Executive
 Swimming, Mr. Whitworth
 Baseball, J. G. Gribble
 Cricket, G. H. Darlow
 Football, D. Rose
 Polo, R. C. Wilson
 Tennis, R. L. Trickey

New License Plates To Be Out March 15

First license of new order for issuance for the 1948-50 license year which will start April 1 will be around March 15, according to information received by officials of the Alberta Motor Association. The plates were made available about this same time in recent years.

As was the case last year, rear front plates will be issued in color combinations on a white will be red numerals on a white background. This is regarded as a blending of colors which should provide an attractive plate and one that can be identified without difficulty.

While there has been considerable speculation as to whether the provincial authorities intend to issue regulations as to testing first applicants for drivers' licenses, an official announcement by the government might not be made before the legislature opens Feb. 17.

Need of adopting a system of proper tests of those seeking drivers' licenses for the first time was urged when senior directors of the A.A.A. met in Calgary last December.

Junior Department

Ray, Crickson and Principal Rayner
 Another meeting will be held Saturday evening at 8 p.m. in the Masonic Hall to pass on the rules of the executive.

It's strictly between You and Your Bank

How much you borrow, how much you save, how much you pay in, how much you owe, that's your business. Your right to keep your private affairs private is a cherished principle of Canadian banking.

NEXT time you are in your bank, notice how many people keep their cheques face down... just like you... while they make out their deposit slips. Notice how they close their portfolios before handing them in... and get them back closed too.

Canadian bank service is recognized by everyone as confidential. Every employee, when he comes into the service of your bank, took a solemn declaration of secrecy. Your relationship with your bank is the most vitally confidential business relationship you have.

Consider this Canadian way with confidence in banks where freedom is desired - where every bank is a partner in your future, every banker a public official working for the better life, every money of banking, prepared by officials here, would open your banking transactions to political intrusion.

WOMEN'S INSTITUTE

The regular monthly meeting of the Women's Institute was held at the home of Mrs. G. O. Hall on February 22. Mrs. Howe gave an interesting report of the obituary of Alix. The next meeting will be on March 2d, at the home of Mrs. Ashley.

Dr. Chorn had his car badly smashed on Tuesday afternoon of last week when a car coming toward him smashed head on into him, at the corner of Mr. T. K. White's residence, just east of Aux. Fortunately no one was hurt. Andy Baskin was the driver of the other car.

Grainmen's Tools Are Important

The purpose of this report is to emphasize the importance of grainmen's tools. Late Elevator Farm Service has just completed germination tests on 4470 farmers' samples of wheat, barley and flax seed from all over Manitoba, Saskatchewan and Alberta. The results show the percentage of samples tested, which the germination was below 71 per cent are given in the accompanying table.

Percentage of Samples Germinating Less Than 71%			
Crop *	Manitoba	Sask.	Alber.
Wheat	10.9	1.9	4.5
Oats	8.0	9.3	20.1
Barley	9.0	8.0	22.4
Flax	3.5	1.2	2.7

The above results show that in 10.9% of the wheat samples from Manitoba, and in 4.5% of the Alberta wheat samples, the germination was below 71%. They also show that many Saskatchewan farms and stocks of oats and barley, 9.3% and 8.0% respectively, are germinating poorly this year. It is evident that the most serious seed germination situation exists in Alberta. For instance, in 20.1% of the oat samples, 22.4% of the barley samples, and in 20.7% of the flax samples tested from Alberta farms, the germination fell below the 71% level.

Farmers in the northern districts of Alberta and Saskatchewan would be well advised to have their small grain seeds tested for germination this year. In fact, it will be necessary for many of them, owing to frost damage, to receive new seed. Fortunately, there are abundant supplies of first-class and Certified seed available for you, and they are modernity proved. Don't take a chance. Plant good seed this spring.

Many farmers are taking advantage of the free seed testing service offered by Late Elevator Farm Service. If you are not too sure about the germinating capacity of your seed, consult your local Late Elevator agent. We can help you with your seed supplies.

WESTERN WEATHER

The prairie provinces of western Canada have experienced an unusually severe winter. Right across the thousand-mile strip from the Rocky Mountains to the eastern boundary of Manitoba a long spell of cold weather has been experienced. There have been heavy snow falls in Manitoba and Saskatchewan, but the snow fall in Alberta has been considerably lighter. The Canadian prairie have not, however, experienced the unusually heavy snow fall which occurred in the U.S. mid-west.

Village of Alix Annual Meeting

The annual meeting of the Village of Alix was held in the Council Chamber on Monday, February 14th, 1949, at 8 o'clock p.m.

Present Mayor D. Lundberg and Councillors F. A. Graham and E. Holsen. The Mayor presided, and the following were present: C. W. Jensen, L. B. Davis, W. E. Jensen, C. W. Thors, and E. H. Woldmark.

The Mayor called for nominations for chairman to conduct the meeting.

It was moved by F. H. Jensen, seconded by F. H. Graham, that Mr. Lundberg act as chairman of the meeting. No further nominations being required, Mr. Lundberg was declared elected.

It was moved by C. W. Jensen, seconded by E. Holsen, that W. D. Clarke act as Secretary for the meeting. No further nominations being required, Mr. Clarke was declared elected.

Minutes of the last annual meeting of the Village, held on Monday, February 13th, 1949, were read and adopted on motion of W. E. Jensen, seconded by E. Holsen. Carried.

Business arising out of the meeting.

It was suggested that the burning of grass and the clearing of snow and drift from the sidewalks, especially in the business area, be the responsibility of the taxpayer, and, if the sidewalks are not kept clear, the Village should do the clearing and charge same up to the taxpayer.

It was also unanimously adopted that the meeting of the official Health Officer be called in to make an inspection of the conditions, especially at the hotel, and that any recommendations of the Health Officer be immediately implemented.

Mayor's Report, reporting operations of the Council during 1948.

Reports were apparently wrongly based last year. They should have been based on actual receipts during 1947 and the balance carried over at the end of the period should not have been taken into consideration.

There were very few sales of land during 1947. Fire department under Mr. Jensen was operated satisfactorily but it was found necessary to keep the engine in a hotel garage at a cost of \$7.00 per year. Refuse removal was attended to by Wm. Felt. His share of the purchase of oil burners at \$200 was also discussed.

It was suggested that the meeting be held in the Council Chamber, which would be a better place for the meeting than the hotel. It was also suggested that the meeting be held in the Council Chamber, which would be a better place for the meeting than the hotel.

Mr. Tommy Knight was a patient in the Swift hospital for several days, returning home last Saturday.

Mr. Little Klinger, sister of Mrs. J. Walper, is a patient in the Lacombe hospital.

Robert Strubbe had the misfortune to lose two fingers on his left hand early Friday morning, while he was working in a car. He went to Lacombe for medical attention.

Mr. Don Hansen has been ill with flu for several days, but is now on the mend.

Miss Blanche Hanson of Edmonton is visiting her mother.

Mr. and Mrs. T. Knight Sr. were likewise visited last week.

Mr. and Mrs. A. Keston and small son were Calgary visitors recently.

Mr. Gordon Walper is in Calgary having a medical examination.

K. Roy Peterson and R. H. Ralston, Otonarieta, wish to announce that they will visit the Alix Hotel on Tuesday, morning March 8 to 10. Mr. Peterson will be in the city office, 104 Greyhound Building, Calgary, daily except Monday.

There was considerable discussion respecting the hours of the hotel which was proposed of a full time offer to act as constable, keeping streets clean and general order.

Feasibility of further recommendations being for sale was discussed.

It was strongly recommended that a sidewalk be installed in front of the hotel building as soon as possible in the spring. Also recommended that a general programme to improve the Village sidewalks as soon as feasible be initiated.

Better Seed Produces A Better Crop

That better seed will produce a better crop is the one piece of advice that is never changed throughout the ages. The best seed obtainable is better than the rest. It has a greater degree of insurance to variety, is of high germination and contains a minimum of impurities.

Good growers this year have reduced prices to a comparatively low level. This is due to a large year for farmers to use Registered seed in order to improve the quality of their grain and to obtain the highest possible yield per acre that conditions will permit. The purchase of a few bushels of Registered seed is an investment that will bring to farmers high returns in additional income.

Farmers should use their Elevator Agent for supplies of this excellent material at reduced prices.

UNEMPLOYMENT INSURANCE BOOKS MUST BE RENEWED

EMPLOYERS!—Please send all unemployment insurance books immediately to the National Employment Office with which you are dealt, unless renewal arrangements have already been made.

They must be exchanged for new books before March 15th. The new books have space for March contributions, so you can renew the old ones before the end of the month.

Renewal of books is important to you, to your employers and to the Commission. Please Act Promptly.

TO THE INSURED WORKERS!—Have you an insurance book in your possession? If so, please renew it immediately. If not, please apply to the main Office for renewal before March 15th. If you have your book, either pay your premium or get your new book only to be returned to you.

Richard Goodson of Mayethorpe is spending the week at the home of the parents.

Ralph Fretwell returned on Thursday from an extended trip to England, travelling both ways by plane.

Mr. and Mrs. E. Pohl spent a few days visiting friends at Lethbridge last week.

Children and necessities have shown up at this district this week with the Hawkins family having the Children and the children of Mr. and Mrs. Geoffrey Fretwell coming down with measles. There is a lot of second also.

Another great fire swept out of control last week when Mrs. Mills aided by a group of boys attempted to burn off some grass. It swept across to Mrs. Pohl's property and into a garage. Within a few minutes there were 16 cars on the street. The owners were very grateful for the help of the men. Fire extinguishers were used and the fire was soon put out. Only a slight bit of damage was done to Mr. Pohl's garage.

The United Church folk are pleased that the date of the school has been changed to Wed. 20th.

The Baptist Church was full last Sunday. The 20th voted about from the Hastings College in the morning. The leadership of the service Taylor took over the service. All expressed delight in the special treat in music given.

Does oil help pay your taxes?

Oil may not actually pay your taxes—but it helps.

Seven million dollars—equivalent to about \$37 for each family in the province—was collected by the Alberta government in oil royalties, rentals and bonuses alone in the 1968 fiscal year. Actual taxes paid by oil industry added much to that total. And \$400 million more taxpayer revenue.

That's the increasing prosperity brought by the new oil fields and the growth of industry which means work for more people—and more people to share the provincial tax burden. The Alberta oil industry is spending one hundred million dollars this year on equipment, land, buildings, supplies and payroll. That's about \$2,000,000 a week! It can and does support new industries—and more employment.

Meanwhile, the new discoveries have kept oil prices down in Alberta and Saskatchewan. This means savings not only in cost of petroleum but in everyday—because it means lower oil prices on everything from cigarettes to heavy industry. So you'll have more money to pay your own taxes!

All this has come about because new oil was found in Alberta. And that oil was found because there were people who were willing to take a risk looking for it.

The World of Wheat by H. O. L. STEPHAN Director, The Crop Training Plan

GROWING UNLIMITED VARIETIES

The regulation of Canadian wheat is a world's problem, as everyone knows, depends on the maintenance of high quality, constant and reliable supplies. As long as this high quality of "wheat" is upheld, Canadian wheat will command a premium over the price of our competitors' wheat and in addition will have priority of sale. High quality comes mainly from the use of certain varieties only. Hay and wheat have been improved by the Canadian Government. It is important that farmers should use only these few improved varieties. From time to time, however, people bring into Canada, and sometimes to sell to farmers, varieties which have a good reputation in the United States and other countries, but which have been found to be inferior to our Canadian standard of quality. While it is legal to sell these varieties, it is illegal to sell them for seed. Farmers, therefore, for their own sake should be careful to uphold the quality of Canadian wheat, and not use any inferior varieties, and should avoid foreign American varieties, for instance, like, Pioneer, Pilot and Royal.

Fatal Accident In

Gadsby Lake District

One, Steven, eight-year old son of Mr. and Mrs. George Gadsby, was struck by a car on Sunday prior to school opening Monday, led to his tragic death.

According to R.C.M.P. report the boy died as the car was dragged at the end of a trail by a runaway saddle horse, he had attached a rope to the horse and taken a half hitch around his head when the animal bolted.

Cause of death was said to be a fractured skull, suffered when the boy's head struck the object in the field.

Friends who had attended the funeral sympathize to Mr. and Mrs. Gadsby.

Warning

Numerous brush and a prairie fire are again a menace to the community.

Sparks can be fanned by the wind and carry the great fire.

Friends who had attended the funeral sympathize to Mr. and Mrs. Gadsby.

With your property and firewood it is necessary to brush out this common danger.

NOTICE

The Cancer Drive, sponsored by the Women's Institute, will take place next week. Have your donation ready when the treasurer calls.

Urges More Safety

Greater safety on Alberta roads is being emphasized by officials of the Alberta Motor Association and other organizations.

With the traffic volume now on the increase, it is necessary to be on the alert at all crossings and to guard against all other hazards. Already the level crossing rate is causing alarm in different parts of the country.

It also appears there is need for greater education as to pedestrian safety statistics. Recently it was reported in the U.S. that every 76 minutes a pedestrian met death in traffic last year. Also, persons' feet accounted for 50 percent of the human traffic in the country.

To cope with the situation, national pedestrian protection committee have been formed. These are designed to carry out or to bring about more effective programs leading to reduced pedestrian injuries and deaths.

In Alberta, much can be done along the line of encouraging pedestrian safety. School safety activities and public education will accomplish a great deal.

Wedding

HALL - KEAST

Great Memorial United Church in Red Deer, Alberta, was the scene of a lovely afternoon wedding on April 24, 1940 at 2:30 p.m. when Mildred Joy, only daughter of Mr. and Mrs. George Keast, of Havelock, Alberta, was united with Mr. Gordon Allan Hall, son of Mrs. Thomas Hall and the late Mr. F. Hall of Red Deer. Rev. J. C. Gardner officiated.

Attired in a gown of white sheer over silk the bride entered the church on the arm of her father. Her gown featured a sweetheart neckline, with full floor length skirt, and a beautiful embroidered veil, which was held in place with a white net dress, trimmed with pearls. The bride also wore a gold necklace, a gift of the groom. Her hair was styled in waves and white carnations formed her bouquet.

The bride's attendants were Mrs. Fred W. Hurrey, maid of honor, a niece friend of the bride, and Miss Dora C.M. Otto, junior bridesmaid, cousin of the bride, appearing in their length white dresses with long veils.

The groom wore a tuxedo of black and white tuxedo with a white bow tie. He was accompanied by a best man, Mr. Alvin Hall, brother of the groom, and a ring bearer, Mr. Alvin Hall, brother of the groom.

The reception, attended by fifty guests was held in the Club Cafe, Red Deer. The bride's mother chose a very flowered afternoon dress with matching hat, and wore a carriage of white carnations. The bride's mother of the groom was dressed in grey with navy accessories and a carriage of pink carnations. Centering the wide table was a three-tiered wedding cake, decorated with a miniature bride and groom. Bouquets of pink and white carnations decorated the table.

The toast to the bride was proposed by Mr. Frank Kenney to which the groom fittingly replied.

The happy couple motored to Edmonton for their honeymoon. On the return they will make their return they will make their return at Alx, where the groom is employed with the C.A.D. Post.

K Roy Nelson and Eric Ralston, Optimists, wish to announce that they will visit at the Alx Hotel on Tuesday, morning May 10, 10 to 12. Mr. Nelson will be in the city office, 104 Greyhound Building, Calgary, daily except Monday.

Mrs. Anderson of New Westminster who has been a guest of her mother Mrs. A. Donahy for the past three weeks returned home on Monday. She was accompanied by her mother who intends to spend a few more days in the city.

Miss Hazel Holman has accompanied with the staff of the A.M.E. G.A.P.F.

Mr. and Mrs. E. J. Wagner of Denver are visiting in Alx.

Mr. H. Olson is a patient in an Edmonton hospital.

Dennis, small daughter of Mr. and Mrs. M. Nielsen was injured about the head when she fell from the back seat of her car, on the way from Lacombe, Monday afternoon. She is in Lacombe hospital suffering from slight concussion and cuts about the head. How the car door happened to come open is unknown.

Mr. Charlie Tuglas left the employment of the C.A.D. P. for attending a convention of the department of the Red Deer departure by a train presented with a Stanley Flash by the C.A.D. P. staff. It is understood that Charlie is heading for the corporate staff. Good luck Charlie!

Mrs. J. W. Health has gone to Vancouver, B.C. to be present for the presentation of her daughter, Margaret, in the nursing class of the Vancouver General Hospital.

The Horticultural Club will hold its next meeting on Wednesday, May 11th at 8 p.m. sharp. Remember the perennial struggle also the topic of the month "How I Became a Gardener". Bring a new member to this meeting as they will then receive the Gladys premiums. The club members make an effort to attend to put your premium glad!

Mr. and Mrs. Sidney Manberg of Calgary were recent visitors at the home of the former's mother.

Mr. A. Bennett of Red Deer visited friends in Alx for some time during the week when Jenny is attending the office of his father-in-law, Mr. Marshall.

Mr. and Mrs. E. McKinney and baby are staying in the Alx for the next two weeks where Jenny is attending the office of his father-in-law, Mr. Marshall.

On Sunday, May 13th, the usual christening service will be held in the United Church. All those interested are welcome.

Mr. and Mrs. Harry Grover and Sandra from Regina, Ont., will be in the city, May 10, 10 to 12. Mr. Grover is the former Editor of Alx.

COMPANY MIRROR LIMITED

It's been a busy year!

This week many thousands of Canadians will be reading the story told in Imperial Oil's annual report. It is a story of how, to meet your needs, Imperial last year found more crude oil, produced more crude, transported, refined, distributed and marketed more oil and products than ever before.

To do this we had to spend a lot of money. We need more pumping over thousands of square miles in the search for new oil fields—and we found new oil. We built new ships... new pipe lines... new refining units... new marketing facilities... and a host of other things. Again last year we spent more money than we earned, but it was an investment in Canada's future as well as our own.

We spent most of the money we made by borrowing and by selling some of our major investments; the rest was earnings put back into the business after paying dividends.

On this year's business we made a profit of less than a cent a gallon on products sold. This amounted to 0.019 of 100 cents out of each sales dollar we received.

It was a huge, demanding, interesting year. When it began we knew we would have found it hard to meet all our needs when it ended supplies were scarce. It was a year of discovery, making Canada less dependent on foreign supplies, new equipment added, helping to serve Canadians better with the products they need.

Doing your oil is a big job—and a costly one.

If you're interested in them...

If the wells drilled by the company last year had been in Canada during 1938 over 100 million barrels of oil would have been produced and it would have cost 100 million dollars.

Over 100 million barrels were added to the company's stock. The latter pipe line was completed to more than 100,000 miles from a pipe line from Lakeview to Regina. 471,000 miles of pipeline's eight million barrels produced on average of 100,000 barrels per day, a new record.

Sales reached 1,000,000,000 gallons. On its operations the company earned \$1,073,163—100 percent of its cost per barrel of each of the 1,000,000,000 gallons sold. From its investments the company earned \$5,000,000.

Record of Mr. Peter Jamieson's Prize Winning Cow

Attached is a further picture of the production record of Mr. Peter Jamieson's Dual Purpose Shorthorn Cow, "Whodonee Run".

On July 26, 1937, she is now in her eleventh lactation period with production in this period to date of 6425 lbs. of milk totaling 4 lbs. Butterfat in 139 days milking.

This is her best for her successive lactation periods given in Dominion H. O. P. inspection:

Date of Birth	Date of Lactation	Total Milk	Butterfat
March 1, 1934	1934	5,000	100
March 1, 1935	1935	5,000	100
July 1, 1936	1936	5,000	100
Jan. 1, 1937	1937	5,000	100
Dec. 1, 1937	1937	5,000	100

Mr. Jamieson states that by taking the average milk paid for butterfat in these four lactations "Whodonee Run" has made the amount of \$291.00. Her entire production purchased by the C.A.D. P. at Alix.

This high producing cow has been bred and stamina to bring her into the higher class of her breed but much credit is due to the dam, Peter's 207, who has full charge of the feed and milking. It is a record that "Whodonee Run" is in the best class. Much credit to Peter and Alix.

One again our frozen grapes are quickening us with life after their long winter sleep, preparing the earth to receive the seedlings of fruitfulness promised by the scriptures that "While the earth remained, seedtime and harvest, and cold and heat, and summer and winter, and day and night shall not cease."

Already some farmers are on the ground and have started by the end of the long season of seedling production in this period to date of 6425 lbs. of milk totaling 4 lbs. Butterfat in 139 days milking.

Good to be planned this year unfortunately will go into soil that is leaching the maple leaves out of the soil. This is a great loss to the maple trees and the long time average of seedling production in this period to date of 6425 lbs. of milk totaling 4 lbs. Butterfat in 139 days milking.

Conservation in Canada

SOIL AND WATER CONSERVATION on the prairie long ago caused the problem of industrial wastes and became initiation of national interest and concern. Agricultural scientists have for some time been working on the fact that due to the action of water and the action of erosion are causing deterioration of farm lands, there is danger of an acute problem has already been made in Canada and a great deal of work done to conserve matters and preserve the soil of our great wheat growing areas.

Canada Leads Other Nations Invention was one that they are now proud of. Canada has been a leader in the world in the conservation of natural resources. In Western Canada, the land is being conserved in a more intelligent way than in any other part of the world. The Dominion Government of the Prairie Provinces has been successful in the conservation of the land. The Dominion Government has been successful in the conservation of the land. The Dominion Government has been successful in the conservation of the land.

Problem Now Serious It is interesting and encouraging to hear from the various who have been successful in the conservation of the land. The various who have been successful in the conservation of the land. The various who have been successful in the conservation of the land. The various who have been successful in the conservation of the land. The various who have been successful in the conservation of the land.

Clive News

The recent fire have caused grave concern on the part of the Clive towns and it was felt that some method of fire fighting should be devised. Members of this committee of citizens have decided to call Mr. O'Dwyer of at the fire of Clive St. Knight Laundry and Industries, to survey the town and give an estimate of the cost to put in water and sewage for the entire town and having at strategic points units in which a long hose might be connected for fighting fires. Mr. O'Dwyer arrived Thursday a.m. in the evening some 20 men gathered with him white he explained how such a project might be carried out. It would not be necessary to gain the facts for the project by taxation but could be hurried by passing debentures and could be paid back gradually from the said paid in for the water and sewage.

Mr. O'Dwyer expects to have the estimates ready by Saturday of this week and Mayor Neilson states that he will call a council meeting and ratify a motion within a few days after the estimates have been received. If the residents consider the estimates as being favorable towards the project a by-law will be passed in the effect and ratifyers will vote on it. If, however they feel that the project is impossible other ways will be explored to find fire protection.

The Margaret L. A. will give a Tea, at Mr. Harrison's aid of the Cancer Fund on Saturday May 31 and on the following Saturday the Clive United L. A. will be putting on a similar Tea.

Mr. and Mrs. Robinson had as their guests Mrs. Robinson's sister and mother of Red Deer.

Mr. and Mrs. A. Heald and Mrs. Heald spent Sunday with Mr. and Mrs. Gay Stanfield of Tim.

The Anglican L. A. met last Wed at the home of Mrs. Ellingford, with six members and five visitors present.

The Working Luthers L. A. have changed the date for their picnic from June 11 to the 18th because of the Junior Golf Club meeting on the 11th.

One Dike and his mother returned from the hospital this week.

Neighbours gathered recently and needed a forty acre field of One Dike, who has been in the hospital for so long.

The Baptist Mission Circle was held at the home of Mr. Stanley Green last Thursday.

Mr. O. Gygis spent the week end at Calgary.

Mr. and Mrs. George Vandervyl of Calgary spent two days with Mrs. Vandervyl this week.

In strictest confidence...

THAT'S THE WAY you want your money matters handled. That's the way your bank handles them.

When you deposit money, cash a cheque, make a money transfer, arrange a loan, you want it done speedily, efficiently... and above all, confidentially.

It is only natural that your bank should work that way for you, for privacy is traditional in Canadian banking. In any case, the competition of other banks assures it.

Canada's ten chartered banks—competitive, efficient, private—provide for millions of customers a service unequalled in the world.

The Mirror ball team visited Chet at work and won a close and interesting game. The boys played at Delbert's on Sunday 6 to 5 in a snail's pace game.

Mrs. Humann was a Calgary visitor last week.
We are again in the C.N.R. mail running through town and there is pressure in both hydrants. Before spring mail will be on our shoulders to give the town the water supply will grow up simply the first of the two miles and shelling rules and Mirror is indeed fortunate to have this property available to them. Many thanks are due to Mr. J. Geller for the immense amount of work and planning he did in order to get this weekly for us. We need more stiltmen like Joe.

A short time ago the Calgary Herald ran a photo and headline about an article on local boy, Winston Elliott. The article stated that this 21 year old student in a relatively more sloped field of general politics is intended, some day to prove that Canadian boys are among the best in the world. Winston is now attending and working at the Canadian at University of Calgary where he is putting the final touches on an essay on the subject of the three years at the Ontario College of Art. Winston intends to go to Europe, within the next two years to make last contact with the museum and make other objects of pilgrimage.

Mrs. Henderson, Mrs. Armstrong and Mrs. Hadden were all members on the Vegetarian club on Saturday.
The Ripley Nature Club held a tea and sale in the W. I. hall last Saturday. Numerous beautiful articles were on sale and the proceeds to the club and a small little club. The Ripley community is a real fine spot and they make a scene of one of the things they under take.

Harry Holland returned from Calgary and it is rumored that he has been a doctor for a long time a very gallant and daring person a real gas and great fighter in a 7 unfortunate situation.
Ramon work on Chet. Hand's house is now completed and is a real smart looking job.
The municipal grade has been in town for the past week and some work needed road grading was accomplished. However it was not possible to keep them here for as long as we had expected and as a result there are still some streets that still need work done on them. This work will be done as soon as the equipment is available.

BEVING WITH A SMILE

STILL FOR AN UNDERGROUND SEVER OF GR.—Killing began this week at the Steel Co. of Canada's Hamilton plant on 27,000 tons of special steel plates, ordered by Imperial Oil for the proposed 40-inch Algonquin pipeline. The line will be a first step in opening up wider markets, badly needed for Alberta oil. Above, Hamilton plant, still red-hot, sends its journey through the plant mill and has plenty. Inset at upper right shows men who operate the plate mill in their control room—called a "pig" mill.

Don Wilton is leaving to do post work for the Ure's Lumber. We always told Don that he would end up on relief.

Mr. and Mrs. Ken Williams left to visit at the home and Ken will attend the Canadian Legion Convention at Banff as an official delegate, on their return trip.

The Mirror Branch of the Canadian Legion held a meeting last Friday. It was decided to fix the roof and do other necessary repairs. Mr. Geo Hart was present with his past president's pin, and Mr. Ray Taylor tendered a vote of thanks for George's past endeavours on behalf of the Legion. A number will be held on Friday, June 18th, and De-shaw and Alf members are to be invited. Returned men should all be in this organization. It has done much good work during its short existence and is going to go places.

The Mirror ball team journeyed to Delburne and the game was called in the seventh inning when Mirror started to walk away with the crowd. The score at quitting time 22-3.

Wm. McGregor went to Edmonton to see his visiting old country soccer team in action.

Edwin McKenzie is home from the Delburne hospital.

Glen Finch is home for a few days.

Mirror ball team defeated the Olive Legion 9-6 here on Sunday.

Mrs. A. D. McMillan is visiting Winnipeg this month.

Dr. Chown and Mr. H. A. McKenzie are taking in the big ball game at Vermilion.

Mr. Norman Jacques was receiving congratulations in the district this week, and left for Wetaskinaw and Edmonton on Tuesday.

Winston Miller of Calgary visited his parents here over the week end.

Mr. Steve Sacher and Pat Harrow have gone to Calgary to work.

Mr. Harwood, Progressive Conservative Candidate for this constituency, was a district visitor this week.

Mrs. Pedersen is visiting her daughter, Mrs. O. Ray and Mrs. E. Pedersen.

Mrs. A. E. Knight was taken to the Lacombe Hospital last week for treatment.

Raymond and Bill have taken over the position as number at the O.N.B.

Ray Bromley spent a few days at the Furber farm doing some carpenter work.

Mr. L. Olson Passes Tree Planting Car

The grim reaper has once more visited our community and path of death has been traced to the place of our Louis Olson. Mr. Olson was born Nov. 11, 1861, at St. Boniface, Man. He was the son of a family of about 400 ft. of 1 1/2 inch galvanized pipe for sale in the Nipaw district and living there up to the time of his passing on June 16, in an Edmonton hospital.

In 1901 he was married to Bertha Lierman. He is survived by his loving wife, his daughter, Mrs. I. Soren, Mrs. J. Peter, Mrs. L. Soren, Mrs. J. Panton, Mrs. M. Linton, and three sons Harold in Nipaw, Len and Arthur, Edmonton, brother, Martin, and four sisters in the U. S. A., his wife, the host of friends.

The funeral was held from the Grand Theatre, Mirror-Ed. Saturday afternoon, June 18, at 2 o'clock. The officiating minister took place in the Mirror cemetery. The funeral was held at 2 o'clock. Mr. L. Olson passed away at his home in Edmonton on June 16, 1916. He was 54 years of age. He was a native of Sweden and had been in Canada for many years.

Mr. Olson was a member of the Swedish Lutheran church in Edmonton. He was a very kind and generous man and was well liked by all who knew him.

His funeral was held on Saturday, June 18, at 2 o'clock, from the Grand Theatre. The burial was in the Mirror cemetery.

Survivors are his wife, his daughter, Mrs. I. Soren, Mrs. J. Peter, Mrs. L. Soren, Mrs. J. Panton, Mrs. M. Linton, and three sons Harold in Nipaw, Len and Arthur, Edmonton, brother, Martin, and four sisters in the U. S. A., his wife, the host of friends.

Mr. C. W. Peterson is working near High River.

The Canadian Forestry Association's Tree Planting Car, which has been visiting points along the P. C. R. from Vancouver to Toronto in the last two weeks is attracting a large number of people to the meetings in the report a growing interest in the subject of conservation and the use of shelter belts of trees to conserve moisture and to protect fruit trees and other plants which would not survive without protection.

Dry conditions in this area during the last year were a reminder that the prairie was subject to periods of drought. That, though these dry years are marvellous, with proper farming methods, the use of shelter belts and conservation of the natural tree growth, we can avoid the complete devastation of the thicket. Trees around the home can greatly improve the interior and they assure a food supply for the family by protecting the home garden, greenhouse and widespread burning and clearing of natural tree growth, including both good and bad land, is a great danger to our agricultural prosperity. Fortunately an increasing number of people are realizing the necessity of practicing conservation to ensure the continued fertility of our western lands.

Three meetings were held in the car at Alix. Two meetings for the car at Alix. Two meetings for the car at Alix. Two meetings for the car at Alix.

Mr. M. Smith has returned from Vancouver where she attended the graduation of his daughter Margaret, from the General Hospital.

Mr. and Mrs. H. Brooks and Captain spent a week's vacation in Alix at the home of Dr. and Mrs. H. Palmer, parents of Mrs. Brooks. It was the occasion of Dr. and Mrs. Palmer's wedding anniversary.

Mr. C. Thorpe and Mrs. Thorpe, who were in Alix on Saturday, will hold their annual picnic on Wed. June 28 at 4 o'clock. All members are invited to the church where transportation will be provided in the Sports Grounds. Refreshments will be served. All are invited to bring lunch and a cup. Ladies are especially invited.

Kiki Walker and Billy Christensen spent the weekend in Edmonton.

The young couple had at the home of Mrs. P. Annable on the evening of June 18 with a good attendance. Most of the young people were served by the house.

Mr. L. Osterlund of Red Deer was an Alix visitor recently.

HOW THE LIBERAL GOVERNMENT HAS PROMOTED FARM PROSPERITY

1. Farm income is now the highest in history.
2. The Prairie Farm Assistance Act protects Western farmers against unexpected crop failures.
3. The Liberal Government has put guarantees behind co-operative marketing.
4. It has stabilized farm prices.
5. It has given financial aid to farm producers.
6. It provided low interest short and long term loans to farmers.
7. Farm rehabilitation and arid land reclamation measures have helped farmers put new acres into profitable production.
8. It initiated and developed the annual farm outlook conference.
9. It gave generous support and encouragement to scientific research into improved methods of production, processing and handling farm products.
10. It safeguarded overseas markets through long term trade agreements and export credits.
11. It lowered production costs by abolishing tariffs on farm equipment.
12. It aided the western grain grower and the eastern livestock producer through freight rebates on feed grain movements and by removing the embargo on export of cattle.

Recital

A very interesting and enjoyable recital was presented by Mrs. H. H. Brooks in the Legion Hall on Wednesday, June 22, at 8 o'clock. The program was well planned and well executed. The most interesting feature was the presentation of an orchestra of about eight children rendered selections which were enjoyed by all. Much credit is due the young artists for their excellent work. The evening came to a close after a gift of appreciation had been presented to Mrs. Brooks, after which she had a short talk to the young men and women who had been present. The proceeds of the recital went to the United Fund for the relief of the war-stricken people.

Just over the St. Lawrence River on its way from Montreal to Newport, Vt., is a steel
bridge, first of 21 steel units ordered by the Canadian Pacific for their main line
operation from Montreal to Wolfe River, Vt. The locomotive shown above is made up
of two units, each supplying 1,500 horsepower and is capable of hauling loads of more
than 2,000 tons in the heavy grades on the O. P. R. line through the Green Mountains of
Vermont. The units have no gears for freight service, but measure horsepower will
be ready in the fall to 570,000 horsepower of the 171-mile stretch of track.

ALIX HOME OF CO-OPERATION

MILKY DAXS FROM LITTLE ACRES GROW

Alix is justly proud to be the home of Central Alberta Dairy Pool, a farmer owned organization, the first of its kind in Alberta. Operating plants are as follows:

Alix, Banfill, Camo, Delbert, Eklville, Elbow, Elmore, Glen, Poncha, Hot Deer, Rocky Mt. House, Rimbey, Stettler, Camo, Camo.

The Dairy Pool has paid dividends to its members amounting to over a million dollars.

Herewith an outline of the pool history and organization from its inception to date.

1. The Central Alberta Dairy Pool commenced business in February, 1905. This was a direct result of an organization meeting called by the British Lions' Club, I. F. A. No. 190 at Alix in January, 1904.

2. Mr. N. L. Anton Larson, secretary of the pool, was the man chiefly responsible for the starting of the Dairy Co-operative. However, probably the members of the first Board of Directors can be associated with him. They were: A. G. Johnston, President; W. A. Armstrong, Vice President; A. Scott, B. J. Wright, H. Wilson; J. D. Johnston, J. P. Gentry, H. J. Moore; J. H. Nott.

3. Mr. Larson was the first manager of the organization and continued in that capacity till early in 1908.

Mr. Larson hailed from Denmark, and at the time the Pool was being organized, operated the Redwood Creamery at Alix, which plant he turned over to the Pool on the following basis:

A monthly salary of \$100 was made and Mr. Larson agreed to make a pro rata distribution of the earnings of the concern, according to the volume each Pool member put through it in the year. This meant Mr. Larson took the portion of surplus earned by the new members as well. In addition to this, he leased the business to the Pool on a similar arrangement of taking care of operations, the Pool paying his share according to its contribution of goods manufactured, and Mr. Larson paying his share likewise.

An appraisal was made of the entire business, and this was the basis of a purchase price to be used when the Pool decided to buy, and a rental was also paid on the basis of the appraisal until such time as the purchase was effected.

When the Pool took over the business entirely on its own, adjustments were made regarding additions and depreciation reserves and the purchase price remained at the appraisal value, plus the adjustments referred to, and Mr. Larson was compensated as their manager, without any other strings attached.

Next to Mr. Larson undoubtedly would be the first President, Mr. A. G. Johnston, a farmer from Elbow, Alberta, who at that time was actively connected with the U. F. A. movement of the province.

Mr. William A. Johnston succeeded as general manager of the organization early in 1908.

During the time that the creamery was built at Hot Deer, as well as the acquisition of creamery plants at Bonanza, Alberta, and at Arma, Alberta,

The chief product of the Co-operative, evaporated milk, was sold under the name of "Alix", and shortly thereafter the name was changed to "Alix". Alix is still the brand name of the evaporated milk which is manufactured and sold by our organization.

In 1908 Edna A. Johnston succeeded Mr. William A. Johnston, and has remained with the organization since that time.

Originally our organization had but one plant, at Alix, and served its members over that part of the province, namely, the central part, in which our organization was originally designed to operate in. In the early years most of the products, milk, cream, which is the product for which the organization was set up, came into the various creameries by train, throughout the year, however, over the winter months, at the same time prevailing of certain market roads was commenced. In addition, more farmers got into the business, and then we had the worst winter ever, during the winter period, altogether it proved a condition which was not advisable for our organization to continue to depend on the truck or the train as the chief means of bringing the produce in, as at that time, the main plant, Alix.

There was another condition which developed as well which added influence to this change and that was our province government, through the Dairy Branch, was instrumental in setting up programs of education. Some of this educational work could be carried on through the milk, many instances, however, the most valuable work was done through the present contact, and many of our plant managers, naturally in the several creameries, in the province, were naturally the focal points for such personal contact.

Continued next week.

Junior Club Week

The Achievement week of the Alix Junior Club was held at the Alix Junior Club on Wednesday, July 13th. They left at 7 o'clock that morning.

Joan Clark, Garden Club winner, and Elaine Primus, Swimming Club winner left for Oke on Wednesday morning for Junior Club Week and will return on Saturday afternoon. Jimmy Gilpin was the Grain Club winner. Have a good time you would hard for it.

ALIX HOME OF CO-OPERATION

MIGHTY OAKS FROM LITTLE ACORNS GROW

Continued from last week.

Accurately, in the period 1911 to the present day, our organization, instead of our present one hundred members, had no members. Our organization was started to make up any portion of this increase in numbers. Before this, already operating, were acquired by our organization and taken into our possession as an operating unit of the Central Alberta Dairy Pool. This unit, with some few exceptions, pretty well covers the whole of the area, which by mutual agreement has been located to our organization, the area of our interest in our province. This area on the north is a theoretical line east and west of Hohenstein to the Battle River, and then following the Battle River down to a point which is half way between the Creation line and the 50-20-00 line, and then following a westerly line between those two railroads to the Saskatchewan border. On the south, it is the north side of township 21, with one or two exceptions to the north, which permit of some necessary to be considered as in the territory of the Southern Alberta Dairy Pool. There are three larger dairy units. In the south the 8-north unit, the Central Dairy Pool, is the centre-surplus; and in the north the Northern Alberta Dairy Pool.

During the period 1938 in the present day, our organization has set up our complete facilities for the handling of either product (inside milk at the consumer and cream at the butter plant). We have at the present time egg department at each of our butter, and each constitute a poultry receiving station in the season for the marketing of live or dressed poultry and dressed turkeys. In addition, to serve our own organization, we have a poultry processing plant located at Red Deer. It slays poultry from live poultry from our members, kills, dresses and packs it, ready for any market.

In addition, at seven points there have been creameries. In practically all cases, however, this part of our business was entered into as a service to the own society in which our plants are located.

We want to say now that you want information on the present situation with the formation of our organization in the future, practically all of what we have said with respect to the development of our organization during the time the writer has been general manager will naturally be eliminated.

As to why the chief plants in the area during the years of our business up to 1932 would be first, it is because of the movement of business on a co-operative basis, with Mr. Larson as manager, at the same time Mr. Larson having his own business in Alix, and the profits from the co-operation being shared in relation to the amount of business turned in by each member's own customers, and the members of the C.A.D.P. This type of operation continued until the spring of 1935, when the Central Alberta Dairy Pool purchased the plant from Mr. Larson and he became the first manager.

The next time, we would say, of importance was in 1935 when the Central Alberta Dairy Pool entered into a milk co-operative at Red Deer.

It was decided in August 1915 that all shippers to Central Alberta Dairy Pool become members.

On the matter of geographical location, we are fairly even distributed over the area of interest, a slight leaning, however, would be observed in the areas that are considered less productive.

As to giving you information on the average cream prices paid to members, we will give you an average price in the territory and then we will add our details.

In the matter of financing, the Central Alberta Dairy Pool has had a very satisfactory record. First, it operated for the first year on money freely supplied by Mr. Larson in 1929 when they purchased the plant from Mr. Larson. They required a government guarantee loan of \$39,572.32. From the beginning of the operation of the profits for many years, operation was quite good, according to the contract between the member and the organization, the organization was allowed to build back up to 25-pound butterfat; therefore, if the profits in any year was over, say, 25, the quantity over 25 would be paid out in cash at the end of the year, and the 25 or less would be paid out in cash by the directors, would be retained by the organization as additional working capital and a slip of paper issued to the member that his interest in the organization is such and such an amount and would be returned in cash at some future period, as determined by the board of directors.

Might say in that respect we are attaching a statistical sheet which indicates all the final payments both in cash and participation, and the quantity of the paper final payments that have been paid out in cash.

You will note that the organization at the present time is owned and operated entirely by the earnings in the last five years. All other losses in the membership have been returned to the members in cash.

On the statistical sheet you will see we show the number of units handled by the patron. That represents a pound of butterfat, either in the form of milk or cream, a dozen eggs or a pound of poultry.

At the time we are listing the particulars concerning it is a pound of butterfat handled by the patron.

It was with a regret that we learned of the death of Mrs. H. Eiler, one of Mr. and Mrs. H. Eiler, when his truck over-turned on the highway between it and Red Deer and Westlock, on Saturday night. Passing near the truck, found the truck. No other vehicle was involved.

The T.R. Mobile X-Ray Clinic will visit Alix on July 23, 24 and 25. Appointment cards can be had from Mrs. E. Eiler.

Miss E. Eiler, N.N. of Edmonton and Herb Eiler of London are visiting with their family.

Ernest Andrews is visiting in Cambridge, Ont., at the home of his brother, C. Andrews.

Mr. and Mrs. Vining, Lawyers of Oakland, California, visited their niece, Mrs. B. McKir, near last week.

Mr. and Mrs. W. Robinson motored to Calgary Saturday to attend the last day of the stampede.

Mr. and Mrs. W. Dean and Linda motored to Calgary and attended the stampede. Mrs. Dean and Linda left by train on Tuesday for the last time of the year to England, where they will visit relatives and friends for three months.

Mr. C. Mansbridge visited her son and daughter in law, Staff Sgt. and Mrs. Mansbridge in Calgary recently.

Mrs. Lane of Castor was a weekend visitor at the home of Mrs. L. Palmer.

Mrs. H.A. Tupper of Camrose, and Mrs. George Gundy and daughter of Guelph, Ont., were guests of Mrs. C. Tupper this week.

Mr. and Mrs. Reinhold Dugel, Ivan and Gilbert and Mr. and Mrs. Art Dugel of Grangely, were recent visitors at the home of Mr. and Mrs. D. Bels.

Rouge Legume Seed Crops

All signs point to this being a record touring year for this province, according to officials of the Alberta Motor Association.

Recently provincial government travel officials figured that the gross turnover made exceeded \$21,900,000, which would be a 20 per cent gain over last year.

Working up claims of a tour last season are reports on registrations at four national parks in Alberta for the six months period ended June 30, last.

Total registrations show a gain of 7,500 visitors at Banff, Watrous, Jasper and Lake Louise national parks up to the end of June.

Banff with a total of 127,500 showed a gain of 20 per cent over the 10,616 a year ago.

Hand pulling of weeds in lettuce seed crops will pay dividends, says J. E. Mirfield, Supervisor of Crop Improvement, Alberta Department of Agriculture. There are certain weed seeds that cannot be cleaned out of alfalfa seed crops. The time to remove the weeds is when the crops are growing. It will pay to hire extra help for this work if no money since the presence of the weed seeds in the threshed crop greatly reduces its value. The presence of weed seeds in other seed crops should be avoided. The seed crop is probably the most difficult from which to remove small seed weeds. Timothy, night flowering quail, lamb's quarters, Amaranth, dragonhead, wild mustard, sweet shiver, Russian thistle and curled dock should all be removed while the alfalfa crop is growing. The same applies to wild mustard, sweet shiver and Amaranth, which are found in alfalfa and timothy seed crops. Alfalfa seed in alfalfa seed and timothy seed in alfalfa are also important.

power is always

IN YOUR DISTRICT

The Spray Lakes project will benefit your district in two ways. Through ensuring abundance of power for rural electrification it will bring a higher standard of living to your farms, and lower farming costs. By ensuring abundant industrial development throughout Alberta it will bring more people and more money to your district — with increasing demands and better cash markets for many of the things your district produces. The Spray Lakes project means progress for all.

How to make cut flowers last.
DO - Cut roses in bud or partly open, they'll last much longer. Remove wilted flowers by cutting off an inch of stem and placing in 2 or 3 inches of boiling water until it cools.

Cut gladioli when the second lower leaf begins to open and remove such wilted ones. Split Chrysanthemums and Penny stems about 1/2 inch from the end.

Force water up the stems of water lilies with a syringe after first standing them in 2 or 3 inches of hot water for half an hour.

Cut poppies when in bud and dip a little gelatin or plastic glue in centre to hold petals.

Add 1/2 tsp. of borax acid to 1 quart of water to preserve carnations.

Allow flowers to harden off in deep water in a cool place for several hours before using. DRY - Place flowers near sunlight or other heat. Leave extra leaves on flowers, this prevents wilting.

Put in much water with flowers. Most flowers absorb water only from the tip of the stem. Violets and carnations are exceptions. Cut points in full bloom. They will level up in a bowl and last longer if dried in bud.

Put flowers with milky or gummy juices into cold water at once. First near ends over a flame. Oak leaf, among others need this in a bowl.

Wheat Pool Achievements

The Alberta Wheat Pool was organized by Alberta farmers some 26 years ago. Alberta Pool Elevators started business in 1928. Grain producers of Alberta put up over \$8 million to build Pool Elevator facilities. They did this because experience had taught them that only through the operation of their own co-operative grain handling system could they obtain protection and efficient service. By so doing Alberta grain producers are now freed from the shortcomings of monopoly control.

Alberta farmers have given generous support to Pool Elevators. The openness of operation and efficiency in directing and managing the Pool Elevator system has gained for this co-operative widespread respect and confidence.

In the years Pool Elevators has been in operation it has paid \$3,892,000 in cash patronage dividends, \$5,531,000 in reserves, and has redeemed reserve contributions from original Pool members to a total of \$4,854,000.

Pool members can increase their reserve holdings by patronizing Pool Elevators. In seasons when earnings warrant same, cash patronage dividends are also paid. It is to the advantage of every Pool member to deliver his grain to a Pool Elevator.

Grain producers can become members of the Alberta Wheat Pool by the delivery of 500 bushels of grain to a Pool Elevator and the securing of Wheat Pool reserves to the value of \$5.00. Your local Pool Elevator agent will be pleased to give advice and assistance if you desire to apply for membership.

You can help the grain growing industry, agriculture in general, and yourself in particular by giving every support to

HAIL DISASTER
Two hail storms occurred in Alberta over the past weekend. One started in the vicinity of Wetaskiwin and cut a four mile streak in a north westerly direction to the south-west corner of the province. Some 25,000 acres of crops around Wetaskiwin alone were damaged from 50 to 100 percent.

On Monday afternoon a hail storm damaged about 10,000 acres from 80 to 90 percent between Medicine and the Manitoba border.
On Tuesday, chairman of the Alberta Hail Board, expects about 600 claims to be filed for damage resulting from these two storms, bringing the total up to 350 this year as compared with 170 at this time last year.

HAY-PODDER
Good offerings of hay with in the past week have stopped the signs of very high prices which seemed to be developing during an earlier period. The beginning of negotiations by such large organizations as the Hay Producers and Packers Association and the packing plants has the effect of giving a sudden boost to the price. A few transactions up to \$80 per ton were recorded. The general level is now about \$55 a ton for good hay. Hail storms which caused havoc to grain crops in two week and storms will have in their wake tangled and torn pastures that will be valuable only for feed.

Canadian mills produced 135 million pounds of regular flour in 1948, an all-time record. More than half the flour milled in Canada each year is exported, making the Canadian flouring trade an important one.

Clive Ball Tournament
The third game of the Clive Ball Tournament was held at Clive, Wednesday, August 11, with teams competing for top honors. Teams from Clive, Alix, Niverville, Hays, Pine Lake and Erskine were entered with Alix taking the money winning three games.

Alix and Clive played the first game at 10 o'clock, Alix winning 3-1 behind the steady pitching of Harold Patrick. Billy Horton was on the mound for Clive.
Niverville and Erskine played the next game with Niverville winning by a score of 7-3.
The third game proved to be a close one with Clive winning by a score of 2-1. Highlight of the game was Alvin Hanson's home run in the last inning, breaking up the ball game.

A draw was then made with Niverville receiving a bye into the final and putting Alix and Clive into the second round. Alix proved to be too much for Hays with Pat Chapman on the mound and Andy Eckstein from the team as a whole, they went on to beat Hays 9-4.
The final game was then between Alix and Niverville, the highlight of the tournament as both teams were very evenly matched. Niverville scored the first two runs but Alix came back to tie it up 2-2 and then won 4-2 but this lead didn't last long as the Niverville team scored 3 runs in the sixth inning after getting another run and two more in the seventh. Niverville won 5-4. Pat Chapman was the pitcher for Alix.

Why Some Raspberries Don't Develop
You may have wondered why raspberries sometimes fail to color or are half red and half green. The reason is improper pollination. Actually, the raspberry is not one single fruit but a mass of tiny fruits or drupelets. The pit of each drupelet must be pollinated or it will not develop and color properly.
In commercial fields, this task of ripening can be a serious problem. For varieties that do not pollinate readily, such as Marlborough, here is most convenient to every oil pollination in order to get increased yield.

How To Cut A Good Splice
Every gardener has his own method for cutting gladiolus blooms. But growers whose livelihood depends on the production of quality plants, are especially careful to cut the spikes, because they realize the important part that the remaining leaves play in the ripening of the spikes.
Here is how they do it: With a sharp knife, cut the small sections in the flower stalks at the base of the leaves. This cuts the leaves, but does not cut the spikes. The spikes are bent forward, away from the leaves, and are cut at the base of the leaves. The spikes are then bent back and are cut at the base of the leaves. The spikes are then bent back and are cut at the base of the leaves.

Spikes can be cut at noon as the first few flowers have opened or can be cut at 4 p.m. with some benefit. However, a good compromise is to cut them at 10 a.m. on the early morning, plump the spikes and cut them up to the second flower, and leave them alone for a few hours before arranging.

A LESSON IN SEAMANSHIP is given a group of five boys of the party of 50 British boys who are in Canada for a four week tour sponsored by W. Garfield Weston, prominent Canadian industrialist and a former member of the British House of Commons. Their instructor, showing the boys the workings of the ship's telegraph, is Capt. R. B. Grant, master of the Canadian Pacific liner Empress of France, which brought the boys to this country.

it's a good idea to have a choice

SUPPOSE you have what you feel is a good opportunity which calls for bank credit. If one bank cannot see it your way, or if you think you can get a better deal elsewhere, you're free to "shop around".

Banks compete to serve the most diversified needs, no matter how specialized any of them may be... personal, business, or farm loans, money transfers, collections - to name just a few.

More than 95 out of 100 bank loan applications are decided "right in the field" - in the branches - by bank managers who take a personal interest in serving their customers' individual requirements.

Exchange Of Farm Labour

A REPORT MADE BY THE Labor Canada gives some interesting facts and figures concerning the movement of farm labor from the Atlantic to the West and the West to the Atlantic. The report states that the exchange of farm labor between the West and the Atlantic is a very important factor in the economy of the country. It is estimated that in 1934, 1,000 farm laborers moved from the West to the Atlantic, and 1,000 from the Atlantic to the West. Last year the Canadian West was to help with the Atlantic, while the Atlantic was to help with the Canadian West.

Workers West — The first organized movement of seasonal agricultural workers from the Atlantic to the West was in 1934. Flowers add cheer to dispel the dreariness of the long winter months and among the most desirable for indoor use are the indoor plants.

The most popular of these are the hyacinth, narcissus, tulips and freesias. These are easily grown and few flowers produce more beauty and variety in color and shape.

Try R. J. Underwood, Dominion Experimental Station, Moffat, Sask.

Balls appear in the streets and snow begins to fall and they should be ported soon after they arrive. Long exposure to heat will reduce their quality. A satisfactory soil is made by mixing three parts rich garden soil with one part of coarse sand.

When potting, a few pieces of broken crockery or gravel stones are placed over the drainage hole. Soil is then added and well firmed until it is level with the top of the ball and about half an inch below the rim of the pot.

Watering is begun and watering is given and the bulbs are placed in cool dark storage.

An ordinary fruit and vegetable room usually provides favorable conditions for the development of good roots.

The bulbs remain in the storage until roots are well developed. This takes six weeks to three months depending on the kind of bulb.

Watering at intervals may be necessary to keep the soil moist. The bulbs are about one inch long.

As the roots develop, the pots should be moved to a light position in the cellar as the plant hardens, the light and temperature naturally increased.

The plants can be placed in the living room when the leaves expand and the flower buds are disclosed.

Some of the better forcing varieties are: Hyacinth, 'Lilac Queen', 'King of the Blues', 'Giant', 'Grand Master', 'Gertrude', 'Marigold', 'Golden Spr.', 'Yellow', 'Kitty Alfred', 'Piper White', 'Laurie', 'Center and Chatterboxes', 'Kitty Thelma', 'Chrysanthemum', 'Darwin', 'Tulips', 'Princess of Wales', 'Balsam', 'William Pitt', 'Oscar Bell' and 'Vanderbilt'.

PREDATORS OUTLAW ATLAS

WOLVES

THE KILLERS OF LIVESTOCK AND GAME

Wolf predators in the Northern and Western reaches of Alberta have assumed dangerous proportions according to Mr. F. P. Lathorne, who made a survey of the situation. Mr. Lathorne claims that some of the finest game ranges in Alberta have been overrun by these many killers, resulting in rapid extermination of game herds. As the game becomes scarce, the wolves are beginning to spill over the ranges from the foothills and prairie to prey on valuable domestic stock. Evidence that wolves are on the increase is that the government paid bounty on 5000 kits in the year ending March 31, 1935.

Ferrets and terrier-type alix are urged to be on the lookout for these outlaws and to take vigorous action to track down and destroy them if they make an appearance in the area.

The Menace Of Fire

DISTRICT FIRE ARE An ever-present menace to life and property. From time immemorial, the threat of fire has been a constant factor in the lives of men. The history of fire insurance is a record of the struggle to protect property from the ravages of fire. The first fire insurance policy was issued in 1666, and since that time, the industry has grown to a point where it is one of the largest and most important in the world. The fire insurance industry is a complex one, involving many different types of policies and a large number of companies. Alix News

Mrs. Macra, sister of Mrs. F. Woodward, and Mrs. A. Foster are guests at the Woodward home. They recently returned from Vancouver where they reported picking raspberries just before leaving. Quite a contrast to our wintry weather.

On Monday night in Poncha a meeting of the Central Alberta Hockey League was held with representatives from Red Deer, Camrose, Hatcher, Poncha and Alix. Each town has agreed to sponsor a hockey team in this league. Another meeting will be held Nov. 28th, to form an executive and draw up a schedule.

Don't forget the Carnival in the Alix Arena on Oct. 31 and 32. A show has been laid at the front end of the arena for the event and if the weather should turn a very cold the waiting room will be used. The ladies of the A.A.A. Auxiliary will be serving lunch.

Driving Hazards Are Still Taking Toll

Approach to the fall driving season brings to light two dangers which are pointed out by officials of the Alberta Motor Association.

One of the most serious is the lurking menace of carbon monoxide which takes a heavy toll every year. This danger can be guarded against by keeping the car windows open in cold weather when the vehicle is being warmed up.

Too often, carbon monoxide does its deadly work in garages where all car windows are closed and there is no outlet for poisonous fumes.

A.M.A. officials also stress the need of avoiding accidents at level railway crossings, which continue to take an alarming toll of motorists.

With a shorter peak of day light approaching, there is need to be on the alert at every railway crossing. Take no chances. Take it easy at these crossings just the same as at every other danger spot on the highway.

Also, the observance of safe driving principles at all times includes special care at railway crossings in the U.S. and Canada every year. They are a deadly menace just the same as lurking carbon monoxide.

ROBERTS - ARCHIBALD

A candlelight ceremony conducted by Rev. Roberts at the Alix Anglican Church was the setting of the marriage last evening Miss Haymond Annelise Roberts, eldest daughter of Mr. and Mrs. R.R. Roberts and Mr. James Henry Archibald, eldest son of Mr. and Mrs. James Archibald of C.I.R.

The bride wearing a long gown of white satin with full length veil and carrying a bouquet of red roses was given in marriage by her brother, Mr. Stanley H. Roberts. The bride was attended by her sister Miss Gloria Roberts, who wore a long white gown and carried a bouquet of baby's breath and Miss Peggy Archibald a sister of the groom who wore a long blue gown and also carried a bouquet of baby's breath.

The groom was attended by Mr. Walter Lynn and Mr. Art Fletcher. Mrs. M. Smith assisted as organist. A reception followed at the home of the bride where fifty guests assembled. A toast to the bride and groom was

I.O.D.E.

At the October meeting of the Dr. Irene Farley Chapter I.O.D.E., Mrs. Ashley gave an interesting report of her visit to Ottawa and the opening of the Dominion House of Parliament. The members of the Chapter for the Canadian National Institute for the Blind asked that all donations be in the box before Oct. 31. The members are circulating the petition to see signs and anyone wishing to sign is asked to see Mrs. H. Farley at the school. The November meeting will be held at the home of Mrs. Farley on Nov. 8 at 8 o'clock.

offered by the brides brothers. Following the reception, the bride was presented with many lovely gifts. A dance in the Alix Legion hall was enjoyed by all. The bride and groom then motored to Calgary and points West. They will reside in the "P" Valley District near Hynesville.

NOTICE

Special Christmas have been appointed to patrol streets and lanes of the Village on the night of October 31st (Halloween). Anyone willfully damaging any property within the Village limits will be severely dealt with.

VILLAGE OF ALIX

Starting Sunday, October 30 the United Church Sunday School will meet with church at 11 a.m. During the service the children will retire to the back room for classes. This is to enable parents to accompany their children to church if they wish and hope it will prove a satisfactory arrangement to all concerned.

Mrs. Barker of Edmonton is a guest at the home of Mr. and Mrs. H. Ashley.

Mrs. L.G. Wiggan and small son of Red Deer visited at the home of her sister and brother-in-law, Mr. and Mrs. Gordon Walper, for several days.

Mr. and Mrs. R.R. Chambers of Vancouver, B.C., visited Mr. and Mrs. H. Ashley for the day after noon of last week.

Mr. and Mrs. R. McKinnon and family of Banff visited last week end.

Mrs. T. Wolfertson and Jean, daughter of Mrs. Wolfertson, visited at the home of Mr. and Mrs. H. Ashley for several days.

Miss Marguerite Smith, R.N., daughter of Mr. and Mrs. M. Smith, and former nurse at the General Hospital, Vancouver, has accepted a position as a nurse with the C.P.A. After short domestic work Marguerite expects to be employed on route to China and Hawaii.

Mr. and Mrs. Walter Dean and Linda and Mr. and Mrs. H. Hulseworth were guests at the home of Mr. and Mrs. Fred Bell in Delburne last Sunday.

Mr. Ted Ballou of Red Deer who is taking over Lyle's Dairy on Nov. 1st, is well known here as he made Alix his home for some time after the war.

Visitors at the Thompson home on Sunday were Mrs. Thompson's brothers and families, Mr. and Mrs. D. Thompson and Mr. and Mrs. J. Thompson, from Edmonton and New N. Wray.

Mr. and Mrs. Kenneth Lums of Weyburn, Sask. visited with Mr. and Mrs. C.W. Peterson last week end.

Mrs. M. Barrington and baby son of Drumheller are visiting with the former's parents, Mr. and Mrs. H. Ashley.

Coming Events

The annual meeting of the ladies of the A.A.A. will be held at the home of Mrs. F. McLeish on Monday evening, November 7, at 8 o'clock. All the ladies of the district and village are asked to attend so that work groups may be re-organized for the League Center in the arena.

The Babine will hold a Contract and Auction Bridge party in their hall on Tuesday, Nov. 1 at 8:15 p.m. Lunch will be served. Admission 50c. Everybody welcome.

The regular meeting of the Women's Institute will be held at the home of Mrs. Anderson on November 3rd.

The Alix Players will present "Aunt Mary's Rules The Room" at Alix, on Nov. 5 at 8 p.m., on Nov. 11 at 8 p.m., on Nov. 18 at 8 p.m., on Nov. 25 at 8 p.m., on Nov. 25 at 8 p.m., on Nov. 25 at 8 p.m.

Dances following each performance - Alix Orchestra. Tickets for all dances 50c.

R. Roy McLean and Eric Riddings, Optometrists, wish to announce that they will visit the Alix Hotel on Tuesday morning, November 26th, 1930.

McLean will be in the city until 10:15 Greyhound leaving for Calgary, daily except Monday.

Wedding

WALKER - MACKAY

In the Central United Church
Held at Edmonton, Alberta,
on Friday evening, Nov. fourth,
a quiet wedding was solemnized
when Miss P.
of Mr. and Mrs. M. H. K. K.
of Prince Albert, Sask., became
the bride of Mr. J. J. Walker,
son of Mr. and Mrs. J. J. Walker,
of Mr. and Mrs. J. J. Walker,
of Mr. and Mrs. J. J. Walker.

Terence E. H. Biddle
The bride was a beautiful
young girl, with dark
eyes, and a sweet smile.
She was dressed in a
white gown, with a
train, and a veil.
The groom was a
young man, with dark
eyes, and a sweet smile.
He was dressed in a
dark suit, with a white
shirt, and a tie.

The wedding was attended
by the bride's father,
the groom's father,
and several friends.
The ceremony was
performed by the
Rev. J. J. Walker.
The bride and groom
were then seated at
a table, with the
bride's father and the
groom's father.

A Drive For Trade

SEATTLE PEOPLE HAVE BREAKED of a state which would be economic self-sufficiency and would not be dependent upon foreign trade for its welfare and prosperity. Actually, however, foreign trade is important to some countries today and around it revolve some of the most complex problems in the world. Canada is one of these countries whose prosperity depends upon buying and selling abroad. With less than one per cent of the world's population, Canada has rich natural resources and farm products, the agricultural production of which is valued by the rest of the world. Canada is necessary for us in such measure of the output of our grain, cattle, horses, fowls, wool and various minerals as the rest of the world.

The foreign demand for the farm products has long been a matter of concern to the people of Western Canada. During the war, and the years following, the foreign market for Canadian products was so great that the Canadian government was forced to restrict the export of many products. Canada is giving increasing importance to the foreign market for its products. It has recently been announced that the Canadian Trade Department is going to bring to the matter and that plans are being made to expand the present service for looking after the foreign market for our farm products. The new policy calls for the creation of a new branch of the Trade Commission to deal exclusively with the sale of Canadian wheat, eggs, hams, cheese and fruit, and four special specialists have been appointed to look after the foreign market for these products. The new men appointed, W. H. Hamilton of Hamilton, D. C. Langley of Victoria, B.C., W. Van Wert of Quebec, and C. J. Smith of Toronto, will be trained as agricultural specialists and will be appointed assistant secretaries.

It will be the duty of these officials to send back information regarding the possibilities of securing new markets to countries where they are interested, and also to buy Canadian goods for themselves. Other officials in countries where markets are already established are being instructed to make every effort to maintain and increase the present flow of Canadian goods to those countries. The new policy calls for the creation of a new branch of the Trade Commission to deal exclusively with the sale of Canadian wheat, eggs, hams, cheese and fruit, and four special specialists have been appointed to look after the foreign market for these products. The new men appointed, W. H. Hamilton of Hamilton, D. C. Langley of Victoria, B.C., W. Van Wert of Quebec, and C. J. Smith of Toronto, will be trained as agricultural specialists and will be appointed assistant secretaries.

Manitoba Breeders Acquire Harems
MANITOBA BREEDERS have acquired harems of the north-western United States. W. H. Hamilton of Hamilton, D. C. Langley of Victoria, B.C., W. Van Wert of Quebec, and C. J. Smith of Toronto, will be trained as agricultural specialists and will be appointed assistant secretaries.

Canada's Bicycle Team Named
VANCOUVER, B.C.—Canada's first bicycle team for the British Empire Games in New Zealand next September has been named. The team consists of W. H. Hamilton of Hamilton, D. C. Langley of Victoria, B.C., W. Van Wert of Quebec, and C. J. Smith of Toronto, will be trained as agricultural specialists and will be appointed assistant secretaries.

Baboons is Happy To Be Home Again

Before, 16-year-old Baboon, who was recently returned to his home in the Arctic after nearly two years in the United States, was happy to be home again. The baboon was captured in the Arctic by a Canadian expedition and was taken to the United States for study. It was found to be a very intelligent animal and was able to learn many things. It was now being kept in a cage in the Arctic, where it was happy to be home again.

Visitors Enjoy Sneeze Shootings
VISITORS TO the Arctic are enjoying a new form of entertainment. They are taking part in "sneeze shootings," where they are asked to sneeze into a target. The target is a small board with a hole in it, and the visitor is asked to sneeze into the hole. The target is then moved to the left or right, and the visitor is asked to sneeze again. This is done several times, and the visitor is then awarded a prize if they are successful.

Four Loren Bellings got married last week. A pretty good batcher hit the dust.

After the long time we have waited for better electric light service, the Calgary Power men are finally on the job. That seems to be their motto: Better late than never, except when sending a bill.

Blood Donor Clinic

Don't forget the Blood Donor Clinic to be held in the U.F.A. Hall, Thursday afternoon, Dec. 1st. You may sign up on the application blank at the stores and you will be notified later what time you are to come. If however, you do not sign up, come along anyway as your blood will be very welcome. The clinic is very anxious to get all the donations possible this time. They do not usually come in towns smaller than Lacombe or Stettler, but were so pleased with the response and set up at Alix last time that they wanted to come again.

Everybody turn out. Your blood may save a life.

CARD OF THANKS

Mrs. Lyle and family wish to thank Dr. Chown, Nurse Underwood and Mr. and Mrs. Bobson also Rev. Minnema for their untiring service during the long illness of Mr. Lyle.

Soldiers
turned their
backs on
the target

Science is playing an increasingly important role in Canada's new Army. In heavy anti-aircraft, for example, complex radar equipment predicts to within a few feet exactly where the target is and will be. The gunners, their backs to the target, fire with amazing accuracy by instrument.

Training men in the use of modern scientific equipment is a major requirement in Canada's new Army. Thousands of young men are attending some of the finest schools in the country, specializing in electronics, radar, radio and telephone. In addition, there are openings for clerks, drivers, mechanics and many other trades.

New higher pay, good food and quarters, trade training and the opportunity for advancement make the Canadian Army Active Force one of the most attractive careers open to young men today. You are eligible if you are 17 or over and can meet Army requirements. Visit your nearest recruiting office soon for full details. Bring certificates of birth and education with you.

Funeral Of U. G. Marryat

A large crowd attended the
funeral service of the late U. G.
Marryat in St. Patrick's Angli-
can Church on Tuesday after-
noon, a host of friends and
to pay respect to the memory
of so popular a member of the
community.

Urie Graham Marryat was
born in Red Hill, Surrey, on
Aug. 7, 1887, the youngest son
of the late Col. and Mrs. E. L.
Marryat. With his parents he
came to the district in 1906, the
family taking up residence on
at the haunted lake ranch. He
in 1911 he married Katherine
Robertson and two sons were
born to the union. Except for
his absence in the armed ser-
vices during the two wars, he
and the family have lived in
the district ever since, he and
Mrs. Marryat moving later on
to this place.

He leaves to mourn his loss
his wife, two sons, Douglas
of Leacombe, Peter of ALIX, three
daughters, Edna of Victoria, Beryl,
Lambert of Burnhamthorpe, Eng-
land, and Stella of Victoria,
and two brothers, Capt. Dennis
Marryat and Col. John Randolph
Marryat both in England.
He was married to come by
future commander of the Cana-
dian Legion D.E.M.C. Commander
P.O. Eaton, B.A. Park, J. B.
McDonald, Tallentire, J. B.
Bretherton and H. Ferguson.
Members of the Legion took
part in the service at the grave-
side.

Rev. J. A. Roberts officiated.

An Appreciation

This week ALIX mourns the
loss of a truly most beloved
child. In his passing the dis-
trict has lost not only one of its
most respected citizens, but
also one of its dearest and kind-
est friends.

Urie Graham Marryat has
been in the vanguard of all pro-
gressive movements in the dis-
trict since the early days of the
settlement, and has laid effort in
the variety of organizations, the
C. P. A., Wheat Pool, Grange
Club, Anglican Church, School
Board, Village Council, Red
Cross League, A. A. and many
others. He had a distinguish-
ing record in two wars, being
wounded in the First War, and
volunteering as a pioneer
in order to help his country,
and his war service on the
front lines of his life and
death are largely attributable.

The record of his community
service is too long to list. For
the last few years he would
fill a book, yet it is quite likely
that he would be lost to remem-
berance, the kindly word of cheer,
and especially understanding to
the troubles of others, and the
friendly interest in the life of his
part, and shown them his part,
in all which were community
projects.

It would be hard to say which
section of our community will
miss him the most, the young
children, whose warm friend
he was, the old people, who
pleased him when he helped so often
to play and with him he was
accepted so readily as "one of the
crowd," the veterans, whose com-
radeship he depended on him to
assist in the preparation of
sports days, banquets, flower
shows, etc., and in the prepara-
tion of the memorial service
which he wanted, yet those
of us who were his neighbors
both in town or country, and
know we will all willingly
help to do it in trouble.
ALIX will be remembering the
power for his loss, but grateful
for the relief for having known him.

CARE OF THAMES

We should like to extend our
sincerest thanks to all those
who have expressed their sym-
pathy to our recent move-
ment, those who have sent a
card, flowers or books for the
library, the many friends who
were so helpful during Urie's
illness, and those who visited
him in hospital in Calgary.

Hoping for something or saving for it?

Many of your fondest dreams are centered in your children.
You want them to have a good education, to develop their
special inclinations, to have a good start in life.
And so you plan . . . The things you hope for so often
depend on how well you save. Now is the time to set up a savings
plan which will help you achieve the things you want most.
Today is a good time to start a Royal Bank savings account.

Muddled Thinking On Gas Exporting

The Bill-creating which has been going on in the House of Commons every time the gasoline issue comes up for consideration has gone beyond the ordinary stage. We have no doubt that the people opposing these bills are sincere in their opinion, but they are admitting, in effect, their unwillingness to accept the inevitable verdict of the House.

Clearly, they fear that if the gasoline bill comes to a vote, they will be approved. Therefore, these opponents are afraid that if it is from Alberta and British Columbia—any such thing as that the measure are talked out every time they get on the order paper.

On certain narrow nationalistic grounds, one supposes it is possible to make out a case for insisting that the pipeline should be built entirely within Canadian territory between Alberta and the Pacific Coast. This is certainly a reasonable view, even to be made out on economic grounds, or even, to say way of thinking on the ground of the larger interests of the country. It is a reasonable view, whether the motive behind it is patriotic or not. The Bill-creating is an way to deal with important national issues.

In any event, it seems as if the measure is necessary, we regard it as one of the most important measures of the day. It is a measure which is being passed by a large majority in the House of Commons. It is a measure which is being passed by a large majority in the House of Commons. It is a measure which is being passed by a large majority in the House of Commons.

The real effect of the bill, therefore, would be to deprive Vancouver, as well as the American cities of the Pacific Northwest, of their chance to get cheap natural gas through the pipeline and other important centers of consumption on the coast, many of them will never be built at all.

You cannot expect anybody to live in the area the block is for the sole purpose of supplying natural gas to a minority of about 400,000 people. The bulk of the line would never get their money back. On the other hand, if American gas is to be secured, the line would be a sound investment.

The nervousness of outlook revealed by this obstruction is well displayed by the attitude of the Alberta, whose property in the oil wells depends on an abundance of faith and on a willingness to accept opposition from both sides.

We cannot say that this is the faith of the willingness to be displayed by the minority of about 400,000 people. It is time we laid aside our prejudice and remembered that in this province, where all other things are possible, the same is possible to us. The Calgary Herald.

MAJ ROYAL HIGHNESS PRINCESS ELIZABETH, Daithere of Edinburgh, and her one-year old son, Prince Charles.

Alix Boy Weds At Knox Church

Knox' fatted lambdage was bathed in candlelight and bright bouquets of chrysanthemums on Tuesday, December 27th, at 4:30 in the afternoon, when Miss Irene V. Young, daughter of Mr. and Mrs. A. A. Young of Edmonton became the bride of Mr. Ernest R. Andrews, son of Mrs. Andrews and the late Mr. S. C. Andrews of Alix.

Her Gerald Rogers performed the double ring ceremony. Entering the church with her father, the bride was greeted in traditional white with a spray of white and blue and a white christening gown. Her flowing veil fell from a pearl headpiece, and her jewelry was a double strand of pearls, the bridegroom's gift. She carried white chrysanthemums and red roses.

Miss Phyllis Young was sister-of-the-bride, wearing turquoise suit and carrying a basket of white chrysanthemums and white chrysanthemums.

Mr. M. D. Clarke of Riverview was best man, and J. Allan of Lacombe and Mr. G. H. Bandach acted as the groom's best men. A reception took place at the home of the bride's parents, where the table was covered with a white cloth and set with three wedding cakes and a candide. Mr. H. Stone presided at the feast in the bride's home.

For her daughter's wedding, Mrs. Young gave a silver service set to the bride, and a silver service set to the groom. The bride's mother, Mrs. Young, gave a silver service set to the bride, and a silver service set to the groom.

Mr. and Mrs. Ed. Hanson of Carleton Place were guests of Mr. and Mrs. Young. The bride was a few days from leaving the holiday season.

Miss Doris Langhedge of Edmonton spent Christmas with her parents here.

The infant son of Mr. and Mrs. Elsie, who is a patient in the Lacombe hospital suffering with pneumonia.

Mr. and Mrs. Benson spent Christmas at Carleton Place.

Mr. Clarke spent the holiday at the home of his parents, Mr. and Mrs. W. D. Clarke.

Mr. and Mrs. M. G. Greenwood of Grand Prairie were Christmas guests of Mr. and Mrs. E. H. Hovenden.

Dave Cormack of Edmonton was home for the holiday.

Mr. and Mrs. Kent and Allan of Holden spent New Year's at the home of Mr. and Mrs. Gordon Hall.

Mr. Maynard Russell had a serious accident, while working on the road, when a truck he was using exploded, throwing him about the face of the road.

Mr. J. Durkin was home for a few days.

Mr. and Mrs. W. J. Smith of Glenora visited the home of Mr. and Mrs. H. H. Hovenden as New Year's.

The Alix Hotel has changed hands. The new manager is Mr. G. P. Pascoe from Lethbridge and Calgary.

The cutting season opened here with a mixed company of 23 trucks.

M. S. Warren visited at Dalhousie, where he and his family, Mr. and Mrs. W. J. Smith, of Edmonton were holiday visitors at the home of Mr. and Mrs. L. L. Sanderson.

On their return, Mr. and Mrs. Andrews will make their home in Edmonton.

The Merchant Navy

CANADIAN OCEAN-BORN MERCHANT FLEET was well-developed long before the war, and since that time has carried many thousands of tons of food and other supplies to countries where the need for these was great.

Crest High The duty of operating a Canadian merchant ship is estimated to be difficult. Only in the United States is this figure exceeded.

Many Reasons For Regret In view of these facts it has been proposed to the Canadian government that all such ships be owned by Canadians.

The members of the F.W.U.A. and F.W.U.A. will be at home to all their members at a social evening at the U.F.A. Hall on Saturday, March 16th, commencing at 8 p.m. Those of home at the gathering will be Mr. Ed Brown and Mr. Lembitz, the F.W.U.A. and F.W.U.A. directors for this district. Both will speak and there will be a well prepared menu. Be ready to be cordially invited to attend. Refreshments will be served.

Alix Maple Leafs Win Central Title

It is then 1900 hockey fans jumped Red Deer Arvin last night to win the Central Alberta Hockey League championship by defeating the host at Gamsen 7-6.

Red Deer missed taking advantage of the break-through in the center. The winners added up a 3-1 lead in the first period. Gamsen came back early in the second session to tie the count at four goals apiece.

Replay through the second with frame Park broke the tie with a goal. It was from the yardstick to give Leafs a 5-4 advantage.

In the third frame both right- and left-handed players, Park passed the puck to the left with a goal. The Leafs won 5-4.

The Leafs' win was a surprise. They had been defeated by the host in the first round of the playoffs.

A game of five or six minutes of time was played in the third frame. The Leafs won 5-4.

Red Deer goals: Holmes (1), (2), (3), (4), (5), (6), (7), (8), (9), (10), (11), (12), (13), (14), (15), (16), (17), (18), (19), (20), (21), (22), (23), (24), (25), (26), (27), (28), (29), (30), (31), Extracts From The Village Council

The regular monthly meeting of the Council of the Village of Ailsa was held at the residence of the Secretary, W. D. Clarke, on Monday, March 6th, 1950, at 8 o'clock p.m. Present: Chairman F. A. Urquhart and D. O. Lundberg, Overseasmen C. A. Thompson and Philip Bartoli.

At this meeting, being the first meeting of the new Council, the Secretary took the chair and stated that the meeting was open for nomination for Mayor for the year 1950. It was moved by F. A. Urquhart that D. O. Lundberg be elected Mayor for the year 1950. There being no other nominations, F. A. Urquhart moved that nomination close and Mr. Lundberg was declared Mayor for 1950.

New Business: Moved by D. O. Lundberg, that Outhbert Wolfenden be appointed Assessor for the year 1950 at a remunera-

tion of \$500.00. Carried. Moved by F. A. Urquhart, that Robertsons, Anderson and Company, Red Deer, be appointed Auditors for the year 1950. Carried.

The Secretary was instructed to advertise that Dog Tax is now due and payable either to the Village Constable or the Secretary - Treasurer.

Fixing of estimates was deferred until the next regular meeting.

The Secretary was instructed to prepare a revision of the building bylaw relative to the setting of a minimum valuation on any new residence erected.

The Mayor was instructed to interview Jack Hindley re respecting the clearing of culverts and drains, etc.

The Village Council was pleased to note that Calgary Power Ltd. have placed a permanent resident service man in the village.

Correspondence: The Secretary was instructed to publish

a report of Stettler Health District dated February 11th, 1950, on the local milk supply. This report reads as follows: Stettler Health District February 11, 1950

The Secretary - Treasurer, Village of Ailsa:

Dear Sir: The following is a report of an analyses on milk and cream samples obtained from vendors in Ailsa. Date, Feb. 9; Name of Vendor, Walter's Dairy; Butterfat, (milk) 3.5%; Methylene Blue, good; Sediment, cream. Date, Feb. 9; Name of Vendor, Walter's Dairy; Butterfat, (cream) 28.0%; Methylene, good; Sediment, cream.

Yours truly,

Signed M. P. G. Kallstrom, M.D., D.P.H., Medical Officer of Health. H. Bowman, Sanitary Inspector.

Letter dated February 24th, 1950, from the Salvation Army Evenside Home, Gleboon, advising death of James Stobbs

from an heart attack on night of February 23rd, was read. (The Village Council is endeavoring to locate the whereabouts of funds he is supposed to have left for funeral expenses.)

Letter was received from Royal Alexandra Hospital, Edmonton, re Agnes Mary Zimmerman "Notice of Admission". F. A. Urquhart was appointed representative to attend Stettler Health Unit meeting to be held on March 31st, in the Court House at Stettler.

Application for closing lane toward lots (1 to 9) was further deferred until such time as the sale of lots (12 and 13) in this block has been completed.

"The Early Closing Bylaw" was given 1st, 2nd and 3rd reading and finally passed. Note: There is no change in this bylaw from the previous year.

WE ARE KEEPING OUR PROMISE

Two months ago when coal shortages forced us to reduce passenger train services, Canadian National promised that all these trains would be put back into normal service as soon as conditions justified it. Now we are keeping our word.

Full CNR Train Service Restored

As from Wednesday midnight, MARCH 8th, all trains in Canada that stopped running because of the coal shortage go back on their normal schedules.

To you, the public who gave us your understanding co-operation during this trying period, we extend our grateful thanks and say to you that the Canadian National will, as over many years, provide you with fast, reliable, up-to-date transportation.

dewick which was approved
the council last year. They
were assured that the same

tion as last year would require the required material to be supplied by the company if the residents affected did supply the labor.

Ordered by R. Holworth that Secretary be instructed to write the President of the United States, Mr. Albert C. Luther, to request him to make a statement on the understanding that the company will allow the residents to supply the labor if required. Carried.

Ordered by R. Holworth a Motion to Amend the Resolution passed at the last meeting to read: Moved by R. Holworth that the company be required to supply the labor and that reading was finally passed.

Letter from the Canadian National Institute for the Blind requesting permission to hold a camp for the blind at the health and convalescing (H.V.) camp, a day trip to be held on the 1st of May.

The Secretary, Mr. Holworth, stated that the company would not object to the C.N.I.B. but would advise the residents to apply to the company to request a permit to use the shore.

Moved by R. Holworth that the company be required to supply the labor and that reading was finally passed.

"...AND THAT'S HOW we built the school"

It's the biggest contract I ever made, and I lost no time in getting over to my bank now.

"George," I said, "I'll need some help to handle a job this size."

We went over the whole thing, discussed how much I would need. When I looked the contract he gave me a line of credit and I was able to go right ahead. Now the school's as good as built.

It is an everyday part of your local bank manager's job to provide short-term credit—so that payrolls can be met, material bought, goods produced and marketed.

This is Your Badge of Safety

Recognized by the Police when their tests start Monday, May 15

On Monday, May 15, Police will start to issue Province-wide test of the safety of cars. All cars will be tested for safety. The test will be to obtain Safety Stickers at garages or service stations recognized by the Police throughout Alberta as Official Testing Centres. With every RAPE motor vehicle officially identified, it will be a single letter for the police to check the motor vehicle against the list of the Province's highways to the constant danger of drivers and pedestrians.

When obtaining your safety sticker, ask your Official Testing Centre for one of the informational booklets available to every possessor of a vehicle, which automatically confers Alberta Membership in the Safety Council.

Geography and Progress

THE SCIENCE OF GEOGRAPHY is no longer concerned only with the physical features of a country, its climate and its resources, and its position in the world. It has now become a study of the human factors which influence the development of a country and as such it has provided a new approach to many of the problems of the world. A great many interesting facts have been brought out in connection with the effects of climate and of the features of the land upon the people and the economic life of the country. Dr. G. H. R. Taylor, professor of geography at the University of Toronto is of the opinion that geographers should devote the scientific progress of any country to the study of the human factors in the development of a country, and that the science of geography is the science of the human factors in the development of a country.

Shows Areas

For Farming
In the connection there have been some interesting facts given regarding agriculture in Canada. The great farming factor in the July temperature. There is a great difference in the July temperature in the different parts of the country. In the north the temperature is only 50 degrees in July, while in the south it is 70 degrees. This is due to the fact that the temperature in the north is lower than in the south. This is due to the fact that the temperature in the north is lower than in the south. This is due to the fact that the temperature in the north is lower than in the south.

Still Much

Arable Land
There are, however, the rich lands in the Peace River area in Alberta and British Columbia, and the potential for agriculture along the Mackenzie River valley. There is also still a large area suitable for farming in the land between the Mackenzie River and the Peace River. This is due to the fact that the temperature in the north is lower than in the south. This is due to the fact that the temperature in the north is lower than in the south. Heard Around Town

STUMP - THOMAS

A very pretty wedding was solemnized by Mrs. H. P. Morrison at the United Church manse in Lacanora on Monday July 3 at 2 p.m. when Anna-Belle, eldest daughter of Mr. and Mrs. Walter O. Thomas, became the bride of Raymond Elmer, only son of Mr. and Mrs. Elmer Stump.

The bride looked very pretty dressed in white tulle. She carried a bouquet of pink roses. Miss Shirley Thomas, sister of the bride was bridesmaid. She was dressed in powder blue organza and carried a bouquet of blue and yellow lilies.

Mr. Oliver Mattie friend of the groom was best man. Those present at the ceremony were Mr. and Mrs. Walter O. Thomas, Betty, Darlene and Walter Thomas, Mr. and Mrs. Elmer Stump and Mr. and Mrs.

Adam Kraus

The newly weds left on a honeymoon for a few days. They will reside in the Star 100 street.

The flowers were given and presented by Mrs. Mary Thomas.

Mr. and Mrs. T. Sample are

Calgary visitors this week. Several delegates from the S. W. U. attended the district convention in Ponoka recently. Among them were Mrs. E. Peterson, Mrs. C. M. Madsen, Mrs. A. Nelson and visitors were Mrs. Peterson, Mr. Mrs. A. Schorch and Mrs. T. Sample.

Mr. W. McLaren and Mr. T. Sample were delegates from the F.U.A.

Mr. and Mrs. Hulsath were in Calgary last week-end and to pick up Ralph and see the Calgary Stampede on Monday.

REGULAR MONTHLY MEET- ING VILLAGE COUNCIL

The regular monthly meeting of the Council of the Village was held in the Council Chambers on Monday, July 3, 1956 at 7:00 o'clock p.m. Present: Mayor O. Lundberg and Councillors F. A. Graham and E. Holmworth. Officers present, W. Fulk.

The minutes of the last regular meeting held on June 12, 1956 and Financial Statement dated May 31, 1956 were read. Moved by E. Holmworth that the minutes of the last regular meeting held on June 12, 1956 and Financial Statement as at May 31st, 1956 be approved as read. Carried.

Business arising out of the minutes of the last regular meeting held on June 12, 1956: Nil.

New Business

Approved building permit No. 18 to Glen Rosen, replacement of building one story, frame with stone finish 24' by 60', cement basement, roborbed roofing.

Approved building permit No. 19 to Len Johnson, replacement one story, frame with stone finish 24' by 60', cement basement, patent roofing.

Complaints were received from residents of Block 27, Phase 1, Plan 2222 regarding flooding of basements from runoff from the Akina Hill in spring and after heavy rains. Arrangements will be made to ensure proper drainage as soon as equipment is available.

Unfinished Business

Mr. W. Fulk made a report on spring cleanup of cans and garbage and stated that it progressed very well except for the case of a mislabeled can which is delinquent in having their garbage removed. Offenders please note. As soon as this is done the collector will remove the can by pickup.

Moved by F. A. Graham that the Village Council accept Mr. Fulk's figures for a monthly cleanup at \$60.00 per month. July 1st, 1956 until freeze up, covering business and private residences where spring cleanup has been completed. Moved by E. Holmworth that.

Lynnon Butley be engaged as caretaker of the Akina Hill for the balance of the 1956 season for the sum of two hundred dollars, the work to be inspected periodically by the council as to progress. Carried.

The Secretary was authorized to make the necessary arrangements with R. V. Leas, Stationer, Stettler, respecting the purchase of 10 acres for cemetery purposes from Mrs. Anna Lyth.

Correspondence was read and endorsed.

Individual Hands

IT is individual hands like these which have built this nation. Working in a system of Free Enterprise they have guided Canada to the high standard of living our citizens enjoy today.

With faith in the future men and women work more eagerly. They know their individual initiative and enterprise will produce its worthwhile reward. The thousands of well established farms throughout Alberta justify this faith. They also justify the system of Free En-

terprise which makes them possible. These farms today belong to free men and women. But they will remain so only as long as men and women treasure the right to dream, to hope and to plan; and only as long as you and your neighbors value the privilege that enables your individual enterprise to make your dreams, hopes and plans come true.

Calgary Power Ltd. with its many shareholders, has pioneered with you in building Alberta. Sharing your faith in Alberta's future, Calgary Power plans and builds for the years ahead.

During the past few weeks, since I lost part of my hand it has been impossible to give you the service and printing material that you buy the Alix - Mirror Free Press. I am very sorry for this inconvenience and I will try to make a restitution for it.

We are introducing a 15-page monthly. This will mean that you will get a paper almost twice the size of the one that you are now getting. All the news within a radius of 20 miles. The quality that we advertised to

to serve you better.

We will be offering, from July 28th to July 29th a one and only chance to procure a subscription to the Alix - Mirror Free Press for only one dollar. Back numbers, and those many, may be paid for at the rate of one dollar for each year between July 28 and 29th only. Don't miss this once special offer. We are doing this in order that we may get the necessary capital to pay for this machine. We want to serve you - buy the paper now.

Cars By Themselves Are Not Killers

The modern automobile, given reasonable time and care, is mechanically safe. But you can't always trust the man in command of the wheel.

Most of the traffic accidents take place - by a wide margin - will be due to HUMAN FAULTS - and anything going wrong with the car itself. Drivers will fail to adapt. They will pass on hills and curves they will take their eyes off the road and they will do other foolish things, forgetting that the impact of collisions at 50 miles per hour is precisely the same as driving a car off the roof of a fourteen story building.

Death is Too High a price To Pay For Carelessness

There are myriads of reasons for this steady invasion. Tourists want to see the scenery, and they find much to fill their eyes. They come to see the first of the ten Canadian provinces, to visit the blue Pacific shores of British Columbia, the rugged mountains of the Columbia River, the snow-capped peaks and giant glaciers, mountain lakes and cool green valleys. SEEDTIME HARVEST

Country Fairs and Field Days

As a combined source of information and amusement, the Country Fair has few competitors. It is not only a fair but an education, having an equal appeal to men and women, old and young. The best of crops, the most recent developments in farm equipment, new products of industry, educational displays of all kinds, tents of skill and fact, bolls and first-class entertainment, all combine to make the Country Fair a real outing for every member of the family.

The *Alberta Display*, The *Live* *Exhibit* Commission sponsoring the Department are happy to announce that their *Alberta Agricultural Display* will be an added attraction at every Country Fair throughout Western Canada, between now and the end of September.

The attractive and instructive display attempts to stimulate greater interest among the important agricultural problems of the day, namely, the national and international situation, the crop situation and the proper use of chemicals.

We extend a cordial invitation to farmers and their families to visit the "Agricultural Show on Wheels" while it is so display at Country Fairs in Western Canada.

Free *Live* *Exhibit* *Display* Day, as an agricultural education activity, provide an opportunity for farmers to see and hear explanations on new farm practices, new crop varieties, and promising

To meet the needs of those who have no opportunity to visit an Educational Fair or University, this Department, with the assistance of country grain buyers, established over 100 Field Crop Variety Plots in Western Canada. An invitation, Field Day demonstrations will be held at several of the plots some time before August. The Live *Exhibit* agent in charge will welcome your interest. Mr. and Mrs. E. Duen and family were Edmonton visitors last Sunday.

The I.O.O.F. will be starting their meetings in September. The first meeting will be on Sept. 3 at 8:00 p.m. at the Elks Club.

In last weeks issue of the Free Press we indicated that the school in the Legion Hall was closed. The school is now open and the paper has been in the hands of the school.

Paul Dwyer of Tees is now in the hospital.

After a few months, we are going to be in the hospital.

The first grain of the season to be stored in the local grain elevator arrived yesterday, August 26. The grain was Yellow Hard spring wheat. It was put up in the elevator by the elevator operator. The grain was from the farm of Mr. E. Newton who is farming the Muddy farm.

The United Church Sunday School will resume services after the summer vacation on Sept. 2, September 2nd.

Heard Around Town

John Warren has returned from the University Hospital where he underwent an operation.

Mr. and Mrs. J. Pears of Trail, B. C., were Alix visitors last Thursday.

A large group of Alix people viewed Pats Lake on Sunday, among them were the Schalks, W. Duns, Oldman's, Doolittle's, Benson's, McKinnon's, Sobe's, Neill's and L. Johnson's.

David Lundberg was operated on at the Lacanville Hospital recently.

Several Alix families took advantage of the long weekend to do some fishing near Hinton.

Mr. M. Anderson spent the week end in the country at the home of Mr. and Mrs. M. Smith.

Mr. and Mrs. Benson drove to Calgary Sunday.

DOUBLE RING CEREMONY
SCHAFFER-ANHORN

The church was decorated with Gladioli and Ferns for the double ring ceremony which was conducted by Rev. E. K. H. Koenig, at St. Peter's Lutheran Church in Seattle on Thursday, August 24 at 2 p.m., when Esther Flax Schaffer, only daughter of Mr. and Mrs. Daniel Schaffer of Alix became the bride of Albert Richard Anhorn, only son of Mr. and Mrs. O. Ahlstrom of Torrance.

The bride looked lovely in a 5-toned white satin gown, styled with full bodice and full skirt, trimmed with lace and tulle, and long train. From a head dress of steel pearls, hair train length veil of white embroidered tulle, which was carried by her sister, she carried a bouquet of pink carnations with baby's breath, and wore a single strand of pearls with matching ear rings, a gift from the groom.

The bridegroom, Mr. M. Richard Anhorn, wore a blue tuxedo, styled with full bodice with large pointed sleeves and two rows of shut. His shoulder length veil was held in place with a small brooch. He carried a bouquet of pink carnations with baby's breath, and wore a three strand of pearls, gift from the bride.

A pink lace dress was worn by the flower girl, Dore Schalks, cousin of the groom. Her altman length veil was held in place by a brooch of pink stones. She carried a small basket of white flowers, and wore a strand of pearls, which was a gift from the bride.

The groom was attended by Mr. Ivan Daniel, cousin of the bride.

During the signing of the register the couple shared a kiss.

The guests were ushered in by Miss Florence and Betty Anderson, sisters of the groom, who were met and welcomed cordially, with white scarves, and cast sugar corns.

To receive the guests Mrs. Schaffer chose a dress of raspberry tulle, complemented by a deep pink rose corsage. Mrs. Anhorn, who seated, wore a steel grey dress with a rose corsage.

A reception was held for forty guests in the banquet room of the Sheraton Hotel. Three-ounce wedding cake consumed the bride's table, which was decorated with white flowers.

The regular meeting of the Women's Institute was held at the home of Mrs. G. N. Toepfer in Torrance. The first social meeting will be held at the home of Mrs. Schalks on September 18th.

A Drive For Dollars

CALIFORNIA COUNTESS has been aware of the large quantities of British goods which have appeared on the market in this country during the past few years. One of the people here who is short of the means of the acquisition of this kind of British merchandise is Countess. She has seen the British people themselves who have been to the store of the articles which they required. The dollar shortage, which has been the cause of many post-war marketing problems between Canada and the United Kingdom, has become less acute as a result of the British export drive, which has been successful in bringing more millions of Canadian dollars to the country. The drive was organized by British exporters with the help of bringing about a more even balance of trade with Canada, and the result of this year has been more successful than the year before. However, although there have been some successes, it is not clear that the problem is not yet solved.

Countess has been very successful in her drive. She has been able to bring in a large number of British goods, and she has been able to sell them at a profit. She has been able to do this because she has been able to get a large number of British goods at a low price. She has been able to do this because she has been able to get a large number of British goods at a low price. Pretty Fall Wedding Solemnized In Mirror

A pretty fall wedding was solemnized in St. Monica's Anglican Church in Mirror on Sunday afternoon. Charles Lee, when born, daughter of Mr. and Mrs. Conkall and the late Mr. Conkall at Alix, became the bride of William Gray Stewart, son of Mrs. V. Stewart of Edmonton. Rev. Andrew Wilson officiated at the ceremony.

The bride was given in marriage by her brother, Frank Conkall. The bride looked lovely in a deep rose gown with long sleeves and carried a bouquet of red roses and white flowers.

The groom was attended by Mr. W. Henderson. The bride's bridesmaids were Misses Conkall, sister of the bride, and a Miss Conkall, sister of the groom. The bridesmaids wore light blue dresses and carried bouquets of white flowers.

The groom's groomsmen were Mr. W. Henderson and Mr. W. Henderson. The groom wore a dark suit and carried a boutonniere of red roses. The bridesmaids wore light blue dresses and carried bouquets of white flowers.

Shortage Of Engineers

A GREAT DEAL IS HEARD regarding the development of Canada's natural resources and the importance of these resources to the economic future of the country. The fact that there are few civil engineers, other than those who are employed by the government, is a fact which is of great importance to the country and should be of great concern to the public.

There are many reasons why there is a shortage of engineers in Canada. One of the main reasons is that the government has not been doing enough to encourage the development of the engineering profession. Another reason is that the government has not been doing enough to encourage the development of the engineering profession.

It is the opinion of the author that the government should be doing more to encourage the development of the engineering profession. This could be done by providing more financial support for engineering education and research. It could also be done by providing more opportunities for engineers to work on government projects.

Income Of Farmers Show Sharp Drop

OTTAWA—Canadian farmers' higher prices for wheat and other crops in the first half of 1950, compared with the first half of 1949, have been offset by a sharp drop in the price of their products, according to a report from the Department of Agriculture.

The report states that the average price received by farmers for their products in the first half of 1950 was 10 per cent lower than in the first half of 1949. This was due to a combination of factors, including a drop in the price of wheat and a drop in the price of other crops.

The report also states that the average price received by farmers for their products in the first half of 1950 was 10 per cent lower than in the first half of 1949. This was due to a combination of factors, including a drop in the price of wheat and a drop in the price of other crops.

Lloydminster Oil Field Output Rises

Oil production in the Lloydminster field, located in the northwestern part of Alberta, has risen to a new high, according to a report from the Alberta Petroleum Commission.

The report states that the average daily production of oil from the Lloydminster field in the first half of 1950 was 10 per cent higher than in the first half of 1949. This was due to a combination of factors, including a drop in the price of oil and a drop in the price of other products.

Clay Deposit Being Tested For Healing

LANCASHIRE—A BRILLIANT discovery has been made in the Lancashire area, where a deposit of clay has been found which is believed to be a cure for a number of diseases.

The discovery was made by a group of scientists who were studying the properties of the clay. They found that the clay had a number of unique properties, including the ability to absorb toxins and to kill bacteria.

The scientists believe that the clay could be used to treat a number of diseases, including cancer, heart disease, and diabetes. They are currently conducting experiments to test the effectiveness of the clay.

Common Stock Investment Opportunities

While the question of common stock investment opportunities is a complex one, there are a number of factors that can be used to evaluate the potential of a common stock investment.

One of the most important factors is the company's financial performance. This includes the company's revenue, profits, and assets. Another important factor is the company's management team.

Another important factor is the company's industry. This includes the company's market position, its competitors, and its growth potential. Finally, it is important to consider the company's dividend policy.

Mirror Man Dies In Hunting Accident

Jack Hudson, young Mirror man, was killed on Wednesday afternoon last by the accidental discharge of a shotgun on the banks of his companion, Fred Love while the pair were duck-swinging on Spruce Lake, near Mirror.

The pair were shooting from a small boat where the land machine occurred, and said Dr. W. J. Gardner, coroner, investigated and decided that no suspect was necessary. Funeral arrangements were in charge of C. E. Wells, Mirror undertaker.

brother delay thinking. The funeral has not been getting anything of a "rush" from the climate this past week as there would and will be in the field, most of it owing to the wet.

Many farmers got in some ducking on Thursday and Friday last, but the grain was not very dry on the north of having been mowed under the previous week-end.

The weather has not turned very cold as yet and we live in hope that a spell of fine weather may yet be granted.

B. Witten visited with relatives
 over the week end.

Miss Witten, a student at the V.A. hall in Regina, has been home for a few months. She takes a few days' leave and her gifts were displayed, but Miss Witten graciously refused them.

Mr. F. Penzell is visiting her
 daughter in Clive.

and Mrs. L. Deen were visiting in Ponoka on Sunday.

A number of members of the Lutheran lodge moved to Regina on Wednesday to attend the initiation of one of our young people, Ester Rasmussen.

Word has been received of the death of Mrs. H. Mann of Lethbridge, formerly of Alix. Our sympathy is extended to the family relatives.

Mr. and Mrs. Vergow, who for many operated a general store in town some ten years ago, were in town renewing acquaintances.

Another bride-elect of this week was feted at a shower on Friday evening, when Patricia McGonigal, whose marriage to Norman Smith took place on Tuesday, was guest of honor.

A lovely carriage was presented to the bride-elect, to her mother and to Mrs. Sim. A song was led by Miss Sanderson at the piano, after which Joyce Torpner sang a few selections.

Mrs. Pearl Witten presented the gifts on a beautifully decorated table with mauve and white streamers and bells, to which Miss McGonigal graciously thanked her many friends.

Lunch was served by F. Patrick, F. Wilton, D. McGonigal, F. Wilton and Mrs. Patrick Sr.

New members of the staff at the Royal Bank are Claudia Ramsey and Ethel Logbridge, both residents of Alix. They shall be employed as ledger-keepers.

The Bill Morrisone spent the week-end with W. H. Morris at Bowden.

Mrs. N. J. L. Burgess of Wetaskiwin has been visiting with Mrs. Bill Morris.

Mrs. Harold Short spent the week-end with Mrs. Contrill.

The sewing circle met at the home of Mrs. C. House on October 13, with all members present and a few visitors.

A lovely lunch was served with a birthday cake, as a surprise for one of the members.

L. Johnson was a Calgary visitor
 on his way coming home with his family.

Mrs. Wan Sharpe and daughter, Mrs. Ann, are going to Victoria for a few months to visit with Mrs. Wan's family who has been in Alix for the last six weeks.

Alix Will Enter Central League

At the meeting of the Alix athletic association on October 15, it was decided to again enter the central Alberta hockey league. A committee of C. G. Clark, Allyn Clark and F. Graham were appointed to deal with all matters pertaining to central Alberta hockey league, this committee to attend the league meeting in Lacombe.

Having collected a very substantial amount of money towards sheeting the arena, it was decided to order just about aluminum siding to do a single line job.

Letter To the Editor

The Alix Board of Trade,
 Alix, Alberta
 Dear Sirs:

Now that the members about the friendship train have had an opportunity to settle down to the routine and humdrum activities of everyday business life, we wish to express to you, and to the people of your town and board, our very great thanks for the hospitality you were so kind to extend to us.

The coffee and donuts were a great morning lift, and our appreciation too, to the ladies for their kindness.

May we express the hope that it will not be so long before we have an opportunity of getting together again.

Yours truly,
 (Signed) Don McKay,
 Executive Secretary,
 Edmonton Chamber of Commerce.

Girls Form Club

On Monday, October 23, the girls of Alix organized a Junior girls club.

Officers appointed were: President, Joyce Whitfield; Vice President, Betty Stone; Secretary and Treasurer, Doreen Carter.

Press Correspondent - Leslie Lundberg.

Leaders are Mrs. O. Lundberg and Mrs. Pugh. The name chosen for the club was "Tidy Teeners." Next meeting is on November 13.

Services at St. Patrick's Anglican Church will be at 11:30 a.m. on October 30th.

Trains travel faster than you think!

It is commonly supposed that in collisions between trains and motor vehicles at railway crossings it is the train which strikes the motor car. Reports to the Board of Transport Commissioners for Canada covering the 13-month period ended June 30th last, however, reveal that of the 443 accidents occurring in that period, nearly a quarter of them resulted from the motor vehicle - ranging from sleek sedans to modest farm trucks and even motorcycles - striking the side of the locomotive or train. Cases were reported in which the motor vehicle struck the train as far back as five cars behind the engine. One of the reasons for this apparent anomaly is the fact, well supported by scientific tests, that trains travel faster than the motorist, who can estimate within the few seconds allowed for him to deliver mine whether or not he can safely make the crossing. It is easier to give the train the benefit of the doubt.

MIRROR NEWS Mirror Man Dies Funeral Held

The Junior high school students union had their opening party last Friday. Mr. Holdrich, Mr. and Mrs. Flek, Mr. and Mrs. Peterson, Miss Monk, Miss Wolfenbarger and Mrs. Scobie attended, and all joined in the fun. The students attended a splendid co-operative.

The grade VII students were welcomed to Junior High in an opening march, and a cordial welcome was expressed by president Arthur Switzer.

Lunch was served everything put in order and the party closed at 12 o'clock.

The committee should be complimented on such good results - a party which everyone enjoyed, and had fun.

Mrs. Fraser, Mrs. Flek's mother of High River, is spending a couple of weeks at the E. A. Fish home, E. Demott of Belleville, Ont., is visiting the C.A. Demott family.

Mrs. F. E. Clarke is leaving Tuesday for Edmonton, where she and Mr. Clarke will take up their new residence.

Mrs. E. Oshling left the Minto-Canada hospital last week, and is spending a few days with her mother-in-law, Mrs. N. Oshling.

A large military funeral was held in the Grand Theatre, Mirror, on Monday of last week for Jack Hadden, who was a victim in a shooting accident on October 12.

The 23-year-old youth was killed at Canby Lake, while on a hunting trip with a friend, Bob Love. He was on discharge leave from the R. C. N.

Participants at the funeral were: Lorne McKinlay, Buck Baker, Chas. Estell, Paul Estell, Claire Ross and Bob Vreeland.

Six members of the Royal Canadian Navy were honorary pallbearers. The navy musician, Mr. Mortimer of Edmonton, was also present.

Tape was played as the casket was laid to rest in the Mirror cemetery.

Many beautiful floral tributes testified to the high respect in which Jack was held in the community.

He leaves to mourn his loss, his parents, Mr. and Mrs. William Hadden; two brothers, Bill and Douglas; and one sister, Doreen.

from the Manitoba Flood Relief Fund

WHEREAS during the disastrous Manitoba Flood in the spring
of 1950, there was witnessed a desire on the part of the citizens
of Canada and elsewhere to help in some way to relieve the distress
of the Flood victims; and

WHEREAS it was apparent that there was no agency then in
existence which could give aid in such matters as restoring losses of
furniture and personal belongings of those whose homes had been
flooded; and

WHEREAS it was apparent that without such aid many families
would suffer crippling losses and in many cases be rendered destitute
as a result of the Flood; and

WHEREAS the Manitoba Flood Relief Fund was set up, under
the honorary chairmanship of the Lieutenant-Governor of Manitoba, the
Premier of Manitoba, the Mayor of Winnipeg, the Mayor of St. Boniface
and the Manitoba General-Manager of the United States to receive
contributions from those who wished to help and

WHEREAS local funds were opened in many municipalities
throughout the country, in large part through the efforts of the
Weekly Newspapers of Canada, with the sympathetic assistance of the
Weekly Newspapers Association and the Provincial Divisions of the
Association; and

WHEREAS the proceeds of funds so collected have aided
materially to the magnificent total received for aid to the flood
victims of the Red River Valley; and such aid going out promptly has
had a great effect in maintaining the morale of the people who have
suffered so grievously;

BE IT THEREFORE RESOLVED

THAT the officers of the Manitoba Flood Relief Fund attend
to the Weekly Newspapers of Canada, through the Manitoba Weekly
Newspapers Association in Conference in Quebec City, heartfelt gratitude
and appreciation on behalf of the trustees of the Manitoba Flood
Relief Fund and of the flood victims of the Red River Valley, for
their heartwarming sympathy and their practical expression of it in
their efforts on behalf of the Fund;

AND THAT the said newspapers be asked to extend to the
officers of their territories, the appreciation of the people of the
Red River Valley, for the assistance given, through the Manitoba Flood
Relief Fund, for the rehabilitation of flood victims.

At the annual convention of
the Canadian Weekly Newspapers
Association held at the
Quebec Convention Hotel, Que-
bec City, October 22-23, a resolu-
tion of thanks to the Weekly
Newspapers of Canada, was
presented by the Manitoba
Flood Relief Fund, in recognition
of the part played by the
press in extending aid to the
rehabilitation of flood victims
of the Red River Valley.
In presenting the resolution,
at the annual banquet, attended
by some 500 Weekly Newspaper
editors from all parts of Canada,
Paul Lambert, Secretary, Mani-
toba Flood Relief Fund, thanked
the flood victims for their
generous total contributions to the
fund had reached \$175,000.
In cash and in addition, dona-
tions to kind with a total of
several hundred thousands
of dollars, had been received from
the Red Cross and other relief
bodies for distribution to flood
victims.

Mr. Lambert informed the
editors that the following ap-
propriation had been made from
the fund, to date:
Repair and replace-
ment of household
furnishings and ef-
fects, clothing, pri-
vate automobiles,
etc. \$100,000

Compensation for
lost or pocket. Re-
pairing and travelling
expenses of persons who
were forced to
evacuate 1949
homes on account
of flood. \$150,000

Aid to small busi-
nesses, married
gardeners and far-
mers to cover
losses of goods and
inventory at a re-
sult of the flood. \$100,000

Compensation to
farmers for loss of
livestock, poultry,
feed, seed, grain
and machinery lost
or damaged.
A survey is now being conducted
with a view to assisting
churches, hospitals, private
schools and semi-public in-
stitutions which do not come
within the scope of govern-
mental assistance.

As a result of the generous
response from all parts of Can-
ada, all persons who have suf-
fered losses, other than struc-
tural damage, have been or are
in the process of being com-
pensated from the Flood Fund,
and are able to resume their normal
home and business lives. Struc-
tural damage to buildings, in-
cluding taken care of by the De-
partment and Provincial Govern-
ments. These Governments,
along with the Manufacturers,
are now engaged in the con-
struction of homes to cover
against future floods, where this
is feasible.

The newspaper editors were
informed that the total cost of
aiding the flood had been less
than \$200,000, or one per cent,
which is believed to be a
record for any flood relief.
The small expenditure in raising
the fund was made possible
through all services being con-
tributed by those who took
part in raising the fund.

The statement presented to
the Canadian Weekly News-
papers Association and to the
paper appears in the adjoining

An Historic Building

THE RECENT OPENING OF Britain's new House of Commons was an event of interest not only to that country, but also to people throughout the Commonwealth and the Dominion. Built to replace the old Commons chamber which was destroyed by German bombs in 1941, the new building stands upon the same site and mostly follows the design of the original structure. When plans for the new building were being discussed, various designs were suggested, and it was also proposed that another site be chosen. But there was an overwhelming opinion in favor of retaining the original rectangular chamber with two rows of benches on either side, which was the seat of British parliamentary debate for so many years.

The new building is constructed mainly from British stone and with walls to design in accordance with the Commonwealth and the Dominion. Built to replace the old Commons chamber which was destroyed by German bombs in 1941, the new building stands upon the same site and mostly follows the design of the original structure. When plans for the new building were being discussed, various designs were suggested, and it was also proposed that another site be chosen. But there was an overwhelming opinion in favor of retaining the original rectangular chamber with two rows of benches on either side, which was the seat of British parliamentary debate for so many years.

Arch Is Handed For Churchill

It is apparent that there are many who are anxious that this tradition be retained. "We shape our buildings and then shape our lives," Churchill said. When speaking in favor of making the new Commons as much as possible like the old one which the Germans destroyed. The importance of the new building comes from the fact that it has been named the Churchill Chamber, in honor of that great statesman and wartime premier. It is a symbol of recovery from the destruction of war, and the people of the Commonwealth and the Dominion share with the people of Britain pride and satisfaction in seeing it rising.

BLANDISH ADDED
KIDNAPERS, B.C.—The British Columbia government has added a new member to its cabinet. The new member is a former member of the House of Commons and has been named the Churchill Chamber, in honor of that great statesman and wartime premier. It is a symbol of recovery from the destruction of war, and the people of the Commonwealth and the Dominion share with the people of Britain pride and satisfaction in seeing it rising.

will be 20 risks participating. Up to the limit of publication. The name of the winner will be taken from the ballot and it is hoped that they will be available for next winter page.

Miss Ann Pugh has been ill for the past week and has been confined to bed at home.

Miss Oliver Morris will be leaving a rest on the leg from last Christmas due to an accident, which broke his leg and dislocated the bones in the other leg.

The next monthly meeting of the knitting club will be held at the home of Mrs. M. J. Thomas to-night.

The first business place in town to put up their Christmas decorations was the Economy

Store. The decorations were made by the ladies of the knitting club at Lacombe's new store. This was held last Monday, December 8th.

Miss Annie Lyle had as visitors her sister and brother-in-law, Mr. and Mrs. Donald Vinograd, of Port St. John, N.C. While here they motored to the big river and visited the homes of their friends there.

L. E. Sharpe and Peter Annabelle were business visitors to Calgary this week.

Jack Lynhove was a business visitor to Edmonton on Saturday of this week.

Mrs. C. Thayer is now at the West Hotel.

There has still been no trace of either the thieves at the mercantile that was stolen from

the Alberta Lumber Co. since

the theft. Mrs. Lawrence Sharpe was detained at an upper supper held at her residence on Saturday

evening. The police officers of the town were present and seemed to enjoy themselves.

Crisp Manufacturing is now living in the residence formerly occupied by Mrs. Andrews while Mrs. Andrews is at the West Coast.

Mr. and Mrs. E. Dene spent in town to-day for a short week trip to Calgary.

ways has. Excessively attractive ash trays can be made from simple materials to match or complement

picked up at a laboratory equipment firm. These may be left in their natural clay color, or finished in rich enamels. Two colors of enamel will give an excellent surface that can be washed any number of times. The finish is also a handy get for it can be used to extinguish the flames.

An ordinary cup has come in for a new use this year. Enamelled to match or complement the ash tray, a nonsmoking pad may be attached to the inside of the cup, and the whole thing makes an extremely worthwhile gift.

If you are handy at woodwork, ing, measure racks for the living room or bedroom will be much appreciated, especially if they're finished in colors that will match the decorating scheme. Even simpler in construction, a nice shelf for the kitchen. You might start this by first purchasing a series of square bottles or jars, and then building the shelf to fit them. The shelf may then be painted in any color to match the color.

The time has not yet come when we can be completed at level 7. This disease is still the greatest killer of people in Canada. It is one of 13 and 15. Nearly 100,000 Canadian died of T. B. last year. They Christmas cards and help stamp out T.B.

Save a Life!

While you plan a better holiday for yourself, don't forget the injured. Their needs must still be tended. With these words the Red Cross appeal to the citizens of Alberta and district to support the Red Cross drive to hold here in the U. P. Hall next Friday.

Alta has been chosen as part of a plan to maintain a constant life service to injured patients during the holiday season. During the past three years the Allied Transfusion Service has been negotiating, these have been many emergency transfusions administered on Christmas Day as on any other, for sickness and accident never take a holiday. The doors of the service are open 24 hours a day, the staffs of technicians, nurses and transport drivers are constantly on duty, but the money to pay the bills of the sick and the injured depends on the citizens of Alberta and other centers where special clinics have been organized to provide the necessary money.

The small donation of blood is added to give a little more compared to the amount one receives in the knowledge that they are supporting a service that at any time may save a life and comfort a friend or a friend. But whether one saves himself or not, the true spirit of Christmas is in knowing that one has given indeed the greatest gift of all... life itself to some man, woman or child.

And what have we done? YOU choose to give your blood that at a time when we're breaking the bill of one who may be blood for others. May the true spirit of Christmas... good will to all, be with you... plan now to attend the blood drive clinic next week.

Support demands for lower Lacombe fees. Discussion on the recent call of Social Credit members in Edmonton has given rise to a few suggestions that the reduction in motor license plate fees will take the form of 10 and 15. The subject was thoroughly discussed, while various suggestions were made. Some suggested a reduction of an amount of \$5 per year, while others suggested that the rate should be made even larger, under the assumption that holding licenses would be a burden in November when the license fees are paid.

However, it was pointed out that there was a strong feeling on the part of the citizens that a reduction in license fees was not a burden in November when the license fees are paid.

There was a suggestion that the reduction should be made on the basis of a gallon

of motor tax. It is believed that the lowering of costs will help to reduce the burden on the citizen, thus give direct relief to Alberta's struggling residents.

The average loss of a case of T.B. including loss of wages, the clinic service and hospital care, when a male wage earner is engaged, is approximately \$5,400 and for a woman wage earner, \$4,800. This is a heavy burden on the citizen. Christmas will help stamp out the disease. Did you help for years?

Unconcerned About War Taxes

Around Hoppelshorn, Germany, they call him "Adolf, the Captain." His name is Adolf Ehrlich, a graduate of the German naval academy at Kiel. With the aid of Adolf Hitler, he is now the head of the German navy. Ehrlich declared that the world was "too depraved and too stupid" for Hoppelshorn, where he dug himself two miles underground and hid from the world. He has a wife and a 15-year-old daughter. They live on vegetables, roots and some fruit and some of the fish he has dug out for use on the surface of a desert. He says that if everyone was like him there would be no more killing and no more wars. He says he had used him in the war as an accomplice in a holdover. Now he prints an account of his life in a book, "The Secret of the World," which is on a home-owned grounds in front of his cave.

A John Deer Day message

MARCH 16, 1932.

Dear Friends:

John Deer Day will soon be here again; in fact, next Friday, Mar. 16. This is the day we look forward to having all our farmer friends here to be our guests and spend the day with us. There just isn't time to call on each of you personally. We have endeavored to mail invitations to each one of you, but if you did not receive one, or have not been invited by any of our personnel, please consider this your personal invitation to attend. The picture show will start at 1.30 p.m. at the Legion Hall.

The feature picture, "One Happy Family" starring Marjorie Reynolds and Don DeFore, is a top notch production - one which we are sure you will enjoy. We will also have several interesting and educational features on modern equipment and farming practices.

Don't forget the time - Friday, March 16. Come early! Bring the whole family and spend the whole day with us.

Sincerely, your John Deer Dealer,
Ed Jennings

Proper Care Of Dairy Heifers Important

Every dairyman realizes the importance of rearing dairy calves well, but too few take time to study the principles governing them later on as heifers. In a great many cases, well started calves are lost to the dairy because of a summer or winter, just to make room for their younger sisters in the stable. More care in feeding and management of the young females at this particular stage will help to bring out the best in the individual and enable her to become a worthwhile addition to the milking herd after calving.

Good pasture serves the feeding program in part, but it often requires a supplement such as a crimped oats or even some good quality mixed hay to grow and condition heifers from six months to one year. As yearlings, pasture is adequate feed if it is plentiful, and water, salt and shade are provided with it. Starch pastures make excellent gains on good quality hay, but when it is not available, water and salt are provided. In winter too, heifers may be turned loose on a rough shed and grown with little or no feed, but when they are put to work, they will be in poor condition. These should be kept sheltered from the wind and wet and plenty of manger space should be available for the rough feed which can be in front of the heifers at all times.

An increase in consumption of feed as they grow and develop big deep-bodied heifers. Third heifers do not require any supplementary feed if they have plenty of good rough or pasture to eat. Occasionally a conditioning ration such as three parts crimped oats, 1 part bran and 1 part alfalfa may be fed to bring thinner heifers into

Alfalfa Good Supplementary Feed For Sheep

Alfalfa hay is excellent feed for sheep feeding may be taken from the standard and other forages are compared. It is rich in protein of good quality, has a low content of cellulose, an ample supply of vitamins, and is highly palatable. But despite the excellence of alfalfa it has one great fault - it cannot be grown in the main sheep raising areas of the prairie except where there is irrigation. This makes it an expensive feed when it has to be purchased.

Recent research by the Experimental Farms Service, the University of Alberta and the University of Saskatchewan in the feeding of pregnant ewes has shown that ordinary grass hay supplemented with a pound of alfalfa yields per head per day or sale at the rate of a half pound to half-pregnancy and then 1 pound per head per day until lambing is equal or better than feeding hay only in less expensive.

This shows the way for farm dairies where ewes are fed in pens most of the winter. But on the range, sheep are grazed out of the winter and fed only when grazing is impossible or during severe weather. In Montana range, ewes feed a concentrate during pregnancy produced more lambs and wool than those not so fed. Birth weights and weaning weights were the same for both groups but the ewes lambs more than paid for the cost of the concentrate.

It seems probable that if ewes are in good condition during the winter, feeding of alfalfa will not have any noticeable effect but if ewes are thin, feeding supplements like the flaked alfalfa or grain will improve the condition and number of lambs weaned.

Further experiments work in the supplemental feeding of ewes are necessary to show whether it is a practical

Poultry And Disease

In view of the threat to the poultry industry in Canada by Newcastle Disease, Dr. T. Childs, Veterinary Officer General in the Canada Department of Agriculture's Health of Animals Division, has outlined certain precautionary measures to control the disease. These recommendations will assist not only in preventing the introduction of the disease into clean poultry flocks, but will also serve to prevent the recurrence in poultry flocks from residual infection which may remain among recovered birds. Particularly where the disease has been present in a flock, it will not be recognized and consequently not reported, the following precautions are recommended:

- (1) Sell all layers for slaughter at the end of the first laying year. Keep young replacement stock segregated until all layers are removed, and permanently segregated from older birds, and young brooding males.
- (2) Eggs from flocks which have recently shown a drop in production of eggs should not be used for hatching until at least a month after the flock returns to normal production.
- (3) Infection of low virulence showing very little or no viral symptoms may have caused the drop in production. A poultry raiser should make certain the hatchery from which he obtains his chicks follows that requirement.
- (4) If their hay or pasture is poor. Full frubbing heifers with two months on good after feed.
- (5) Feed sacks or articles of equipment which have been in other poultry establishments or have been in contact with poultry should be thoroughly cleaned and disinfected by heat or chemical means.
- (6) Do not allow visitors to visit poultry house or yards. This is very important.
- (7) Do not permit laborers, blood testers, flock inspectors, vaccinators or any other person whose work takes him into poultry houses to enter your poultry premises unless his footwear and outer clothing has been properly cleaned and disinfected before he enters a poultry establishment of any category, unless it is certain the last such outer clothing is free of infection. Rubber footwear and outer clothing of rubber or other light, easily washed material which may readily be cleaned and disinfected by immersion in water containing a suitable disinfectant, such as Saponated Cresol, 4 fluid ounces per gallon of water, is recommended.
- (8) Poultry houses and hatcheries must should place a notice prohibiting the entry of visitors to poultry premises.
- (9) The veterinarian or official sanitary law and the color recommended is red. It is also advisable to keep outer gate or poultry premises locked.
- (10) When sickness or other abnormal condition is noticed in the nearest Health of Animals Division veterinarian, he should be notified without delay in order that proper procedure may be followed in establishing the cause of the trouble and limiting the spread of the disease. Patrons on the part of owners to follow this procedure permits Newcastle Disease to spread and very seriously hampers the efforts of

the Health of Animals Division to control and eradicate this virulent and very pestiferous disease.

(11) Sick or dead birds should not be permitted to be any purpose unless such premises are properly equipped and staffed for the purpose of diagnosis with an there will be very little risk of spreading infection.

(12) Observation of these procedures can be expected to control and prevent the spread of this disease.

(13) It is particularly important in areas where the poultry population is dense that such disease in flocks should be promptly reported to the nearest Health of Animals Division veterinarian. Meanwhile, exclude all visitors. Do not permit any poultry, poultry products or articles which have been in contact with the sick poultry to leave the premises and make certain you do not visit other poultry premises wearing clothing, including

Regular Meeting Of F. W. U. A. Held Saturday

The monthly meeting of the Alix F. W. U. A. was held on the hall on the afternoon of Saturday 2nd.

After a considerable discussion the following motion was passed, "that at this time, the members of the F. W. U. A. wish to express our deep appreciation of the many years of splendid service which Mrs. R. B. Olson has given to our organization also we wish to reaffirm our belief in their sincerity of their purpose in their recent action in resigning from the F. W. U. A. Board."

Other highlights were:

Baby Sandra Walker Passes

On Feb. 23, baby Sandra Walker passed away at the age of three and a half months. She is survived by her loving parents Mr. and Mrs. Clayton Walker, her grandparents, Mr. and Mrs. R. H. McKay of Prince Albert and Mr. and Mrs. A. C. Walker of Edmonton. Services were held in her home and interment took place in the Alix Cemetery.

Mr. C. Clark gave a brief but very interesting review of Dr. Herman Himmans, brilliant mental health.

Mrs. Dan Aitken was welcomed as new member.

British Livestock For Sale

A consignment of British Livestock was recently landed aboard the "Good Hope" cattle at the Victoria and Albert Docks, London, for shipment.

Local Business Closes Hands Last Week

It will be noted that a change of business has taken place in Alix last week. Sharp Service has been sold to Mr. Clarence Knatt of Haultail. The new business is to go under the name of Knatt Sales and Service.

As of April 1st, there will be a qualified truck and tractor mechanic to meet the requirements of the local area.

Mr. Sharp will be a resident of Alix district and be in business as the local Imperial Oil agent.

The regular meeting of the Women's Institute will be held at the home of Mrs. Warren on March 14.

Extend Invitation

As a special feature of Station Work, we are holding open house at the Alix school on Friday Mar. 9. You are cordially invited to come and talk with us or inspect the school.

What person was seen trying to get into which looked out with what ever because he had lost his key and found when he broke it open that the opening was locked anyway?

A principle was seen trying to open a new window with one of those rubber plungers they use for cleaning dishes out.

By Gordon Lindsay Smith

Since the war hundreds of thousands of new homes have been built in Canada and the great majority of them, with the building boom of the post-war years in the United States, are in the country. While they are average in size, smaller and lower than those of the "twenties," there is, far more reason about it. With a little planning, the general average of these houses can be turned into most attractive abodes.

It will not be necessary to spend hundreds of dollars on landscaping or even to put in long hours of back-breaking toil. But it is essential to follow a few

simple rules. Authorities generally advise an informal layout. In plain language, this means a generous allowance for a central lawn, and round this are arranged clumps of shrubbery, trees and flowers. The beginner is warned to steer clear of stiff rows for flowers, though a long double flower bed, facing the house, will have to follow more or less regularly, but allowing in clumps of the least perfect, even to the tiny edging flowers, the fruit of the garden. The same holds true of the median and larger flower beds, both across and parallel to the house.

Or come with trees, unless we have an exceedingly large lot we must stick to individual planting. Here, just to prevent any monotony, however, it is an excellent idea to have an odd tree or group of shrubbery right out on the lawn, but so that the outline is in the main. Flower beds are broken up in the same way, with an occasional clump of larger plants brought deliberately forward just to add interest and screen a lot of the background.

STREETS

None of the above emphasis on informality holds good when we turn to the vegetable and the business. Here precision counts and arranged in perfectly straight rows at least 12 inches apart for the small kinds, and up to 3 feet for the ones, tomatoes and potatoes, and only do we have space but vital and regular cultivation to the water. In the straight rowed vegetable garden, and the group these flowers, which are to be used largely for cutting purposes for bouquets. Some of these, like gladioli and sweet peas, are not noted for their foliage anyway and they will do better where they receive the regular attention that is given to the vegetables.

FOR ORNAMENT

There is any secret about getting quality in vegetables it is soon absorbed. The main thing is to grow these things quickly, especially the ones of which the leaves or roots are eaten. If the main reason growth is checked, especially in the later stages, then more they develop and the vegetables become woody. To grow quickly, the vegetable gardener pushes his vegetables with lots of cultivation, watering when necessary and feasible, and using fertilizer either natural or chemical, or both. He will also see this property so that the plants have room and will be protected from insects or diseases.

Save On Seed Treatment

Save dollars by treating your seed this spring, advises V. J. Ross, Supervisor of Crop Protection, Alberta Department of Agriculture. Treatment with a recommended fungicide costs only five cents a ton. It protects the seed and young seedlings from seed-borne fungi that cause damping-off and seedling blight. It also increases the seedling's resistance to insect attack and promotes better root and shoot growth. There are now several good fungicides available. Consult Mr. Ross and your dealer for recommendations for treating seed and seedling blight of wheat.

No Serious Fertilizer Shortage

Canada used 70,000 tons of fertilizer in 1930 and it is estimated the 1931 requirement will be about the same, reports G. W. Aldrich, Assistant Director of the Fertilizers Division, Department of Agriculture at Ottawa. Except for phosphates which are in short supply but for which the means have already been found to increase production of fertilizer in 1931.

NITROGEN

Canada imports large tonnages of nitrogen but also imports about 17,000 tons of nitrogen solutions. The shortage of nitrogen is being solved by solution deliveries.

PHOSPHATES

Superphosphate is in a tight position due to the shortage of sulphuric acid. Superphosphate manufacturers may not be able to honour their contracts in full at this material may be in short supply.

POTASH

It is imported from the United States and Canada. Potash is not plentiful but there is no serious shortage. The shortage of potash has been met by the use of potash and best bottom is being used for fertilizers. The Prairie Provinces which supply one-third of Canadian potash exports are in a tight position. The 11,000 Canadian plants cannot supply any large tonnage increase as supplies are limited.

Ink Stain Removal

If you've been using old-fashioned "blotting" papers for removing ink stains, it's time you got to thinking. These new blotting papers are made of ink, and contain salt and vinegar were used in dealing with such spots. But today's blotting paper is different treatment.

Just quickly, a plain-surface paper will suffice for the "best" ink. It will get out the stain. The next step depends on whether it was "washable" or "permanent" ink. If you don't know which kind made the spot, deal with the remedy for washable ink and get your blotting paper in a moment. You will find out that it is effective.

The treatment for washable ink is relatively simple. Because most ink is actually very "washable." After the plain-surface paper, a reasonable amount of patience and persistence will take care of it. The next step is to wash which is fairly washable. It is a little more difficult to remove. If the fabric is not washable, use one of the synthetic detergents.

Permanent ink ("blue-black" or "black") is almost always permanent. It is a little more difficult to remove. As it dries, the ink stains are too compound that is difficult to color and insoluble in water. For this reason it is especially important to be quick in your attack. Follow the same plan. Give the stain a chance to "set" in the fabric. Then apply white and common paint. Apply a thin coat of 50 and stain thoroughly again. It is a little more difficult to remove. Follow the procedure for washable ink which will be completely removed.

What I Saw!

By The Haring Reporter

I was rounding the corner when I saw five or six people hurrying and almost leave the hall where the Attentive Show was taking place. I wondered if it was that bad or if their horses were just on fire?

Some business men, five in number, were seen passing along the usual spring goods while standing on Len Johnson's steps. What it was business when spring is over and grown men's fancies turn from running water to business again?

A sure sign of spring was never seen than Pop Wagner playing in the paddles on main street.

Who is it that just got on from another trip, and doesn't want visitors to know she has him away, because she thinks her neighbor is a home?

A lot of little boys were seen trying to be helpful to Norman Simpson as they could ride around in his truck.

Mrs. Hardy Lagore chased all over town trying to find a growing card she had misplaced. Try the post hall!

Attend Funeral Of Nephew At Bentley

Mrs. O. O. Lundberg attended the funeral service of her nephew, Larry (Linton) Bentley last week. The young lad lost his life due to suffocation while playing in a snow bank. Mr. and Mrs. Bryant and two other boys were playing on a snow bank near Bentley. He slid down the bank, catching a snow ball, which buried him under the snow. By the time rescuers reached him, he had suffocated.

Farmers Warned To Treat Seed

Provincial Department of Agriculture are warning the seed growers to take the most serious precautions that they can make sure of seed quality and also make sure of their cleaning and fumigation. The seed supply situation of 1931 may be unusual for the coming crop season of 1932. This year some seeds may find it difficult to get enough good seed.

In Canada the most serious of the seed-borne diseases for many years have been the smut of wheat, oats and barley. These are all familiar with these diseases that defined themselves in one way or another. Many know to their sorrow that a crop which grows "smutty" represents a serious loss.

What is the best form of treatment to avoid these possible losses? The method most recommended by research scientists is the use of mercury. Well established commercial forms of it are available in pure and easy to apply.

Invest In A Paint Job

Every farmer has in investment of several thousand dollars in his house, buildings and machinery. Few will consider the wisdom of protecting this investment by insurance, lighting or so. Yet, protection against damage by rust, the same kind and manner is often overlooked.

Brickwork of this one has been in use for many years in Canada. The roads and rolling landscape of the west have been built with and built stronger and more durable with the use of paint.

It is impossible to buy insurance against the daily ravages of weather, but the investment can still be protected — with a few cans of paint.

According to experiments made by government agricultural authorities, the average life of a grain drill is 14 years — if it is looked properly when not in use and kept well painted. If the original paint job is allowed to deteriorate and the drill kept outdoors, its life expectancy is reduced to 8 1/2 years. A good farm wagon will last 22 years if properly cared for but will be ready for the junk heap in eight years if left unprotected when not in use. Service period of a hay rack can be extended to 10 years if it is painted.

Alberta Farmers Warned of
Rats Threat on Eastern Border

Let's keep the rats out of Alberta says W. L. Laidlaw, secretary of the Alberta Department of Agriculture. That's the message of a letter to the farmers of Alberta from the department. The letter says that the rats are a threat to the province and that the farmers must be on guard. The rats are a threat to the province and that the farmers must be on guard. The rats are a threat to the province and that the farmers must be on guard.

Yet twenty dollars a year is the estimate of the damage done by each and every rat where there are not control to remove single. One pair of rats may increase in city by the end of the year. At this rate of increase, damage and financial loss can amount quickly to the United States, rats damage 200,000,000 bushels of grain each year. The last annual rat bill on that country is reported to be over two billion dollars.

We want to express our sincere thanks and appreciation to the Alix Free Press for the kind and helpful service they have rendered during the past year. The Alix Free Press has been a great help to us in many ways.

Keep your poultry free from lice and mites, urges B. J. Theisen, Acting Poultry Commissioner of the Alaska Department of Agriculture. These parasites not only use the blood of the birds, which must be replaced, but they also damage the entire flock.

Los spend all their time right on the birds and can easily be found by separating the feathers and looking at the skin. Lice may be killed by painting the roots with nicotine sulphate or any good roach paint just before the birds go to roost at night. By repeating this method in ten days time you will kill the lice.

'Smattering Of Knowledge'

CLARENCE KARTIN

While listening to the radio the other night, I heard a startling announcement made by professor Hottel, former president of the University of Chicago, and one of our foremost authorities on education.

According to Professor Hottel, our "progressive system of education" has failed. Failed, because it has provided schools that are "playgrounds" where the child has been given a "smattering of knowledge" from a wide variety of subjects, but little of what is of value to him. As a result our children are unable to read, read or spell properly when they leave school.

Part of the defect lies with our educators. They have provided a curriculum which gives English five periods a week on a equal par with French or Algebra. Surely it is more important to be able to read or spell than it is to know what X or Y equals.

Part of the defect lies with ourselves, in that we are not too interested in what our child learns at school, providing he gets through school as quickly as possible or receives his high school diploma.

Recent changes in the Alberta system of studies have provided some varied changes but have not done very much to go in providing our children with a good education which they can use in the years to come.

Herbicides Tested At Dominion Experimental Farm, Brandon

Herbicides have been tested at most recent international fair at the Dominion Experimental Farm, Brandon, for over twenty years. From some of the most selective properties and most used for several years such as Alende and Durex, which are used to control weeds that killed many species of crops without damaging the grain. In recent years, there has been a considerable group of phenoxy herbicides, such as 2,4-D, 2,4,5-T and 2,4,6-T, which are used to control weeds in their own right. Accompanying them are the so-called "knockdown" herbicides, such as 2,4-D, 2,4,5-T and 2,4,6-T, which are used to control weeds in their own right. Competition In Business

The business world of today is more becoming more competitive. While this competition tends to bring the public better and more efficient service, it also is forcing all of business and enterprise closely into submission. Time making way for the better business to triumph.

We quite realize that larger firms must have a greater turnover and expand to survive in this day and age. This we have no objection to.

Last week we were shown an example as in these larger firms operate. A certain firm from a larger area was in the community jobbing.

This is it's self did not realize as however we were more than interested knowing that this firm was not doing a proper job of covering their home territory. They not only are letting their home territory suffer in an effort to expand, do in the volume of work they are obtaining and the expense of their work tends to be an inferior to the high cost of the work as analyzed them to expand.

The only way that we can see a survival for smaller business is to move in and seek the home territory of such a firm.

Keep The Rural Area Clean

Several communities in Alberta are sponsoring a clean up campaign this week. The Editor of this paper feels the necessity of pointing out that all of the work and the effort will be in vain unless the rural areas are as clean as the cities.

Many of the rural areas in this area have been completely neglected by the municipalities and the population of the rural areas in the disposal of their refuse. The village of Alix supplies proper grounds for the disposal of refuse and we feel it is the duty of the citizens to use the use of the village rather than dispose of their refuse elsewhere.

We think this is one of the best ways of Alix. It is an effort to clean up the village work the rural areas to dispose of their refuse in the green house and house. This beauty is one of the best ways of Alix. It is an effort to clean up the village work the rural areas to dispose of their refuse in the green house and house. This beauty is one of the best ways of Alix.

Every person within this area should have enough pride and decency to maintain an unspoiled landscape. Not only does this practice detract from the rural area's beauty but it is also punishable by law.

Point For Planting a Lawn

Difference between a beautiful green stretch of healthy grass and a patchy, sand-dotted lawn is the knowledge the owner had when he started to make the lawn. All over Canada, thousands of new lawns are in the making, most of them still in the planning stage. That stage—planning—is the place to make the best use of knowledge. Here are a few points suggested by J. H. Boyes of the Department of Agriculture at Ottawa:

1. Drainage—Good surface and underdrainage are essential to the establishment of good turf.
2. Soil—A medium or sandy soil, relatively high in organic matter is desirable. If good soil exists on the lot scrape it off and stock pile it before excavation.
3. Seeding—Good surface and underdrainage are essential to the establishment of good turf.
4. Organic Matter—May be added in the form of manure or peat to improve the structure of both light and heavy soils.
5. Liming—Do not apply lime unless a soil test shows it is necessary.
6. Fertilization—The application of fertilizer prior to seeding is desirable on all soils and is essential on soils of low fertility. Apply uniformly and work it into the soil during the course of seed-bed preparation.
7. Seed-bed—Prepare a firm seed-bed, finely pulverized at the surface by alternately rolling and raking.
8. Time of Seeding—Seeding should be done as early as possible in the spring or during late August and early September.
9. Seed mixture—Select a mixture containing species which adapted to the location.
10. Seeding—Broadcast seed uniformly.
11. Covering—Cover seed by lightly raking or by applying a thin layer of screened peat or peat covering by rolling.
12. Watering—Keep the seed-bed moist and uniform until the seedling grass becomes well established. Avoid washing the seed from the soil.

More complete details regarding the establishment of turf are contained in the circular "The Construction and Care of Lawns" which may be secured from the Division of Forests, Planting, Central Experimental Farm, Ottawa, or from Information Service, Canada Department of Agriculture, Science Service Building, Ottawa.

HEY !!! Its Haying Time Again

Its easy to do a clean job of cutting with flexible
JOHN DEERE No. 5 MOWER

Its front roller is cut on a heavy-duty bar ... the rear roller on a rubber-tired roller wheel. You move follows the "lay of the land" ... presents cutting in a long the ground and more clean in the toughest mowing conditions. With most of the weight of the mower carried on the roller wheel, your tractor stays steady and you can make sharper turns for easier work.

The John Deere No. 5 is distinguished against leakage and excessive wear. Tough cutting parts also clutch on cutter bar ... simple adjustment to take up cutter bar lag—light easy lift to clear obstructions ... and safety spring release are other features that John Deere owners prize in the No. 5 Mower.

OIL MAKES A COUNTRY STRONG

THE ROUGHNECKS ARE MOVING ON!

In the language of the oil fields, "roughnecks" are the men of the drilling crew who probe deep in the earth for oil. You'll find them in any oil field doing the hard tedious work that goes into the drilling of every well.

But roughnecks like best when the going is toughest and most exciting—when they there on in search of oil where it has never been found. In Alberta the odds are against them, only one out of two will be so likely to be successful.

Fighting against these odds, roughnecks' drills have tapped more than a billion barrels of new oil in Alberta since 1907, bringing new prosperity and new security to all Canada. In fact Canadians now produce more in every three months they now have in all the oil fields of the foreign countries for the other two. To be self-sufficient we must have three times our present reserves.

The roughnecks keep moving on in the unending search for oil. As they succeed they benefit and strengthen the entire nation.

What's The Use?

The past few weeks most papers and periodicals have been carrying warnings to motorists of the increased danger in driving, now that school is out. We have carried such articles in this paper and local headlines have devoted advertising space to this topic.

All this seems to be of no avail. Most say that the day, any day of the week, one can look on any street of the village and see the same scene. A number of young children playing along the road, ready to be run over on the right-of-way, and a car driving slowly along the same road at a speed not exceeding fifty miles per hour and not under thirty.

As a matter of fact there are all types of traffic violations being committed every day in this village from a small violation to a major offence.

This has got to stop. How to stop this mad driving is a big problem. For the town to prosecute these violators is quite an order and due to the fact that there is no, or if in this town involves a large expense. If the local constable prosecutes, he is accused of being high handed and of throwing his weight around. Putting in the village policeman every day and it is up to each individual to see that our traffic laws are kept.

As of the year 1961 Alix has been lucky not to have any injuries or deaths from traffic accidents. Let us hope that this will be our good fortune throughout the year. You can help. —DORIS RAFFERTY.

Insecticides Best Moth Protection

Good housekeeping and insecticides are the best protection against moths from clothes moths and carpet beetles.

Each season insects attack wool, silk, fur, and other animal origin, but it is important to remember that moths do not appear until the weather is warm and insects are active.

Good housekeeping practices, such as the use of a vacuum cleaner, on fresh, including insecticides, such as DDT, or any of the many other types of insecticides, or by means of a pest bait, will provide protection against moths.

Materials and upholstery fabrics are not immune from insect attack. In fact, they are very susceptible to attack by moths and carpet beetles.

Urges For Conservation of Hay Crops

While the most of our hay crop, about 250,000 tons, is being harvested, the Alberta Department of Agriculture is urging farmers to conserve their hay crops.

Conservation of hay crops is important, especially in the case of hay in Alberta, this year will be the best we have had for some time. There may be some hay left over, but it is important to conserve it.

FOR THE BRICK AND LUMBER

May your home be strong of beam
Firm in wall and rafter
Built with timber of a dream
Guided well with laughter
May it have a winding stair
With a lovely landing
Windows to let in the air
And light of understanding
Path to roof your house from storm
And every change of weather
And love upon the hearth to warm
All your years together.

Requeening

Pays Says Apiarist
To save labor and increase your honey crop now in the time, request your local beekeepers, at your V. Brown, of the Apiculture Bureau, Central Experimental Farm, Ottawa.

Requeening at the early part of the honeyflow, beekeepers provide a greater percentage of acceptance of the queens introduced than saving labor and providing better results.

High calling of derelict bees will pay good dividends in increased yields and save considerable labor from the colony management standpoint. Requeening queens from the beekeeper's own selected stock during the honeyflow, or purchasing queens from a reliable supplier over a few means of getting the desired stock.

Queens released and those with those laying queens are easily recognized and generally draw immediate attention by the beekeeper.

That old, or failing queen is not readily discernible unless the beekeeper follows some method of marking the queen or keeping a record of her brood production to indicate her age and egg-laying capacity.

Requeening regularly on an annual or biennial basis is considered good beekeeping practice.

Operation of Safety Patrols

Safety patrols operated by branches of the Alberta Motor Association are in operation for the current season. They will provide emergency aid to motorists and so check their operations will be welcomed as in past years.

These patrols carry emergency kits and are prepared to aid motorists. Each team they provide service in hundreds of instances, helping the motorists on his way through information and help in instances of dire need.

Last year, one branch of the A.M.A. aided motorists in 500 instances. The list included a number of serious accidents.

The co-operation of motorists also is sought in aiding the patrols to carry on their work satisfactorily and efficiently.

Many motorists also would do well to indicate their interest in the A.M.A. Safety Unit, which has an objective of 10,000 members.

If a member of the organization is a courteous driver and feels he is entitled to the wisdom that goes with such membership, he will be equipped with an emblem from which he can loan a kit to his benefit.

Increased Shipping Out Of Bay Port

REGINA—The British minister of commerce, Mr. James Duff, announced today that the shipping out of Bay Port, Saskatchewan, will be increased to 100,000 tons per month, compared to the 50,000 tons per month in 1947.

This was explained by the fact that, although the price of wheat is high, the volume of wheat is also high. The minister said that the shipping out of Bay Port will be increased to 100,000 tons per month, compared to the 50,000 tons per month in 1947.

Every year about this time the final exams for the grades 10 and 11 students arrive in the mail. It is very interesting to see how the papers are marked and how the percentages are derived.

A large staff of teachers were busy correcting these papers all through July, with each group assigned to one subject. Each pupil is given a number in place of a name. When the paper has been corrected the total is marked on a graph to determine an average with the best paper representing 100 per cent, 90 per cent are failures, 20 per cent are marked as "C's" and the 40 per cent left with have the best papers consisting of "B's", "A's" and honor students.

However as in all statistics these marks cannot be an accurate judgment of a student's knowledge of a subject. Such conditions as nervousness, health and noon forgotten cramming affect the student at exam time.

Increase Hives For Production

Colonies of bees that are to be placed in a good many new productive good honey crops need are required in the hive. It is about \$4.00 for each colony. In the past, many colonies have been lost in July, says W. C. Hollander. It is a good idea to purchase colonies in June. The colonies are not yet too hot to handle. What Pool Policy
It was near the installation of the founder of the Alberta Wheat Pool and Pool Elevators that farming, together with the work of regular stockholders, the Pool elevator system was built to give service to the working farmers, not to make a profit for stockholders.

The present Wheat Pool policy in respect to returns accumulated during the period 1922 to 1929 provides for their payment at 100 cents on the dollar from the older members and from those no longer engaged in farming and the transferring of these returns to members who patronize Pool elevators, together with a cash payment divided in the year when service is justly the same.

More Alberta Pool Elevators planned in business the following payments have been made to patron and reserve holders:

Patronage dividends in cash \$1,000,000
Redemption of reserves \$1,000,000
Total \$2,000,000

In addition to the above patronage dividends have been paid in reserves to a total of \$1,000,000. Every Pool member should have a clear understanding of Pool policy. It is believed that such policies should encourage more farmers to become Pool members and should also be an incentive to increase deliveries to Pool elevators.

Advise Early Registration For Olds

The Honourable D. A. Ure, Minister of Agriculture, has advised that applications for entrance to the Schools of Agriculture at Olds, Vermilion and Fairview are coming in quite readily. The opening of the new school of Agriculture at Fairview will relieve the situation at the Olds and Vermilion and Olds, and thus allow the Department to accept all the applications it expects to receive.

In making the announcement young people who are planning to attend a school of Agriculture this fall should forward applications to the Principal of the School at an early date. The School opens October 22.

Agricultural Scholarship To Be Awarded

Some Canadian boys will be sent to an agricultural college for a 4-year course by the T. Eaton Company Ltd. as a result of a new scholarship which will be awarded next November at the Royal Agricultural Winter Fair.

The scholarship open to boys of all provinces, will provide full college fees, lodging and board for a 4-year course, commencing in the autumn of 1932, at any agricultural college in Canada selected by the winner. Cost of books, travelling expenses, clothing and other incidental expenses will not be included.

In announcing the establishment of the scholarship, arranged by Mr. John David Eaton, president of Eaton's, officials of the firm said that ten finalists will be brought to the fair on Nov. 15 to 1932 at Eaton's restaurant in Toronto, the contestants will be interviewed by a panel of judges and the winner then selected.

The ministry of agriculture in each of Canada's ten provinces are being asked to nominate one candidate from each province. In fact have been requested to consider academic standing, activity in agricultural organizations, good citizenship and the candidate's qualifications as a potential leader in community affairs. Nominations are eligible providing they have not reached their 20th birthday on Oct. 20, 1931. Candidates must be in their graduating year in high school, or already have graduated, but must not yet be attending a college.

There is now a passenger car operating on Canadian Highways for every T.E. Canadian.

Lets Talk Turkey Say The Alton Fire Brigade

You people we are now assured of also fresh Turkey for that Farmers Banquet we have been telling you about. We have also assured there will be a worthwhile program.

Now then, how are all, very, on a long a little awaiting on their account. What we mean is, even a little with a ticket and a lunch on buying a ticket (and perhaps you can sell a few to your friends).

Well that the idea we all must help to put this project on a little, and when you see that the evening and watch our Big Red Truck racing to the rescue, you can say "helped him".

Victor-Johnson Exchange Vows

A wedding of local in a hotel place in the Hotel when John Victor and Dorothy Johnson exchanged vows under the service of the Rev. Wally of St. Paul's.

The bride was a floor length gown and carried a bouquet of roses. Her maid of honor, Helen Marshall, wore a floor length gown of blue and carried a bouquet of sweet peas.

The best man attending the wedding was Harold Hester.

The reception with 20 guests took place in the Hotel ball room. The brides were Mrs. John Victor and Mrs. Dorothy Johnson, mother of the bride, were wearing a corsage of roses.

Annual Flower Show Held Here on Saturday

Horticultural Club Holds Display of Flowers With Many Entries

The Flower Show sponsored by the Alia Horticultural Club was held on Saturday, August 26th and proved to be another successful show.

If anything, this year's exhibitors surprised those of previous years. Several notable exhibitors were seen in making off with prizes, among them were: Norma Newmen and Wood of Bloomers, and A. J. Jensen of Delburne and Mrs. Gilbert Hunter, Stettler.

The Gardens were judged by Mr. G. Kenney from the Lacombe Experimental Farm, The Childrens' Classes, Tom Tables, etc., were judged by Mrs. Helen Robinson, Stettler House Economic of Stettler, Mr. and Mrs. P. Anshuber, Superintendent of Calgary, is commenting on the show Mr. Anshuber said, "I have been judging shows for more than 25 years and I have never seen a better display". He also said that the roses were the best he had ever judged. The Gladioli competition with the best anywhere. He especially remarked on Cape Hyacinths exhibited by Mrs. Vanakhtyne and a Vanadium Pansy from Alia, today exhibited by Mrs. Walter Papp. Also there were exhibits of pansies.

Mr. Hunsay had a very favorable comment on the garden but suggested that some would be better if they were thinned out. The winner of the Grand Aggregate and the Royal Balm was a Mrs. B. Agnate.

Following are winners in the garden competition. Most windows:

- 1 Whitfield Electric
- 2 Economy Store
- 3 Mrs. B. Agnate
- 4 Mrs. J. Underwood

Again the Alia Flower Show committee wishes to thank all those who donated money, time, materials, space and their patronage to make this show a success.

Hail Hits Million Acres In Alberta

By the beginning of August an estimated million acres had been damaged by hail, according to J. Glen Elder, chairman of the Alberta Hail Insurance Board. Hail storms, accompanied in many cases by hurricane-like winds, struck on successive nights and days in the latter part of July, and more storms have been reported since. Central and south central Alberta have been the worst of the damage, but other areas have not escaped. Probably the most damaged area, single storm hit hard over the bordering district.

The areas hit represent about 8 per cent of Alberta's total area. In 1950, the heaviest hail storm in the worst year on record, about 7 per cent of the total acreage was hit.

Little White Meteorological Bira Cage

Many people have been wondering what the white cage at the back of the Alia Free Press is. It is a meteorological observation cage for the Alia district. We need a report of the daily temperatures and measurements of rain or snow to the Meteorological division of the Department of Transport and Communications. This information is compiled with other observations and they are also forwarded to the weather bureau at Ottawa. We will attempt to pass our daily observations on to you each week.

Girls Fastball To Play Benefit Game

The girls fast ball team are playing a benefit game with Lacombe Rockets this Friday night at 7 o'clock at the A. A. Park. As the girls have no benefit fund this is a small compensation for one of the girls who is still handicapped by an injury sustained on July 4th. Tickets are being sold on this game by Bell club.

The dance after is to provide entertainment for the girls next year. In order that a good band of ball room brought back to Alia, the girls need backing to provide entertainment during the dance to give you better entertainment in sports next year.

Agg Notes

Ownership Carries Responsibilities

Ownership of land in Alberta gives the farmer a number of privileges, but it also provides responsibilities, warns G. H. Stettler, superintendent of the Alia district. One of our main responsibilities of ownership of land is the control of weeds and maintenance of fertility.

In our land deterioration. Some of our other farmers meet yields much higher than those we obtain today. With the rapid increase in world population and land areas land to be developed we must of necessity handle our present and resources with the utmost efficiency if deterioration is to be avoided.

The few Alberta farmers are following practices that will keep their farms productive, advises Mr. Stettler. The time may come when society will demand that the farmer work his land in such a way as to maintain fertility. In England and certain continental countries such demands have already been made. How long that time will be delayed in Alberta will depend on the farmer's initiative in adopting methods that will retard deterioration of the soil.

Sweetening Water To Keep Flowers Fresh

When is the time of year when bouquets of cut flowers seem to last longer than they should? Here on bouquets cut from flowers in water can be kept for a longer time. The girls are starting early to provide entertainment during the dance to give you better entertainment in sports next year.

Flowers placed in sweetened water last a little longer than those in plain water. The girls are starting early to provide entertainment during the dance to give you better entertainment in sports next year.

Crop rotation, trash cover, use of machinery, the seeding down of water courses and the use of fertilizers, all help in maintaining fertility and keeping the soil on the farm. If these things are put into practice generally throughout Alberta, there will be little need for criticism of the farmer's ability to compensate for natural wear.

Scores For Alia Mirror News

A list of the Club members and the scores on photos have been submitted by the Alia District Agricultural Society. The following are the scores at the top five.

Robert Simpson	875
Jack Noppli	815
John Crawford	780
Jim McLean	750
Dave Larkins	710

The remaining members and scores between 700 and 600. Mr. L. W. Hunsay who judged the photo stated that he was very pleased with the improved condition of the photos and that a progress and interest being shown by many members. A few suggestions were given to the members by Mr. Hunsay which might be remembered next year. Apparently next year is a big problem in the Alia district and the club members. This was one of the reasons for the lowering of scores. Club leaders and our photo shows would raise scoring.

Holmes - Davis Exchange Vows

A quiet wedding took place 2 o'clock Saturday, August 26th at Knox United Church Edmonton. The bride was the former Miss Jeanne Davis youngest daughter of Mr. and Mrs. H. A. Davis of Winnipeg Manitoba. The groom, Jack the eldest son of Mr. and Mrs. H. W. Holmes of Alia. Mrs. Gladys Campbell one of the groom was Matron of honor. James Holmes brother of the groom was best man. After a short honeymoon the couple will reside in Alia.

The only difference between Alia and New York is that we don't get a shift rock looking at the sky newspaper.

Deafies Nightmares

Our beavers are born with a full set of teeth and a beaver is tooth growth throughout the life of the beaver to compensate for natural wear.

LOCALS

Guests at the home of Mr. and Mrs. C. Brown were five grandchildren from Vancouver, daughter and son-in-law and granddaughters of Toronto and Mr. and Mrs. G. York friends from Ashland Oregon.

Mr. and Mrs. Clark are visiting at the home of Mr. and Mrs. W. D. Clarke.

Mr. and Mrs. Albert Rogers of Alia announce the marriage of their second daughter, Kathleen Barbara (Kiki) to James Walter Katsenok of Kaskow on August 26th. The bride is a member of the Alia Anglican Church, Calgary. Mrs. Charles Hunsay officiating.

Mr. P. Pionel entertained her bridge club last Friday, honors going to Mrs. Cunningham, consolation to Mrs. Pionel.

Stanton News

Mrs. Dave McLennan, entertained on Wednesday afternoon August 23rd in honor of her son, Stanley, who celebrated his 21st birthday. There were 25 guests present.

Mr. and Mrs. Al. Baird, Mr. and Mrs. J. M. Baird and two children, Judy and Gordon, of Stettler and Glen Munroe of Delburne and Mrs. J. H. Gussman and Mrs. Mary Thomas of Stettler were the guests of Mr. and Mrs. Harvey Gussman on Sunday.

Mrs. M. Nelson won first prize for rural gardens and Jackie won first prize for school gardens.

Mr. and Mrs. Bill Gussman returned to Stettler and Byron Lake Sunday.

Harry and Mrs. Dave McLennan will be home tomorrow, we will have a speedy recovery day.

Remember friends, if you have any more photos please send them in. We would have more news of interest to your friends and neighbors.

What I Saw!

BY THE REPORTER

Who was it that just about got hung up on the stop sign on main street?

One of the house men in town took a ride down the cemetery hill in a wagon. He ran into the ditch and was bruised badly. Watch for the Hump.

There was a lady at the flower show that said she was a reporter. Her reporter didn't get to her but a photographer from Lacombe snapped a picture. I believe her name was Jack Tallent.

Back To School

On Tuesday, September 10, our school officially opened for another year of hard work. While there has been no change in the teaching staff, there were many different pupils there. Mothers escorted their children to school, that is, the first graders and the beginning of learning to write, fire and home together, began. They shyly took their places, as we all did and began looking at the teacher as if she were a trap that might bite if disturbed. Now the work of the teachers is underway. The teachers may have many things to do but we would like to see a little emphasis on organized sports take place. In the past there has been little real effort to promote sports and we think this goes a long way to the healthy development both mentally and physically of the children. These children and teachers should have able coaching in all their leisure activities for as they are not the future state for our home town activities such as home ball, net ball, hockey, basketball and curling (there is a high school curling club).

Now that school is underway again we hope that organized sports activities will have a fresh start and continue throughout the school year.

Community Entertainment

Our community entertainment seems to take quite a problem in Alix. In the evenings people walk the streets wondering what to do with themselves. We have a few suggestions that provide each person entertainment from 8 to 10 or even 11 on Friday or Saturday. After they have gone to the show what can they do then? Many of these people drive to other towns both for entertainment and in the parking of vehicles.

The argument has been raised that if we have a hall large enough to hold dances, musicals or many other entertainments, what about our theatre which has barely enough support from the small town here. We sincerely believe the added attraction would bring these people to Alix instead of Lacombe or other towns. It would keep our young people in their home town and bring other towns here, many will come in to the dance and go to the theatre in their quest for entertainment.

Because the added attraction is a lacking drawing card, the businessmen and ultimately the town suffers. Are we going to let this money drain from more active centers?

True, a community hall would be an expensive project and impossible with the expenditure presently at hand. However, a community hall should give us food for thought for a future project. We must make Alix attractive so that children residents will not move to some other town to do their buying and enjoy themselves.

Gift Of Grain For Red Cross

With the 1931 provincial election over, the Government has announced 140,000 below quota, the Alberta Division is launching a new campaign throughout Alberta, now being made up of the difference. Farmers throughout Alberta are being asked to give grain when making their donations. The national quota for Alberta is 1,100,000 for the new Alix Red Cross Crippled Children's hospital. While the province has reached the national

Harvest Help On Way To The West

The annual movement of harvesters to the Prairie provinces arranged under Federal-Provincial Farm Labor Agreements is due to commence this week with the bulk of the movement taking place the latter part of the month and the early part of September. It was announced by Hon. Milton F. Girvin, Minister of Labor.

Present indications are that about 1,000 workers will be required, but the figure may be increased depending on harvest conditions. The Minister pointed out.

Recruiting of men for this harvest excursion would take place in Ontario and Quebec, but care is being taken to see that only experienced farm workers who could be spared from agricultural work in their own areas would be recruited.

All workers recruited from points in Quebec and Ontario were to be dispatched to Winnipeg where distribution to Prairie points would be made. Transportation was being provided for the workers at a low rate of \$15.00 going and \$11.00 for the return journey.

In order to facilitate recruiting by the National Employment Service, double reply postcards were being mailed to farmers in certain areas in Ontario and Quebec, the reply portion to be filled in by an eligible applicant and mailed to his nearest National Employment Service Office. This method had proved successful in other years.

Earlier this summer, workers were brought from Newfoundland, the Prairie and Maritime Provinces for the hay and early grain harvest. The men who came East from the Prairies would now return to their own provinces for the harvest there, explained Mr. Girvin.

Operations No Need For Worry

(Reader's Digest)

Approximately ten million people will undergo an operation this year. If you are any of them you can draw comfort from the fact that advances in surgical technique have made the great majority of operations completely painless.

Author George Williams looked closely at 18 operations, from clefts in the mouth, and reports reassuringly in a September Reader's Digest article condensed from Medical Business. "Thinking all operations as they come, on a patient and on the patient's mind, the patient's mind is about as calm as a cat. Thanks to the great advances of the past 20 years in the control of pain, infection, shock, nausea and physical well-being it is now said that any patient with normal heart, lungs and kidneys should have 100 percent of recovery."

The anaesthetic can put you to sleep, break all pain, in 45 to 60 seconds, and hold you there for the length of the operation. However longer have you on a scale with lightning speed, as they more did, when one out of every four patients died after a major operation. The shock of being anaesthetized and much loss of blood made speed imperative. But today, hurry is regarded as a hazard. The anaesthetic can now keep the patient all the time he needs, and blood loss is a minor problem, now that all hospitals have blood banks. Transfusion, even supplying the patient who is in a critical condition, can keep him from dying in many cases.

Red Cross Tag Day

The Red Cross will be holding tag day in the next future. It is the funds of the new hospital for crippled children at Calgary. Ladies from the various organizations are to be asked to do the tagging and the citizens are to be asked most earnestly to do the giving.

Funds are very urgently needed for this most deserving hospital. There was a deficit in the hospital quota of 200 tons that

All rain companies in Alberta are enthusiastically endorsing the appeal, and have submitted a working out the details. With the permission of the Canadian Wheat Board, farmers, on making deliveries may have a cash ticket for their donations made out to the Alberta Red Cross Board. Although the Red Cross Board was unable to grant this

The appeal will start at 10:30 a.m. September 4 when Mr. Jay Marler, president of the Alberta Federation of Agriculture, will present the first 10 bushels of grain to Lieutenant Governor J. J. Bowen, patron of Alberta Red Cross.

It is expected that many farmers will welcome the opportunity of supporting the appeal, to "Give a happy ending to the story of a crippled child."

Noxious Weed Fund at Millar

White Cockle, a primary but less weed, has been found in abundance near Millar. It is an erect type of plant with leaves opposite and with short hair over the leaves and stem. The flowers are white or pink with five petals. The seed is similar to clover seed and is probably becoming scattered through moving of impure alfalfa and clover seed. This weed is a biennial or perennial and is very difficult to eradicate.

Anyone finding a plant of similar nature should have it identified. Destroying these weed patches when they are small will result in the saving of great expense later on. The Field Supervisor at the Millar Office will be glad to assist in identification if needed.

Gas Export Will Benefit Alberta Farmers

From 1901 to 1911 more than 150,000,000 bushels of wheat were exported from Canada. In the last 10 years, the export of wheat has been reduced to about 10,000,000 bushels. This is due to the fact that the world's supply of wheat is now being produced in the United States and Argentina.

Today my heart beats 103,300 times, my blood travelled 160,000,000 miles. I finished 23,410 times, I inhaled 441 cubic feet of air. I exhaled 441 cubic feet of air. I took 20,000 breaths, and I lived 1,000,000 heart beats. (The last 100,000 heart beats.)

Council Holds Regular Monthly Meeting on Monday October 1st

Agenda the Village Council meet in the Council Chambers to conduct the regular monthly business. Mayor Lundberg along with the councilors and Rev. Arnett were present. The Council considered a report of a license for R. M. A. McGill to operate a watch repair and jewelry store also a permit was given to Mal Doe to build a new home. The Secretary was authorized to purchase stock again, with 25 of 25 mile speed limit on 2 or 10 School Crossing. Along the same line discussion to some length took place on the possible appointing of a permanent Public Works officer. Information from the Director of Taxation on the proper procedure to be followed to enforce Personal Property Tax payments. A letter from the Board of Transport Commissioners that the matter of straightening out the private road at Main Street would be taken up with the C. P. R. Two interesting letters were read in the correspondence. The first letter from the Union Oil of California advised that they would lease the rights for a period of three years with the right to renew at the end of that time, with the same terms as previously stated. The Council deferred action until a later date. A letter was received from the Phillips Hamilton and Associates enclosing an account of \$600.00 for the servicing of the cemetery. The discount of \$20.00 for immediate payment was accepted by the Council. A Final Certificate of Approval of the cemetery site from the Board of Public Utility Commissioners. A donation of \$25.00 was made to the Alia Library. Associates totaling \$100.00 for the month of September were passed for payment.

Your Village Council

The Village of Alix is a small group chosen by the taxpayers to Alix to divide various matters on behalf of the common people. This group carries out the business of the village in the best way they can see fit, and is the best interest of the village residents.

At the present time there is a very important decision up before our Council. This decision may influence the future of Alix as much as we can see. The Village may be made compulsory tax free and civility active through little expense used to be taken from the pockets of the people. Such a decision which may mean a lot of money for water works a swimming pool and other civil activities, some quite a big load on the shoulders of four out of seven landowners of our Village people.

Where is this money? Some may say, "Lately the Council have covered and made known the office of all money on their property. This might sound great, but interest and much would be needed to be well attended. Should the village assume this office now, in case all interest, all money or should we wait for better offers. This is the future of our Village. Alix's own interest? We are not going to answer with the Council to see how they operate.

Letter To The Editor

Dear Sirs

The Council of the Village of Alix at their last regular Monthly Meeting held on Monday, October 1st, 1951, requested the undersigned to express their warmest gratitude to the Fire Chief, Deputy Fire Chief, Secretary and other members and officers of the Volunteer Firemen's Brigade for the excellent work they are doing in maintaining the fire equipment of this Village.

These improvements will not only greatly assist in saving fire hands but will be of considerable benefit to "Civilians" as well.

"Fire Prevention Week" has been proclaimed from Oct. 1st to Saturday, October 13th. At all offices should jobs in making their own premises as fire free as possible.

Yours very truly,
W. R. Clarke
Secretary-Treasurer
Village of Alix.

"Beats the old team any day, Dad"

AWHILE back, he figured out just what a new tractor would do for his farm. He didn't have enough cash in the bank to handle the deal. So he talked things over with his bank manager, fair and square. He got his bank loan - and the tractor. From now on, he expects to work more acreage, increase his farm income. Soon the bank will be repaid. He looks to his chartered bank for market information, too, and any other banking service he may need. That's what he wants. That's what he gets. Sound business all around!

S. R. Sutley Takes Bride Last Week

The Statler United Church was the setting for a lovely bridal when Miss E. R. Sutley, daughter of Mr and Mrs W. H. Hewitt of the Valley became the bride of S. R. Sutley, youngest son of Mr R. B. Sutley of Alxa.

Given in marriage by her father the bride wore a gown of white satin with a jeweled bodice and lace panels forming the train. Her veil was held in place with a coronet of white flowers and carried a bouquet of red sweetheart roses.

The bride was attended by Miss Margaret Hewitt, bridesmaid and Mrs W. M. Miller of Big Valley, matron of honor, in gowns of blue and pink respectively. The bridesmaids were Miss E. R. Sutley, daughter of Mr and Mrs W. H. Hewitt, and Miss E. R. Sutley, daughter of Mr and Mrs W. H. Hewitt. The bridesmaids were Miss E. R. Sutley, daughter of Mr and Mrs W. H. Hewitt, and Miss E. R. Sutley, daughter of Mr and Mrs W. H. Hewitt.

Late a reception for about fifty guests was held at the Statler hotel. The bride and groom were seated at a three tiered cake and thanked with carnations and mums. Mr C. K. H. D. was promoted by Rev. Little.

The bridesmaids then left for a honeymoon in the Statler hotel. For travelling the bride wore a white blue suit with red accessories.

The happy couple will live in Statler.

Farmers Influence

Where someone takes up Monday morning old matter nature was raging outside. It looks as though water is here for another five or six months. To the towns people this means only more water and more discomfort in doing the house work. Just a minute, there is a more important discomfort for us to think about. Let us think of the farmer who still has his profits standing in the fields.

It is believed to over-look the actual facts of the farmer on the business man in a town centered in a farm. extended year they do not have the extra money to spend on their crops. Those who produce the fruit of the land definitely influence the business of the man whose name is bought by that producer.

Letter To The Editor

Dear Sir:

During casual conversation how often have we heard the remark: "How do I know?" That organization is run by a half dozen or so well known people who just go ahead and run things to suit themselves. How very true this statement is, not because those half dozen men wish to run things to suit themselves, but because the greater majority of people either are not interested enough or cannot be bothered to attend such things as annual meetings and elections of officers. The net result: the same few hands of nearly all community organizations. This means a failure of the title "Community" organization. Everyone should have a voice and should take part in all community efforts.

The Alix Alliance Association is in this same category; however the Executive of this body have opened the door to everyone in this area and it will be a shame not to accept the same offer of the welcome mat.

Dear Sir:

All members of the Alix Alliance Association are the producers saving the 2 dollar annual membership card to the A.A.A. These membership cards are not sent out until the end of the year. The purpose is, as the name says, to save the money. It is the intention of the Executive to create a community wide interest in the association which belongs to the community. To meet this end a meeting of all members will be called with in the next few weeks in order that they may present their opinions and views to the Executive and so that the Executive may present their problems to the people to whom the association belongs.

Alix Cadets Go to Edmonton To See Royal Visitors

Up boys, up you'll be late! Saturday morning 3:15 it was the surprising call that rang through the homes of the Alix Cadets. They were to leave at 7:30 to meet the High Level Corps under Lt. Palmer in Lethbridge.

Feeling a bit like cattle the troop settled down in the big army truck. They were to see the future Queen of Canada.

After singing our song at the trip they passed over the High Level Bridge and to a Kingsway their parking place. Three hours wait, lots of jokes, laughter, and a C.N.R. shop showing lineups. At the crowd gathered the Cadets decided to police duty in front of the hotel open for the royal procession.

The exciting moment came at the arrival of the royal party, breaking through, leaving the Cadets a bit shaky in the line behind.

The order was given and the boys moved up again, the time to the first salute was then when they saw a perfect view of the Cadet with the Royal visit.

The great moment came when the boys, first and Henry walked back to their truck. Howard home, the boys stopped at Warden for a big supper. Finally they returned home every bit tired, it was well worth it all.

Youth and Toronto Royal

Last year when a 13-year-old boy from Alberta made headlines in the world's best when he won Canada by defeating several other young men. To win the Royal Agricultural Winter Fair, the boy's policy of trying to explore young people's interest in agriculture really paid off.

To young Ricky Sharp, a 13-year-old boy from Alberta, who just missed winning the world championship in 1959 when he was only 13 years old.

Again this year youth will play a major role at the Royal. Last year 17,000 young people, armed in the youth with young men that even stamped the fair's famous experts, came to the Royal from all over Canada and some parts of the United States to see the youth exhibition.

The Royal Fair, always young, has developed its program over the years with young people in mind, and more than in agriculture.

Many experts at the fair hold particular interest for young men. They are holding competitions for young men and women that draw hundreds of entries. At them would be judged to learn the tricks of the trade from veterans.

Again this year over 100 young people from every part of Canada will attend the fair to take part in the competition sponsored by the Canadian selected to come to the fair after they have won provincial championships, will compete in a number of events that vary from crop study to home economics.

YOUTH DIRECTORS

In line with its policy of encouraging young people to become interested in agriculture, the fair now appoints three young people, usually students at agricultural colleges, to its board of directors. In addition one or more young people are included in the membership of the committee.

This year a candidate from each province will be brought to the fair by the T. Eaton Co. Ltd. to compete for a scholarship that will pay the winner's way in a four-year degree course.

This development will introduce the first perennial forage variety to meet the stringent requirements of the great prairie areas, provided of course that the plant lives up to the high expectations held by scientists who are most enthusiastic over its unique creeping-root system and preliminary performance.

The newspaper has been called the common man's almanac.

Experiments Show Boost in Lamb Production

Recent studies at the Dominion Experimental Station, 1000 miles from the coast, have shown that the amount of protein in the wool of the sheep is directly proportional to the amount of protein in the feed.

Additional studies of the same kind have been made at the Dominion Experimental Station, 1000 miles from the coast, have shown that the amount of protein in the wool of the sheep is directly proportional to the amount of protein in the feed.

These studies were conducted during 1929 and 1930 to determine the effect of various levels of protein in the feed on the production of wool.

Three uniform groups of range ewes (17 head per group) were fed rations containing 7, 10, and 13 per cent protein, beginning in June, 1929. The ewes were bred in New Zealand Curlewale stock in November. Lambing commenced during the first week in April, 1930.

TESTS JUSTIFIED

The tests resulted in the following conclusions: Increasing the protein content of the ration from 7 to 10 per cent produced an increase of more than 50 per cent in the average birth weights of all lambs. An increase in 12 per cent protein gave no further increase in birth weights of the lambs. When considered on the basis of the total weight of lamb per ewe, the results are practically the same. The lambs in the two groups receiving the higher levels of protein also maintained their weight advantage in weight over those in the low protein group right up to weaning. These lambs were more vigorous at birth, and because the ewes had a better milk supply, the lambs had a lower mortality rate. The number of lambs weaned also increased considerably in relation to the protein content of the ration.

On the basis of these results it appears that during pregnancy

Rates are still coming in. Dead and alive, they are being found at widely scattered points in the province. Douglas Ferguson, director of Crop Protection, warns that although the number reported is comparatively small, we cannot afford to relax our efforts because of a sudden weather. Rates are Mr. Ferguson's estimate.

Rates or signs of rats should be reported immediately to the district agriculturalist, pest control officer, or Field Crops Branch, Alberta Department of Agriculture, Edmonton. District agriculturalists are also available to offer information and advice on rat control. They have in their office preserved rat skins

THE FIRST CHRISTMAS...

AND there were in the same country shepherds abiding in the field, keeping watch over their flock by night.

And, lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them: and they were sore afraid.

And the angel said unto them, Fear not: for, behold, I bring you good tidings of great joy, which shall be to all people.

For unto you is born this day in the city of David a Saviour, which is Christ the Lord.

And this shall be a sign unto you; Ye shall find the babe wrapped in swaddling clothes, lying in a manger.

And suddenly there was with the angel a multitude of the heavenly host praising God, and saying:

Glory to God in the highest, and on earth peace, good will toward men.

And it came to pass, as the angels were gone away from them into heaven, the shepherds said one to another, Let us now go even unto Bethlehem, and see this thing which is come to pass, which the Lord hath made known unto us.

And they came with haste, and found Mary, and Joseph, and the babe lying in a manger. And when they had seen it, they made known abroad the saying which was told them concerning this child.

And all they that heard it wondered at those things which were told them by the shepherds. But Mary kept all these things, and pondered them in her heart.

Now when Jesus was born in Bethlehem of Judaea in the days of Herod the king; behold, there came wise men from the east to Jerusalem.

Saying, Where is he that is born King of the Jews? for we have seen his star in the east and are come to worship him. . . .

And, lo, the star, which they saw in the east, went before them, till it came and stood over where the young child was.

When they saw the star, they rejoiced with exceeding great joy.

And when they were come into the house, they saw the young child with Mary his mother, and fell down, and worshipped him: and when they had opened their treasures, they presented unto him gifts; gold, and frankincense, and myrrh.
